3. FOREWORD BY THE MINISTER

Adv. Albert Fritz
Provincial Minister: Social Development

As the Western Cape Minister of Social Development, I am proud to have seen through another financial year leading a department which continues to grow its services and expand its reach, in a sustainable and stable manner.

The ever tougher economic and fiscal climate has meant that the Department had to increasingly work smarter, and most importantly prioritise delivery on key services. As the political head, I have placed an imperative that the Department's service delivery always demonstrates measurable impact on communities, as a means of ensuring that the Department of Social Development (DSD) can continuously monitor effectiveness, and continuously improve.

Of course, measuring impact is also easier when the Department itself is guided by a set of clear, coherent and measurable strategic outcomes, which assists the Department to deliver on its many legislative and policy directives. In this regard, the 5 Provincial Strategic Goals (PSG), specifically PSG 2, which calls on the Department to: improve education outcomes and opportunities for youth development, and PSG 3 which mandates us to: increasing wellness, safety, and tackle social ills, is key. This Annual Report allows DSD to evaluate just how much progress the Department has made in this regard. PSG 2 required that DSD direct its services toward supporting, and where necessary, protecting young children in order to help them prepare for and stay in school, and realise their rights to safety and adequate care.

In this regard, I am proud of the work that DSD has put in to train our social workers in different specialised provisions of the Children's Act. In particular:

- 26 social workers were trained on the Safety and Risk Assessment Tool;
- 34 social workers were trained on adoptions as a permanent placement option for children in need of care and protection; and
- 14 social workers were trained on mediation by the Family Mediators' Association of the Cape.

Given the challenges that have plagued the Department in relation to the administration of the foster care system, I am proud to note that progress has been made. The appointment of a Foster Care Manager will go a long way in ensuring that we continuously improve this aspect of the Department's delivery.

The Department's Child and Youth Care Centres (CYCCs) have improved their efficiency. The centralised admissions system for children to CYCCs has also contributed to the more effective management and placement of children.

PSG 2 further directed the Department to place emphasis on supporting youth beyond their school years, to help bridge the gap from education into financial independence. Read in conjunction with the Provincial Youth Development Strategy (PYDS), the Department achieved some notable developments this year.

The establishment of Youth Cafés remain a key priority for the Department. The Youth Cafés have proven to be very successful in providing targeted and meaningful services, opportunities and support to thousands of young people across the province. The sixth Youth Café was opened in Vrygrond in 2016. A total of six Youth Cafés have been established in the province since 2014 and I am proud to report that all are currently fully operational and delivering on their mandates. The Ministerial Youth Excellence Awards were held this year with a total of 21 organisations being honoured for their outstanding contribution to youth development, and five individuals for being role models to other youth. Extending opportunities to youth was a big focus area this year. I am proud of the 61 young people who were part of the Youth Skills Transfer programme, and who progressed to eventually graduate from the Business Incubation Programme. The programme included a Youth Business Expo hosted by the Ministry.

PSG 3 required, among other things, that DSD provide psycho-social support services to reduce harms related to social ills in the province. The Department focused on improving treatment and related interventions for substance abuse. The defining feature in the Department's fight against substance abuse was the expansion of various services. The Department expanded the following:

- Outpatient treatment programme in CYCCs;
- Adolescent matrix programme at schools in Kuilsriver, Eerste River, Steenberg, Lavender Hill, Hout Bay and Elsies River;
- Opioid replacement programme; and
- Community-based treatment programmes in Atlantis, Beaufort West and Ceres.

The Department's interventions to protect older persons from abuse or neglect received a major boost this year. I am proud to announce that DSD has established an Inspectorate, which will tackle issues of elder abuse, and address human rights issues. The Department continued to prioritise the residential care facilities for frail older persons, and has made substantial progress with the mandatory registration of funded and private residential facilities and thus compliance with norms and standards in terms of the Older Persons Act. The Department's care and support for victims of domestic violence received a boost this year, with the establishment of the province's 16th shelter for victims of abuse. Our shelters continue to cater for victims of human trafficking.

These are just some of our achievements, and in this regard I would like to thank the Head of Department (HOD), Dr Robert Macdonald, for his outstanding leadership of the Department. Most importantly, as we look back on this financial year, I would like to thank every official in the Department and our Non-Profit Organisation (NPO) partners, who work on the ground in service of those most in need of our services.

As a Department, we remain committed to play our part and deliver to all people. As the economy and fiscal climate continues to deteriorate, DSD will continue to build partnerships and innovate. We can achieve more if we continue to work 'Better Together'.

PROVINCIAL MINISTER OF SOCIAL DEVELOPMENT

Adv. A Fritz

4. REPORT OF THE ACCOUNTING OFFICER

Dr Robert Macdonald
Accounting Officer: Social Development

Overview of the operations of the Department

For the last few years, the Department has been operating within an environment of increasing resource constraints due to a reduced fiscal base and growing demand for essential services. The Department has been applying austerity measures since 2013 and prioritising funding toward direct service delivery. An ongoing challenge that the Department has experienced was to realise value for money via funding NPO services without compromising the viability of these organisations. It has worked towards this objective by increasing the subsidy allocation for the salaries of social workers, social work supervisors and social work managers at funded NPOs in the previous financial year and the provision of a 3% below inflationary rate increase, as opposed to no increase, to funded NPOs. The increased financial pressure required further reduction of non-statutory services and prioritisation of statutory services such as child protection.

Child protection is the single most important priority of the Department and is especially necessary in light of the escalating violence against children. The Department is working to ensure that all children in need of care and protection receive quality services through improving the capabilities of its social work staff. To this end effort has been directed at ensuring the existence of a 24-hour child protection service, implementing the Strategy for Improvement of Child Care and Protection Services 2015 (CCPS), ensuring that all social work staff are kept abreast of new developments in the field of child protection and are trained to implement the Children's Act. This included the development of approved plans, Standard Operating Procedures (SOPs) and accompanying training programmes in order to assist social work staff with the implementation of their statutory duties. Provision of psycho-social support and counselling services to families, very young mothers, boys and fathers, and at risk parents continued.

A special Early Childhood Development (ECD) programme for English language and cognitive development where school readiness is poor was launched in April 2016, was piloted at ten ECD sites in Khayelitsha, Delft and Philippi, and will be rolled out to a further 50 sites – including rural areas - in 2017/18. It includes a mobile messaging application which provides parenting and practitioner support programme at these sites. Two media campaigns focused on raising awareness of ECD. The First 1000 Days mobile friendly site (a platform that facilitates ease of access from any mobile device) was launched in collaboration with the Department of Health (DoH) and highlighted the importance of the child's development during the period from conception until their second birthday. The second ECD campaign highlighted the importance of partial care facility registration and its benefits for children and parents'/caregivers.

The Department has taken the lead in the development of a Provincial Framework for Persons with Intellectual Disabilities, to provide role clarity between the DSD, DoH and the Western Cape Department of Education (WCED). A Disability Mainstreaming Strategy to promote integration across the sector and the province was approved. A residential care facility for children and adults with multiple disabilities was transferred from the DoH to the DSD on 1 April 2016. A multi-pronged awareness campaign targeting persons with disabilities, their families and caregivers was implemented using digital media, print media and radio focusing on available services.

The Department has received an increase in unit costs from Provincial Treasury (PT) for frail older persons in residential facilities, however the funding requirements for frail care are disproportionately high in relation to the subsidy allocation and is therefore not sufficient to cater for their needs. Care for older persons, especially the expansion of independent and assisted living, frail care and appropriate community-based interventions remain a priority for the Department. This is effected through the funding of service centres, assisted living facilities and residential care facilities. A database for unfunded Community-based Care and Support Services (service centres) was established to enable a holistic view of services, assist in identifying gaps in the service delivery areas as well as addressing priority areas for the allocation of future funding.

The Department has continued to focus on victim support; shelters for homeless adults especially women and children, and special accommodation for victims of human trafficking; probation services and diversion programmes. A review of the Diversion Accreditation Policy Framework commenced, while the system for tracking and monitoring all children in conflict with the law who are in detention was implemented, thereby enabling the Department to identify and address systemic and procedural blockages. Five national diversion programmes are operational and four provincial diversion programmes were accredited in the year under review. Accreditation of level two diversion programmes for girls at Vredelus CYCC is in process in order to provide for this need. A project in Hanover Park, Manenberg and Lavender Hill that implements an intervention model with the aim of transforming communities devastated by psychological and economic challenges, has yielded the following results in the year under review: A counselling project (258 new clients); the men's mentoring project (173 new clients), an aftercare project (184 children in three primary schools) and the youth in action project (209 youth and children).

Fully functioning quality assurance based on a three year approved plan was implemented as part of a comprehensive performance management system ensuring compliance with norms and standards for CYCCs. The Western Cape is the leading province in terms of full registration of CYCCs providing secure care programmes to children and youth in accordance with the Child Justice Act. Implementation of risk plans for all centres and an effective quality assurance process assisted in monitoring compliance with norms and standards for secure care centres. A Crisis Communication and Reportable Incident Protocol has been rolled out to funded NPO CYCCs that has assisted NPOs in the field to identify trends, training needs and to proactively manage the protection of children through special investigations and corrective/ development plans. The structured interventions within Western Cape DSD CYCCs for awaiting trial and sentenced youth are now used as a benchmark for the Draft National Policy on gang management within secure care centres.

The Department has prioritised the upgrade of security at shelters for victims of crime and violence, and has expanded services in areas where gang violence occurs. To ensure implementation of the Prevention and Combatting of Human Trafficking Act, an internal Human Trafficking Task Team has been established to assist with the implementation of the Act. The Department will develop a plan for roll out of the National Gender-Based Violence Command Centre - a 24-hour helpline operated by social workers to assist victims of gender-based violence to access services. Support services to victims of crime in the Lesbian Gay

Bisexual Transgender and Intersex community were expanded, educational workshops for men were conducted in areas with high prevalence of domestic violence, and therapeutic and psycho-social victim support services were expanded to victims of gang violence. A referral protocol has been developed to ensure that services to victims are coordinated. Shelter space for male victims of domestic violence was piloted to develop a baseline for the need for male shelters in Cape Town. The Department also piloted the first shelter in South Africa specifically for adult victims of human trafficking and their children. Three shelters in the Western Cape received recognition awards from the National DSD for the quality service that they are rendering.

Progress in the field of substance abuse included the expansion of an adolescent school-based outpatient programme in Elsies River; outpatient programmes in the rural areas of Beaufort West and Ceres thereby expanding service delivery and improving accessibility; a government-run inpatient substance abuse treatment centre for 30 female clients in Kensington; provision of an inpatient substance abuse programme to 20 male adults and 16 males (age group: 16 – 17) at the Kraaifontein Reception Observation Assessment and Referral (ROAR) Treatment Centre; and an inpatient treatment centre for 10 boys (age group: 13 – 15) and 8 girls (age group: 13 – 17) at the Lindelani CYCC. Furthermore, subsidised bed space was increased at two inpatient treatment facilities to improve accessibility, and a community-based treatment model was implemented in all CYCCs supported by inpatient units at Lindelani for children and De Novo youth centre. The Department has provided bursary opportunities to a number of students from funded NPOs for a post-graduate degree in substance abuse care with the objective of building the skills base and expertise in the field. The digital substance abuse campaign that focussed on the myths and facts of substance abuse, and how to access help extended its reach by broadening the target audience, refining channels, and building on the preceding year's campaign. A dedicated substance abuse mobile friendly site was also developed.

Interventions aligned to the Alcohol Harms Reduction Game Changer include the development of an internal referral pathway for case management at DSD local offices which is currently being piloted in Metro East, Metro South and Cape Winelands. This will assist communities to access alcohol-related early intervention and preventative services. In addition, a SOP for high risk alcohol users has been developed in order to standardise interventions in the three pilot regions. Memoranda of Understanding (MOUs) were signed with two schools in Metro East (Town Two Khayelitsha pilot site) cementing collaboration on preventative strategies regarding harms related to alcohol abuse. The Department and the DoH have developed a composite resource directory of the three pilot sites to market the alcohol-related services provided by various stakeholders in the area.

The Department finalised the Destitute Persons Burial Assistance Guide to provide a framework for the Department to assist poor and vulnerable families who cannot bury their loved ones. A DSD Disaster Management Plan 2017/18 was developed in collaboration with the Western Cape Disaster Centre to clarify roles and responsibilities regarding disasters.

Departmental receipts

Own revenue generated by the Department amounts to 0.1% of the total budget. The Department's main sources of revenue are:

- Collection of debts owing to the Department;
- Bad debts affecting own revenue amounted to R128 thousand and was due to the uneconomical recovery, debts prescribed and undue hardships;
- Commission on insurance and garnishee order deductions;
- Parking and official accommodation fees as per Department of Transport and Public Works (DTPW) policy; and
- Recovery of unspent transfer payment funds of the previous financial years.

The over collection of revenue for the 2016/17 financial year is R1, 115 million and is mainly due to the following:

- Increases in recovery of debts;
- Funds paid back by Government Motor Transport and SASSA telephone accounts in respect of previous financial year accounts.

Programme 1:

The Programme has spent 100% of its R185,987 million budget for the 2016/17 financial year.

Programme 2:

The Programme has spent 99.7% of its R768,382 million budget for the 2016/17 financial year. The unspent funds of R2,099 million relate to an underspending in Compensation of Employees (CoE) due to not finding suitable candidates in the recruitment process, internal promotions and staff exits.

Programme 3:

The Programme has spent 99.99% of its R611,481 million budget for the 2016/17 financial year. The unspent funds of R240 thousand relate to the After School Game Changer under NPOs.

Programme 4:

The Programme has spent 99.6% of its R345,823 million budget for the 2016/17 financial year. The unspent funds of R1, 211 million relate to an underspending in CoE due to not finding suitable candidates in the recruitment process, internal promotions and staff exits.

Programme 5:

The Programme has spent 99.4% of its R50,092 million budget for the 2016/17 financial year. The unspent funds of R321 thousand relate to an underspending in CoE due to not finding suitable candidates in the recruitment process, internal promotions and staff exits.

Virements

- The underspending on Goods and Services in Sub-programme 1.2 is due to the accrued expense for the March account for Auditor-General fees only being paid in April 2017, travel and subsistence due to further austerity measures on air travel, accommodation and staff training due to the budget being supplemented by the Health and Welfare Sector Education Training Authority (HWSETA). The funds will be utilised to augment the shortfall within Sub-programme 4.2 for clothing and uniforms to clients and staff in DSD CYCCs, property payments, agency and outsourced services at Horizon and Clanwilliam;
- The underspending on CoE in Sub-programme 2.1 is due to internal promotions, not finding suitable candidates and filling of prioritised posts in Sub-programme 3.3 and 3.4.
- The underspending on Transfers and Subsidies in Sub-programme 2.3 is due to non-compliant NPOs (non-submission of audited financial statements). The funds will be used to offset the shortfall in Sub-programme 4.2 for agency and outsourced services for Horizon and Clanwilliam; and
- The underspending on Transfers and Subsidies in Sub-programme 3.4 is due to non-compliant NPOs (non-submission of progress reports and/or audited financial statements). The funds will be utilised to augment the shortfall within Sub-programme 4.2 for agency and outsourced services for Horizon and Clanwilliam, Sub-programme 4.4 for maintenance and repairs at own facilities from the Goods and Services budget and Sub-programme 5.6 for Transfer and Subsidies for Youth interventions.

Rollovers

- The Department applied for roll over and the retention of revenue amounting to R1,355 million. This will be utilised as follows:
 - The roll-over of R240 thousand is for the After School Game Changer where funds were only committed once the post audit follow up process was completed. The aim was to ensure standardisation of attendance monitoring systems for after school facilities and Mass participation; Opportunity and access; Development and growth (MOD) centres. Much effort was placed on ensuring a working biometric system. As the system proved to be challenging for MOD centres, the DSD biometrics project was cancelled and the funds were reprioritised for training and capacity building, hence the submission and contract with Partners Afterschool Care Projects (PASCAP) service organisation. The funds will be spent in the 2017/18 financial year.
- The application for the retention of revenue of R1, 115 million is for the purpose of providing funding to 3 NPOs as listed below:
 - Western Cape Forum for Intellectual Disability: To facilitate first aid training for 203 staff, facilitate the acquisition of police clearance certificates and facilitate accredited home based care training;
 - Carel Du Toit Trust Fund: To purchase audiometric equipment for improved and quick access for an early intervention service for deaf children; and
 - Vukani Centre for Children with special needs: Vehicle repairs for the transportation of children to and from the centre.

Reasons for unauthorised, fruitless and wasteful expenditure and the amounts involved as well as steps taken to address and prevent a recurrence

Future plans of the Department

In line with our determination to continuously improve the implementation of service delivery related statutory requirements, the Department will support and increase opportunities for children and youth. In this regard the Department will continue to roll out the Provincial Early Childhood Development Strategy. This strategy has already seen the development of a ground-breaking pilot special ECD programme for English language and cognitive development, set to grow in the next financial year. The Department will also continue to be involved in the After School Game Changer which will provide the spaces children need to engage in positive developmental activities.

Through the PYDS, the Department will ensure that programmes for young people are sustainable and have a meaningful impact on their lives, especially as it relates to reducing youth unemployment. In terms of the Departmental mandate, the strategic focus is to ensure that the needs of the most vulnerable and at risk young people in the province are prioritised while also providing services, opportunities and support to a cross section of young people. To this end Departmental initiatives are aimed at improving the quality of youth development outcomes, particularly by ensuring that all of DSD youth targeted programmes are geared towards channelling young people into opportunities that improve their job prospects, skills levels and overall life chances. The Department will seek to build on and improve the quality of all programmes that target young people, particularly programmes such as the Youth Cafés. In this regard the Department will pay attention to ensuring that the Expanded Public Works Programme (EPWP) is more efficiently utilised as a source of economic opportunity and skills development for young people. The Department will also focus on the inclusion of youth with disabilities, with specific emphasis on creating improved linkages to economic opportunities and better quality services for youth with disabilities.

A transversal approach is important as the economic climate continues to place pressure on the Department's resources and ability to deliver. The Department will continue to focus on strengthening the family through the 'Family-at-Risk' project. The project will focus on essential services to families at greatest risk, and move toward services aimed more at medium risk cases as these essential cases/services are stabilised. Execution of this project is partially dependent on external stakeholders in the Child Care and Protection, and Family Law systems, including the Family Court, Children's Court, the South African Police Service (SAPS), and the Office of the Family Advocate. The Department will work on building cooperation with these role players.

The Departmental focus regarding the Alcohol Harms Reduction Game Changer will be on expanding the community-based model for substance abuse treatment and rehabilitation. Our major focus, in partnership with the DoH, will be to establish a Brief Motivational Intervention (BMI) at emergency centres in the targeted areas, providing high risk users that have an alcohol-related injury with the necessary support and assistance. The BMI service will have a concrete referral pathway process to ensure that once high risk users are discharged from health facilities, they are able to access appropriate social services. In this regard, we will coordinate our community programmes, and streamline the referral systems amongst all our partners within all spheres of government and NPO sectors. In addition, the Department will continue the work of growing the number of rehabilitation services aimed at addressing the psycho-social effects of alcohol and drugs.

Public Private Partnerships

None to report.

Discontinued activities

- The closure of the state run Level 2 Tenderten CYCC for children aged 5 – 12 years. The reasons for closure are as follows:
 - Level 2 care according to the Strategy on the Provision of Child and Youth Care Centres falls within the ambit of an NPO CYCC; and
 - The over-provision of these CYCCs in the Metro South area.
- All staff have been re-deployed within the Department as directed in the union agreement. Final matching and placing is in process and all residents have been placed within the adequate level of care at NPO CYCCs.
- The funding that was made available because of this reprioritisation was used to establish additional needed secure care (Level 3) bedspace at Lindelani and the provisioning of the Kraaifontein ROAR and Treatment Centre.

New or proposed activities

- New activities for this reporting period are as follows:
 - Establishment of the Kraaifontein ROAR and Treatment Centre;
 - Increased secure care bedspace at Lindelani; and
 - The transfer of the Sivuyile facility for persons with intellectual disabilities from the DoH as of 1 April 2016.
- The need for an increase in secure care bed-space was required due to more children on the streets and escalating social issues such as gang violence etc. Therefore, Lindelani, which was previously a ROAR centre, now also became a secure care centre for children with challenging behaviour and a ROAR centre for boys was established at the Kraaifontein ROAR and Treatment Centre;
- Sivuyile was transferred to the Department as per the approved Cabinet Submission of 2015 and related to the Right to Education Court Case for People with Intellectual Disabilities. The Department is responsible for coordination and facilitation on issues of intellectual disabilities; and
- There was no additional cost regarding the establishment of the Kraaifontein ROAR centre and increased secure care bed-space at Lindelani since the budget that became available with the closure of Tenderten was re-prioritised for the purposes of establishing the ROAR centre. In the case of Sivuyile, the DoH transferred the budget and in addition all staff (including the nursing staff) were absorbed.

Supply Chain Management (SCM)

Unsolicited bid proposals concluded for the year under review

The Department has not concluded any unsolicited bid proposal agreements during the year under review.

SCM processes and systems in place to prevent irregular expenditure

The Accounting Officers System (AOS) that regulates SCM and movable asset management functions is in place. This policy speaks to and sets out the policy aspects. It regulates institutional and administrative actions in day-to-day SCM operations.

Challenges experienced in SCM and how they were resolved

Monitoring the implementation of the AOS has been a challenge. With the advent of the supply chain governance, the Department has performed assessments to determine the extent to which it has adhered to prescribed SCM practices for supply chain performance in

the Department. Special interventions were conducted to address gaps that were identified. Capacity building forms part of the plan to improve performance and adherence to legislative requirements or prescripts.

The implementation of strategic sourcing has generated some benefits. However, it had its own distinct challenges inter alia budget constraints and change in business strategies.

Appreciation and Conclusion

On behalf of the senior management of the Department, I would like to thank all DSD staff, particularly those working at the coalface of service delivery, for their ongoing dedication to serving the public. I would also like to thank all the NPO partner organisations that have provided quality services to the public on behalf of the Department, especially in a very difficult economic environment, which has seen both an increased demand for social services and poverty alleviation, and a reduced flow of state funding and corporate social investment from the private sector.

Dr Robert Macdonald

5. STATEMENT OF RESPONSIBILITY AND CONFIRMATION OF THE ACCURACY OF THE ANNUAL REPORT

To the best of my knowledge and belief, I confirm the following:

All information and amounts disclosed in the annual report is consistent.

The annual report is complete, accurate and is free from any omissions.

The annual report has been prepared in accordance with the guidelines on the annual report as issued by National Treasury.

The Annual Financial Statements (Part E) have been prepared in accordance with the modified cash standard and the relevant frameworks and guidelines issued by the National Treasury.

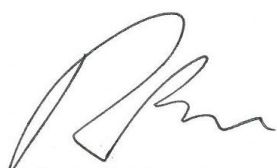

The Accounting Officer is responsible for the preparation of the annual financial statements and for the judgements made in this information.

The Accounting Officer is responsible for establishing, and implementing a system of internal control has been designed to provide reasonable assurance as to the integrity and reliability of the performance information, the human resources information and the annual financial statements.

The external auditors are engaged to express an independent opinion on the annual financial statements.

In my opinion, the annual report fairly reflects the operations, the performance information, the human resources information and the financial affairs of the Department for the financial year ended 31 March 2017.

Yours faithfully

Dr Robert Macdonald
Accounting Officer

6. STRATEGIC OVERVIEW

6.1 Vision

A self-reliant society.

6.2 Mission

To ensure the provision of a comprehensive network of social development services that enables and empowers the poor, the vulnerable and those with special needs.

6.3 Values

The core values of the Western Cape Government (WCG), to which the Department subscribes, are as follows:

Caring

To care for those we serve and work with

Competence

The ability and capacity to do the job we are appointed to do

Accountability

We take responsibility

Integrity

To be honest and do the right thing

Innovation

To be open to new ideas and develop creative solutions to problems in a resourceful way

Responsiveness

To serve the needs of our citizens and employees

The Department of Social Development is committed to the following **key service delivery principles**:

Working differently

The Department will endeavour to explore and test different and innovative ways of working in order to achieve maximum results in the shortest possible time without compromising quality.

Consultation and inclusion

We will pay on-going attention to meaningful engagement with our partners and stakeholders as defined in the Intergovernmental Relations Framework Act.

Accessibility

Accessibility of services to those who need it is essential. The Department will continue modernising its structure and processes where necessary over the Medium Term Expenditure Framework (MTEF) period.

Accountability and transparency

Institutionalise good corporate governance through the implementation of results-based monitoring, evaluation and reporting, sound business processes, policies and enhancement of compliance in order to improve accountability and performance.

7. LEGISLATIVE AND OTHER MANDATES

7.1 Constitutional Mandates

Legislation	Impact on DSD functionality
Constitution of the Republic of South Africa, 1996	Section 28 (1) of the Constitution sets out the rights of children with regard to appropriate care (basic nutrition, shelter, health care services and social services) and that the detention of children is a measure of last resort.
Constitution of the Western Cape, 1997 No. 1 of 1998	Section 78 of the Constitution sets out the duties of the Commissioner for Children who must assist the WCG in promoting and protecting the children of the Western Cape and refers to Welfare Service in particular.

7.3 Core functions of the Department

The Department is committed to the following two core functions:

- A Social Welfare Service to the poor and vulnerable in partnership with stakeholders and civil society organisations; and
- A Community Development Service that provides sustainable development programmes, which facilitate empowerment of communities.

7.4 Policy Mandates

- **Western Cape Provincial Strategy for the Provision of Child and Youth Care Centres 2016:** This strategy governs the provision of an adequate spread of residential care for children through CYCCs across the continuum of care and relevant centre-based programmes throughout the province, aligned with the province's specific needs, circumstances, budgetary allocations and infrastructure availability.
- **Western Cape Department of Social Development Standard Operating Procedure for Social Welfare Services 2016:** The SOP serves as an overall generic guide to strengthen, standardise and enhance current practices relating to the entry and exit of clients and to ensure integration between the different programme interventions on an operational level in the Department. The SOP Manual is not intended to replace current SOPs and tools that are used for the execution of legislative social work practice.
- **Department of Social Development Western Cape Strategy for Improvement of Child Care and Protection Services 2015:** The strategy was developed to mitigate the risks associated with the implementation of the statutory requirements, norms and standards of the

Children's Act. The strategy identifies the root causes of the problem and the interventions to deal with these issues.

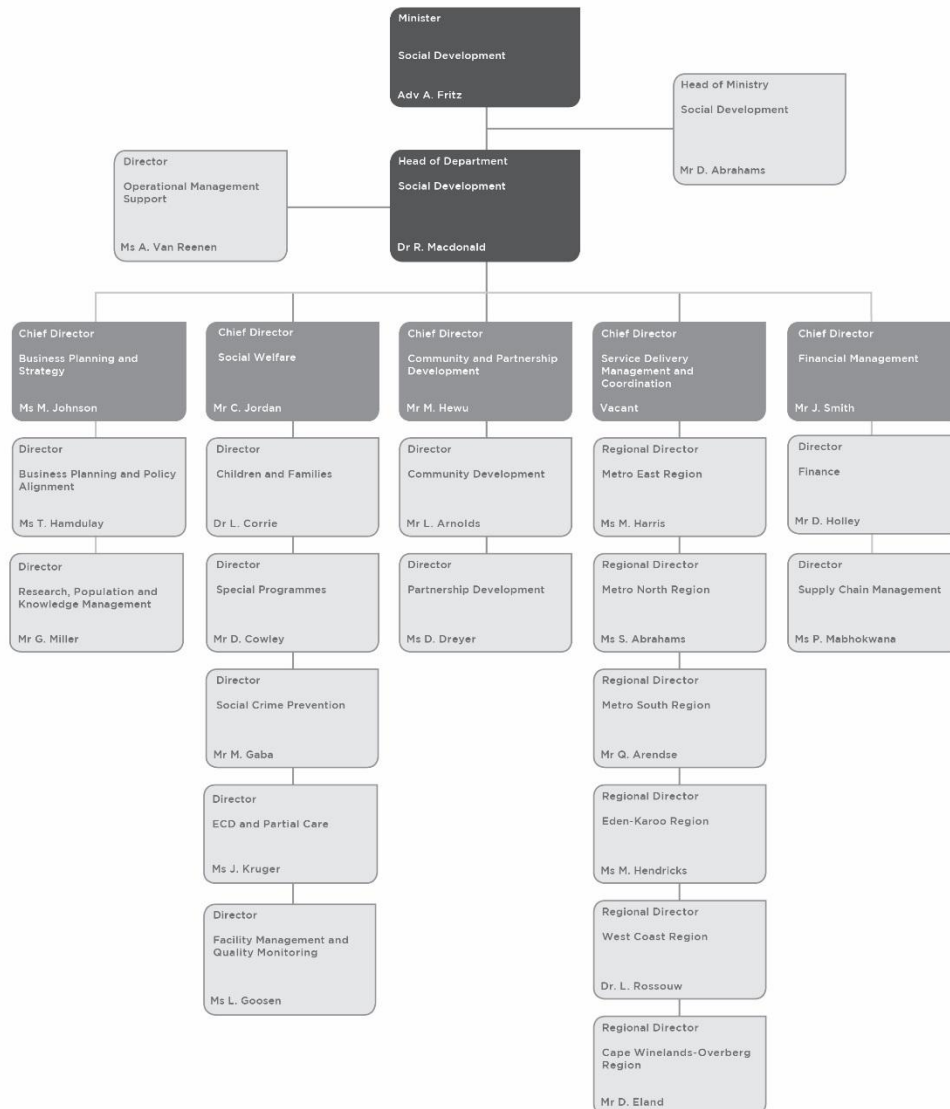

- **Quality Assurance Framework for performance monitoring of social welfare and community development service delivery 2015:** This provincial framework is aligned to the national Quality Assurance Framework for Social Welfare (2013) and proposes comprehensive performance monitoring through a quality assurance approach for community development and social welfare services in the Department as well as the NPO sector in this province. It also focuses on quality improvement in service delivery and defines the standards of service excellence and how it should be monitored and managed.
- **The Quality Assurance Strategy for Child and Youth Care Centres 2015:** This strategy ensures quality assurance is conducted at CYCCs as mandated by Section 211 and regulation 89 of the Children's Act.
- **Enhanced provision of Multi-programme Centres Strategy 2015:** The development and management of a strategy to ensure an appropriate spread of properly resourced, coordinated and managed CYCCs in the province, providing the required range of residential care programmes as contemplated in Section 192 of the Children's Act.
- **National Early Childhood Development Policy 2015:** This policy is aimed at transforming early childhood development service delivery in South Africa, in particular to address critical gaps and to ensure the provision of a comprehensive, age and developmental stage-appropriate quality ECD programme, accessible to all infants, young children and their caregivers as envisioned in the NDP.
- **Western Cape Department of Social Development Standard Operating Procedure for the Removal of Street Children to a Place of Safety and Subsequent Processes 2015:** The SOP was developed as a step-by-step guide on how to proceed when removing a street child in need of care and protection to a place of safety. It outlines the roles and responsibilities of the Department's staff members and other stakeholders in the NPO and policing sectors. The SOP details: timeframes which must be adhered to; provides definitions of street children; who the procedure applies to; highlights applicable legislation; and contains contact numbers of the relevant role-players.
- **National Youth Policy 2020, (2015):** The goal is to consolidate youth initiatives that enhance the capabilities of young people to transform the economy and society through addressing their needs; promoting positive outcomes, opportunities, choices and relationships; and providing the support necessary to develop them.
- **Department of Social Development Policy on the Funding of Non-Government Organisations for the Provision of Social Welfare and Community Development Services 2013 (Amended October 2015):** The policy ensures that transfer payments are managed in a manner that promotes transparency, accountability, efficient administration, clear performance requirements, and the principles of administrative justice. This policy is aligned to the National Policy on Financial Awards.
- **Provincial Strategic Plan (PSP) 2014-2019:** The PSP is a five-year plan that sets out the WCG strategies and plans for the next five years. The WCG has identified five strategic goals in its aim to contribute to the realisation of the aims and objectives of the NDP over the next five years.

- **The White Paper on the Family 2013:** The main purpose of the White Paper is to foster family wellbeing, promote and strengthen families, family life and mainstream family issues into government-wide policy-making initiatives. The Department has developed a provincial plan for implementing the White Paper on the Family that was adopted by the Family Services Forum on 16 September 2016.
- **The Regulations of Probation Services 2013:** These regulations published in the Regulations Gazette No. 36159, 15 February 2013, Vol. 572, No. 9911 are aimed at regulating and improving probation services.
- **Quality Assurance Framework for Social Welfare 2013:** This national framework provides a consistent system and clear standards for evaluating the effectiveness and providing continuous improvement with respect to social welfare services.
- **Department of Social Development Youth Strategy 2013:** To guide, inform and direct the Department's youth development programming and priorities and to bring a strong measure of institutional and programmatic predictability. It serves as a critical planning tool which is aimed at addressing the needs of young people of the Western Cape Province.
- **Western Cape Youth Development Strategy 2013:** "The purpose of the (provincial) youth development strategy (is) to create more support, opportunities and services for all young people to better engage with their environment and successfully transition into responsible, independent, and stable adults. It focuses on young people in the pre-youth phase between 10 and 14 years of age and the 'youth' phase between 15 and 24".¹
- **National Policy on the Provision of Social Development Services to Persons with Disabilities 2013:** The main purpose is to guide and coordinate the provision of mainstreamed social development services to persons with disabilities. Its aim is to ensure that the dignity and rights of all persons with disabilities is preserved and met, through the provision of relevant socio-economic programmes and services that ensure their inclusion.
- **National Development Plan (NDP) 2012:** The National Planning Commission published the "National Development Plan: Vision for 2030" on 11 November 2011 as a step to charting a new path for South Africa which seeks to eliminate poverty and reduce inequality by 2030. The updated "National Development Plan 2030: Our future – make it work" was published during 2012.
- **OneCape2040: From Vision to Action 2012:** The WCG adopted this vision in October 2012. It aims at stimulating a transition towards a more inclusive and resilient economic future for the Western Cape. It articulates a vision on how the people of the Western Cape can work together to develop their regional economy and society at large, by so doing, guiding planning and action to promote a common commitment and accountability towards sustained long-term progress.
- **The Generic Norms and Standards for Social Welfare Services 2011:** Provide the benchmarks for the provision of quality social welfare services and form part of the Framework for Social Welfare Services.

¹ Extract from the Foreword of Western Cape Youth Development Strategy 2013, by Premier Helen Zille.

- **The Supervision Framework for the Social Work Profession in South Africa 2011:** Provides the framework for the effective supervision of social workers, student social workers, social auxiliary workers, learner social auxiliary workers, social work specialists and private practitioners in order to ensure competent professional social work practices that serve the best interests of service users in the South African social sector.
- **National Drug Master Plan 2008:** The plan enables the coordination of departments and local authorities in line with the Prevention and Treatment for Substance Abuse Act, No. 70 of 2008. Its purpose is to ensure that the country has a uniform response to substance abuse.
- **The White Paper for Social Welfare 1997:** The White Paper serves as the foundation for social welfare after 1994 by providing guiding principles, policies and programmes for developmental social welfare systems.

PART B: PERFORMANCE INFORMATION

PART B: PERFORMANCE INFORMATION

1. AUDITOR-GENERAL'S REPORT: PREDETERMINED OBJECTIVES

The Auditor-General South Africa (AGSA) currently performs certain audit procedures on the performance information to provide reasonable assurance in the form of an audit conclusion. The audit conclusion on the performance against predetermined objectives is included in the report to management, with material findings being reported under the Predetermined Objectives (PDOs) heading in the Report on other legal and regulatory requirements section of the auditor's report.

Refer to page 156 of the Report of the Auditor-General, published as Part E: Financial Information.

2. OVERVIEW OF DEPARTMENTAL PERFORMANCE

2.1 Service Delivery Environment

The Western Cape has an estimated population of 6,3 million citizens², 1,93 million households and has grown at a rate of 1,57% since the 2011 Census. The 2016 Community Survey conducted by Statistics South Africa (Stats SA) estimates the average household size to be 3,25 members. Risk factors such as unemployment³, crime and substance abuse, threaten the wellbeing of children and families in the province.

In addressing immediate risks to families, the Department facilitated access to temporary social relief of distress services and temporary work opportunities through its EPWP and targeted feeding initiatives. In addition, it rendered services to families at risk ensuring that the provincial government meets its statutory obligations to these families in terms of Section 28 of the Constitution, thereby reducing harms associated with family dysfunction. CCPS and policy development are among the Department's key statutory/legislative mandates. Primarily the Department will ensure that existing statutory obligations are met regarding Children's Court processes, alternative care, adoptions, reunification processes, family mediation, parenting plans, parenting rights and responsibilities, marriage counselling and parenting skills (PSG 3).

The Western Cape has approximately 570 370 children aged 0 to 4 years. Despite negligible projected growth in this population cohort over the next five years, issues of safety, cognitive development, and nutrition will increasingly become the focus of ECD interventions. The Department also contributes to the provincial After School Game Changer through its funding of after school partial care facilities and seeks to improve the quality of programmes, creating a safe and enabling environment and unlocking resources through collaborative efforts. The purpose of the Game Changer is to provide quality after school programmes to approximately 20% of learners in no and low fee schools in the Western Cape.

Community Survey 2016 reports a total of 1 929 700 children between the ages of 0 and 17 years in the Western Cape. Research indicates a high incidence of child maltreatment, and it is evident that child protection strategies must be intensified. Primary challenges are that child protection NPOs are often unable to fill social worker vacancies, retain social work staff, and provide transport for their social workers to perform their functions. Where such situations arise, the Department's regional and local service delivery offices assist with service delivery to ensure full coverage in the province. The Department has implemented a multi-pronged approach in managing this situation that included increasing the subsidy allocation for the salaries of social workers, social work supervisors and social work managers at funded NPOs in the previous financial year, and focusing on building the capacity of service providers with respect to improved reporting, financial management, good governance and, the contract management of service providers as defined in their transfer payment agreements (TPAs) with the Department.

In the 2011 Census, 1 041 553 persons reported that they have some form of disability. Of these, 190 929 persons reported that they are unable to care for themselves. The Department has continued with its redress interventions through its leadership of a PSG 3 project with the purpose of mainstreaming opportunities, providing support and promoting the rights, wellbeing and socio-economic empowerment of Persons with Disabilities, their families and caregivers.

The ageing of the Western Cape population is reflected in the 48% growth in the number of persons in the category 60 years and older. According to Census 2011, the Western Cape has

² 2016 Mid-year population estimates published by Statistics South Africa (Stats SA).

³ 20,5% narrow definition and 23,6% expanded definition (Q4 2016).

520 785 persons aged 60 years and older. Recent population projections indicate that the population of persons older than 60 will grow by a further 35% between 2011 and 2020. The fastest growing population of older persons is in areas that traditionally did not have a large proportion of older persons. There is therefore a mismatch between where services for older persons are located and where the growing need is. The 73% growth in the older persons aged 85 years and older has significant implications for the provisioning and support of frail care services for older persons. Care for older persons, especially the expansion of independent and assisted living, frail care and appropriate community-based interventions remain a priority for the Department. This is effected through the funding of service centres, assisted living facilities and residential care facilities. Research regarding an evaluation of service centres for older persons concluded in the previous year presented valuable insight for the potential development of an integrated community-based care model within the continuum of care.

The Western Cape is home to 2,1 million youth between the ages of 15 and 34 years. Using the Census 2011 data, it has been calculated that 13% of these youth (approximately 277 160) can be classified as 'not in employment, education or training' (NEETs). In addition, more than 60% of the unemployed youth have less than a Matric standard of education. Key findings of the research regarding NEETs in the province highlight the negative impact of violent crime, substance abuse and gangsterism on the socialisation of young people. This coupled with the weak South African economy and the lack of employment opportunities has led to high demand for services to youth, but little in the way of exit strategies for youth in skills programmes. Therefore, key priorities of the Department over the MTEF period are to ensure that all Departmental youth-focused programmes are aligned with the long-term outcomes of the PYDS and that there is a strategic focus on NEETs. In addition, the Department has strived, in conjunction with the youth sector, to align NPO youth-targeted programmes with PYDS outcomes. Likewise, the Department in collaboration with the Department of the Premier (DotP) has worked towards ensuring the transversal alignment and implementation of youth-targeted programmes across all provincial departments.

The PYDS has been implemented and six Youth Cafés are operational and designed to provide vibrant, positive spaces where young people are afforded opportunities to access skills development programmes, training workshops, seminars, and entrepreneurial opportunities. Further opportunities for youth were also provided by the EPWP and during the reporting year, 1 425 EPWP youth opportunities were created.

The incidence of social crime in the Western Cape remains a priority issue owing to its deleterious impact on the province's social and economic wellbeing. The most significant increase in reported crime in the province occurred in the drug related crime category, with an increase of 156,3% in the period between 2005 and 2015. These and other social ills continue to increase at a faster rate than the growth of the population. A clearer picture of the incidence of drug related crimes in the Western Cape emerges when it is examined by ratio of the population. At 1 431 per 100 000 persons for the period 2014/15, the Western Cape was the province with the highest rate of drug related crime. In the same year, the province's incidence rate was 292% higher than the national incidence rate of 490 per 100 000. Departmental research on reported cases of domestic violence indicates an 18% increase between 2007 and 2010. In line with its mandate, the Department has continued to focus on interventions such as its victim support services; shelters for homeless adults, especially women and children; special accommodation for victims of human trafficking; probation services and diversion programmes.

In response to the province's escalating youth substance abuse challenge, drug treatment services continued in all DSD secure child and youth care centres, as well as the school-based drug treatment programmes in 10 high risk schools. The Department has participated in the Alcohol Harms Reduction (AHR) Game Changer for which the Department is responsible for Lever 3: Enhancing the quality of governmental and non-governmental alcohol and social services. Alcohol abuse is prevalent among the youth and it is critical to engage school going youth to make them aware of the dangers relating to alcohol. This lever ensures that alcohol

abuse is addressed in the life orientation sessions within the school curriculum and during after school programmes.

Geographic Information Systems technology was used to map its client population (and future population based on projection data) against current service delivery and a socio-economic index. The latter is a measure used to identify the potential target population of greatest need. The spatial analysis indicates whether Departmental service delivery resources are appropriately dispersed within the catchment area of the targeted population. The Department uses these indices and tools to enable more effective targeting of its service delivery.

2.2 Service Delivery Improvement Plan

The Department has completed a Service Delivery Improvement Plan (SDIP). The tables below highlight the service delivery plan and the achievements to date.

2.3 Organisational environment

The Social Welfare and Business Planning and Strategy chief directorates, together with the corporate services units of the Department's six regional offices, were the subject of organisational design processes during 2016/17. Implementation is scheduled to begin in the next financial year. With respect to the former, the focus was on the creation of additional capacity within the Directorate: Special Programmes to deliver services for Persons with Disabilities, specifically those with severe intellectual disability in light of the transfer of this function from the DoH and; the provision of additional capacity in the form of a quality assurance unit in the Directorate: Facility Management and Quality Monitoring. This will ensure that services provided within departmental and NPO funded CYCCs are delivered according to statute. In the case of the Chief Directorate: Business Planning and Strategy, its microstructure was subject to the organisational design process to provide for more effective policy alignment, knowledge management and corporate governance of ICT services within the Department.

The organisational redesign of the six regional office corporate services units, coupled with the implementation of the Departmental Strategy for the Improvement of Child Care and Protection Services will result in the provision of additional administration support at service delivery office level. This will free up social service professionals for more intensive social work supervision and thus effective grassroots service delivery and will enable the Department to meet its statutory obligations regarding Children's Court processes, alternative care, adoptions, family preservation and reunification, family mediation, parenting plans, parenting rights and responsibilities, marriage counselling and parenting skills – all of which are critical social work interventions.

Business Processes

The Departmental Strategy for the Improvement of Child Care and Protection Services in the Western Cape was approved in the previous year and interventions within the strategy include the development of SOPs for the implementation of statutory social work services. This will ensure that the Department fulfils its statutory mandates, thereby mitigating in part the risk of litigation. This coupled with the SOP for Social Welfare Services, which is aligned to the Generic Norms and Standards for Social Welfare Services, ensures that social work practitioners implement a uniform and standardised approach to service delivery across all regions, thereby ensuring the quality of service delivery. This is underpinned by continuous training and the implementation of the 2011 Supervision Framework for the Social Work Profession in South Africa.

With respect to its support services, the Department continued to refine its performance information management processes through the piloting of a second level performance information quality assurance process; continuous training in the implementation of the Performance Information SOP and the Indicator Description Manual (IDM). The successes of these measures are evidenced by the fact that over the past MTEF period, the Auditor-General South Africa (AGSA) reported an unqualified conclusion on the usefulness and reliability of the Department's reported performance information.

With respect to its SCM processes, the Department continued to implement strategic sourcing - a collaborative and structured process that critically analyses its spending and using the information to make effective business decisions about acquiring commodities and services – in response to the NDP's differentiated approach to procurement. This coupled with the review of the Department's SCM structure and concise guidelines for implementation will ensure an efficient well-resourced SCM system.

Finally, the Department will continue with the implementation of service schedules as the mechanism for operationalising the Service Level Agreement (SLA) it has with the DotP Corporate Services Centre (CSC). It will also continue with the implementation and refinement of SOPs for its own service schedules dealing with the handling of disciplinary procedures, leave management and staff recruitment and selection.

HUMAN RESOURCE MANAGEMENT

Employment and Vacancies

The Department is currently in the process of filling the remaining funded vacant posts within the approved organisational structure for the Chief Directorates: Social Welfare and, Community and Partnership Development and has appointed a number of social work graduates who were holders of National Department of Social Development (NDSD) social work bursaries. Social work graduates working back their bursary obligations make up the majority of the appointments in the posts filled additional to the staff establishment. The remainder is largely as a result of previous restructuring processes that saw the outsourcing of non-essential services such as cleaning and security. The vacancies of Director: Children and Families and the Regional Director: Cape Winelands/Overberg were filled on 1 September 2016.

During this performance cycle the Department aligned the organisational structure of all Secure Care Centre's (Chief Director Social Welfare, Directorate Facility Management and Quality Monitoring) with the relevant norms and standards. The consultation process with Labour will be concluded during the 2017-2018 financial year. The Department is also currently busy with the review of the Corporate units of the six regions to ensure sufficient support staff which will also be concluded during the new financial year.

Staff training

During this financial year the Department has invested heavily in the training of its staff and exceeded the legislative requirement (1%). The Department was able to complete its learnership programme for 194 child and youth care workers through funding from the HWSETA and are awaiting the results from the HWSETA to enable them to register with the SACSSP.

A total of 29 new bursaries have been allocated to internal staff members in specialised fields where a skills deficit exists such as probation services, addiction care, child and family studies, as well as forensic and clinical social work. 101 social work scholarships have been awarded through funding provided from the NDSD to assist with the provisioning of social workers in the labour market. 17 Addiction Care bursaries have also been awarded to people external to the Department in order to strengthen the availability of qualified professionals in this area.

Other learning programmes rolled out for social work related professionals and support staff include training in the legislation applicable to their specific social work fields of practice, mentoring and coaching. Senior Management Service (SMS) training included Public Service Induction for SMS Members; Facilitation Mentoring and Coaching; and Regulatory Impact Assessment training. The provision of training opportunities cannot be over emphasised as it is through capacity building interventions that skills are enhanced and service delivery quality improved.

Technological environment

IT systems play a vital part in the efficient operation of the Department. To this end the Department continues to ensure that ICT governance and systems administration processes and procedures are in place and operational. Bi-monthly meetings of its IT Steering Committee ensures that the Department's ICT equipment, software and services allocation process complies with WCG standards, and that its procurement and disposal process complies with

the State Information Technology Agency (SITA) Act No. 88 of 1998 as amended by the SITA Act No. 38 of 2002, and the WCG ICT standards.

The DSD ICT policy approved in 2016 provides officials with a process for the application, approval and procurement of ICT equipment thereby ensuring good governance with respect to ICT procurement – this includes ensuring compliance with the WCG ICT standards including compatibility with and support on the WCG network. System administration support is also provided to national ICT systems that include the Victim Empowerment Programme and Older Persons Abuse Register (VEPOPAP), Probation Case Management System, Child and Youth Care Application (CYCA) and provincially to BAS, LOGIS, Electronic Content Management (ECM).

The Strategic ICT Plan 2015-20 is reviewed on an annual basis. Priorities over the MTEF period remain the development of a case management system for own services and a Departmental NPO Management System for outsourced services. With respect to the former, business analysis is underway and in the case of the latter the first two phases have been completed i.e. the NPO database and system to manage the compliance requirements for payment have been built and tested. The system is expected to improve efficiencies in the payment of transfer funding to NPOs by automating compliance checking of payment documents such as approved NPO reports, financial statements and TPAs. In addition, management information relating to spread of funded services coupled with information on the location of vulnerable groups served by the Department enables focused service delivery. The NPO Management System will replace many manual procedures, reduce duplication caused by the current manual system and replace many MS Excel based reports and databases currently in use for reporting and compliance checking purposes.

A challenge in the technological environment is the constrained fiscal environment in the province and Department. The Department will continue to implement measures to mitigate some of the effects of the provincial budget cuts envisaged over the MTEF period, by extending its ICT refresh beyond the DSD mandatory five-year period, and accessing potential sources of funding within PT and the national department.

Finally, the implementation of generic email addresses, enables the Department to better manage electronic communication and ensure that all records are filed and secured according to the applicable legislation. This was first rolled out to the Department's programmes and Communications Unit and will be expanded to the Directorate Facility Management and Quality Monitoring during 2017, thereby ensuring that all directorates and units within the Department who deal with the public are more accessible.

2.4 Key policy developments and legislative changes

None.

3. STRATEGIC OUTCOME ORIENTED GOALS

The Departmental strategic planning process re-affirmed the five strategic goals as contained in the Strategic Plan for the fiscal years 2015 - 2020. These are:

Strategic Outcome Orientated Goal 1	Improved Corporate Governance
	Goal statement: The Department implements effective and efficient business processes, including research, planning, knowledge, performance management and thereby improves its performance in the social sector.
	Justification: To increase the integrity of business processes through transparent, inclusive decision-making and focussed implementation based on social research, as well as monitoring and reporting. Business processes, systems and the organisational structures will be made efficient and effective in order to enhance service delivery improvement for all in the province.
	Links: This goal links to the PSG 5: "Embed good governance and integrated service delivery through partnerships and spatial alignment." It also links closely to The NDP 2030 outcome: "Building a capable and developmental state" and "Fighting corruption" and the MTSF 2019 outcome: "An efficient, effective and development-oriented public service."
	Progress with respect to the Strategic Plan: <ul style="list-style-type: none"> ● The Department has worked towards the goal of modernisation and improving governance through its business processes, systems and structures. This is in line with the National Outcome regarding an efficient, effective and development orientated public service as described in Chapter 15 of the NDP. ● Continuous training in the implementation of the Performance Information SOP and Indicator Description Manual (IDM). The success of these measures is evidenced by the unqualified conclusion on the usefulness and reliability of the Department's reported performance information. ● Implementation of strategic sourcing - a collaborative and structured process that critically analyses its spending, using the information to make effective business decisions about acquiring commodities and services. The AOS that regulates supply chain management and movable asset management functions is in place. ● MPAT results have been maintained at a level 4 in terms of Strategic Plan, Annual Performance Plan, ICT, Financial Management and SCM standards. ● The DSD vacancy rate stands at 2,5% based on funded, filled posts (excluding interns) which is well below the DPSA target/norm of 10%. ● Ensured that ICT governance through its IT Policy, systems administration processes and procedures are in place and operational. The Strategic ICT Plan 2015-20 is reviewed on an annual basis and priorities over the MTEF remain the development of a case management system for own services and a Department NPO Management System for outsourced services.

Strategic Outcome Orientated Goal 2	Enhance social functioning of poor and vulnerable persons through social welfare services
	Goal statement: Enhance social functioning of poor and vulnerable people through appropriate developmental social welfare interventions which support and strengthen individuals and families, in partnership with stakeholders.
	Justification: This programme aims to render a continuum of developmental social welfare services to all vulnerable individuals and groups with specific reference to persons with disabilities, older persons and those experiencing undue hardships.
	Links: This goal links to PSG 3: "Increase wellness, safety and tackle social ills". It also links to National Outcome 2: "A long and healthy life for all South Africans", National Outcome 11: "Creating a better South Africa and contributing to a better and safer Africa in a better world" and National Outcome 13: "An inclusive and responsive social protection system".
	Progress with respect to the Strategic Plan: (Please note that the achievements under this programme are closely linked to the desired outcomes of Chapter 11 of the NDP). <ul style="list-style-type: none"> ● The Department has prioritised the residential care facilities for frail older persons, alternative care and support models such as day care centres, service centres, senior clubs, respite care, independent living and home-based care and has revisited the funding levels to ensure the care and support for older persons in residential facilities and community-based care support centres is maintained and support existing social welfare services for older persons in the province. ● Introduced the registration of community-based care and support services (service centres) with the aim of enhancing the standard of services to older persons. ● Substantial improvement in the reporting compliance of funded NPOs which reflect greater accountability by service providers. ● The Department has continued maintaining and providing support to existing social welfare infrastructure for the provision of integrated programmes and services aimed at promoting the rights, well-being and socio-economic empowerment of people with disabilities and their families. ● Approval of Disability Mainstreaming Strategy by the Department's Executive Management. ● Training of social workers on Mental Disability and Uniform Referral Pathway for holistic assessment and appropriate referral of persons with disabilities. ● Parent Support Structures were established in George, Witzenberg, Kraaifontein and Atlantis areas in partnership with DSD and the Disabled Children Action Group- an NPO run and managed by the parents of children with disabilities and some local municipalities; ● Expansion of Peer Support Programme services in the following areas: Stellenbosch, Knysna and Beaufort West. ● The Department finalised the Destitute Persons Burial Assistance Guide to provide a framework for DSD to assist poor and vulnerable families who cannot bury their loved ones. A DSD Disaster Management Plan 2017/18 was developed in collaboration with the Western Cape Disaster Centre to clarify roles and responsibilities regarding disasters. The plan will be subject to annual review.

Strategic Outcome Orientated Goal 3	Comprehensive child, family care and support services to protect the rights of children and promote social wellness
	Goal statement: Appropriate child and family care and support services and interventions which protects, support and facilitate the development of children and families, in partnership with stakeholders.
	Justification: This programme aims to render a continuum of developmental social welfare services to all vulnerable children and families in order to preserve the family structure.
	Links: This goal links to PSG 2: "Improving education outcomes and opportunities for youth development" and PSG 3: "Increase wellness, safety and tackle social ills." Furthermore, it links to National Outcome 2: "A long and healthy life for all South Africans," National Outcome 11: "Creating a better South Africa and contributing to a better and safer Africa in a better world" and National Outcome 13: "An inclusive and responsive Social Protection service."
Progress with respect to the Strategic Plan: <ul style="list-style-type: none"> ● The Department is in the process of implementing the DSD Strategy for Improvement of CCPS (2015) developed to mitigate the risks associated with the implementation of statutory requirements, norms and standards. ● To further improve child protection services the DSD will implement the new provincial Foster Care Management Plan approved in March 2017 and the finalisation of the draft SOP for Canalisation that encompasses the administrative management of children in the statutory child protection system. ● Institutionalisation of foster care management meetings with the Department of Social Development (DSD) and the South African Social Security Agency (SASSA) to address blockages and ultimately the foster care backlog. ● Seven clustered foster care schemes and an accompanying draft foster care plan was approved which will assist in managing foster care schemes. The safety and risk assessment tool training was rolled out to social work staff at five of the six regions to further increase their assessment of children at risk capabilities. A high number of child abuse matters were reported through the NPOs and DSD regions through the mandatory child abuse register which assists the DSD with appropriate planning of child protection services in specific areas. ● Performance monitoring visits were conducted to funded child protection organisations to monitor compliance with the norms and standards thus ensuring effective and efficient service delivery. The performance monitoring is inclusive of quality assurance, which is a comprehensive form of performance monitoring that also affords the NPOs an opportunity to do their self-assessment. ● The Department rendered services to families at risk ensuring that the provincial government meets its statutory obligations to these families in terms of Section 28 of the Constitution, thereby reducing harms associated with family dysfunction. ● In collaboration with the City of Cape Town emphasis has been on reunifying homeless adults with their families and this has improved adult reunification services. ● The establishment of a special ECD programme for English language and cognitive development where school readiness is poor was launched in April 2016. Ten sites were piloted in Khayelitsha, Delft and Philippi and will be rolled out to 50 sites – including rural areas - in 2017/18. A mobile messaging application which includes parenting and practitioner support programmes, was implemented at these sites. ● A campaign on the registration of ECD Partial Care was launched with a web page highlighting the importance of partial care registration and the benefits for children and parents/care givers. 	

Strategic Outcome Orientated Goal 4	Address social ills by rendering a comprehensive social Crime Prevention and Substance Abuse Prevention and Rehabilitation Programme
	Goal statement: Reduce social ills through the provision of social crime prevention, probation and substance abuse services that reduce risk factors and develop responsible, resilient and productive members of society.
	Justification: This programme aims to provide a continuum of specialised probation services to persons in conflict with the law and their victims, and to enhance their resilience to social crime risk factors.
	Links: This goal links to PSG 2: "Improving education outcomes and opportunities for youth development" and PSG 3: "Increase wellness, safety and tackle social ills." Furthermore, it links to National Outcome 2: "A long and healthy life for all South Africans", National Outcome 11: "Creating a better South Africa and contributing to a better and safer Africa in a better world" and National Outcome 13: "An inclusive and responsive Social Protection service."
	Progress with respect to the Strategic Plan: (Please note that the achievements under this programme are closely linked to the desired outcomes of Chapter 11 of the NDP): <ul style="list-style-type: none"> ● A review of the Diversion Accreditation Policy Framework commenced, while the system for tracking and monitoring all children in conflict with the law who are in detention was implemented enabling the Department to identify and address systemic and procedural blockages. ● A reintegration and aftercare pilot project was implemented to strengthen the continuum of services to recipients of probation services. This integrated initiative solidifies socio-economic interventions to reduce recidivism. ● The Western Cape is the leading province in terms of full registration of CYCCs providing secure care programmes to children and youth in terms of the Child Justice Act. Implementation of risk plans for all centres and an effective quality assurance process assisted in monitoring compliance with norms and standards for secure care centres. It includes registered Adult Education Centres at all centres managed by qualified education staff. ● To ensure implementation of the Prevention and Combatting of Human Trafficking Act the Department established an internal Human Trafficking Task Team to assist with the implementation of the Act. ● Educational workshops for men were conducted in areas with high prevalence of domestic violence, and therapeutic as well as psycho-social victim support services were expanded to victims of gang violence. A referral protocol has been developed to ensure that services to victims are coordinated. ● Shelter space for male victims of violence and crime was piloted to develop a baseline for the need for male shelters in Cape Town. The Department piloted the first shelter in South Africa, specifically for adult victims of human trafficking and their children and three shelters in the Western Cape received recognition awards by NDSB for the quality service that they are rendering. ● Progress in the field of substance abuse included the expansion of an adolescent school-based outpatient programme in Elsie's River and outpatient programmes in the rural areas of Beaufort West and Ceres to expand service delivery and improve accessibility. ● The digital substance abuse campaign extended its reach by broadening the target audience, refining channels, and the introduction of new elements. A dedicated substance abuse mobile friendly site was also developed. The focus of this campaign was the myths and facts with regards to substance abuse, and how to access help.

Strategic Outcome Orientated Goal 5	Create opportunities through community development services
	Goal statement: Creating opportunities for individuals and communities to develop increased social and economic empowerment and resilience based on empirical research.
	Justification: This programme aims to promote social inclusion and reduce poverty by providing access to sustainable community development programmes to create opportunities for all to become self-reliant.
	Links: This goal links to PSG 2: "Improving education outcomes and opportunities for youth development", PSG 3: "Increase wellness, safety and tackle social ills" and PSG 5: "Embed good governance and integrated service delivery through partnerships and spatial alignment". This goal links to National Outcome 11: "Creating a better South Africa and contributing to a better and safer Africa in a better world".
Progress with respect to the Strategic Plan: <ul style="list-style-type: none"> ● The provincial NPO Help Desk continued to assist NPOs with registration and compliance, to ensure service and organisational sustainability as well as intensive mentoring and training interventions were conducted with 12 at-risk NPOs. ● Several regional officials attended the accredited training course Facilitation and Mentoring to enhance the Department's ability to support NPOs. ● The increased National Incentive Grant (NIG) enabled the DSD to establish a relationship with the Education, Training and Developmental Practices Sector Education Training Authority (ETDP SETA) in collaboration with New Venture Creation (SMME) to build the capacity of people with disabilities by providing accredited training. ● A draft Sustainable Livelihoods Operations Procedure Manual was developed. ● All Departmental youth-focused programmes are aligned with the long-term outcomes of the PYDS and there is a strategic focus on NEETs. ● The Population Unit focused on the mapping of areas of operation for NPOs providing Child Care and Protection services in the Western Cape Province to identify service delivery gaps/overlaps in each of the DSD Service Delivery Areas (SDAs). ● Estimates of the Western Cape fertility rates at sub-provincial level utilising Census, Statistics, South Africa's live births data, health and other fertility related data sources available in the province was compiled at district and municipal levels to develop the provincial and municipal 5-year strategic planning. ● Research regarding an evaluation of service centres for older persons concluded in the previous year presented valuable insight for the potential development of an integrated community-based care model within the continuum of care. 	

4. PERFORMANCE INFORMATION BY PROGRAMMES

Please note that Sector indicators not reported by Western Cape DSD are reflected in Annexure C.

Number of older persons accessing assisted and independent living facilities funded by DSD	391	335	621	931	656	-275	The facilities could not afford to fill the vacancies as the subsidies are lower than actual costs.

Programme achievements:

- Introduced the registration of community-based care and support services (service centres) with the aim of enhancing the standard of services to older persons.
- Substantial improvement in the reporting compliance of funded NPOs which reflect greater accountability by service providers.
- Capacity building on norms and standards and improved monitoring and reporting process has resulted in increased NPO compliance.

Strategy to overcome areas of under performance

- Requested additional funds for frail care from PT - this was received for the 2017/18 year.
- Request additional funds to improve assisted and independent living facilities for the 2018/19 financial year.

Programme Achievements

- Approval of Disability Mainstreaming Strategy by the Department's executive management.
- Training of social workers on Mental Disability and Uniform Referral Pathway for holistic assessment and appropriate referral of persons with disabilities.
- Parent support structures were established in George, Witzenberg, Kraaifontein and Atlantis areas in partnership with DSD and the Disabled Children Action Group (an NPO run and managed by the parents of children with disabilities), and some local municipalities.
- Expansion of Peer Support Programme services in the following areas: Stellenbosch, Knysna and Beaufort West.
- Capacity building on norms and standards and improved monitoring and reporting process has resulted in increased NPO compliance.

Strategy to overcome areas of under performance

Focus will be on recruiting to fill the vacancies in protective workshops in the next financial year.

Linking performance with budgets

The Programme has spent 99.7% of its R770,481 million budget for the 2016/17 financial year. The unspent funds of R2,099 million relates to an underspending in CoE due to not finding suitable candidates in the recruitment process, internal promotions and staff exits. In the 2015/16 financial year, the Programme managed to spend 99.2% of its R725,708 million budget and the minimal unspent funds of R5,831 million related to an underspending in CoE due to not finding suitable candidates in the recruitment process, internal promotions and staff exits.

4.3 PROGRAMME 3: CHILDREN AND FAMILIES

Purpose

Provide comprehensive child and family care and support services to communities in partnership with stakeholders and civil society organisations.

Sub-programmes

Sub-programme 3.1:	Management and Support
Sub-programme 3.2:	Care and Services to Families
Sub-Programme 3.3:	Child Care and Protection
Sub-Programme 3.4:	ECD and Partial Care
Sub-Programme 3.5:	Child and Youth Care Centres
Sub-Programme 3.6:	Community-Based Care Services to Children

Strategic objectives

- 3.2 Integrated and targeted interventions focusing on building resilient families.
- 3.3 Facilitate the provision of a continuum of services that promote the well-being of children and build the resilience of families and communities to care for and protect their children.
- 3.4 Facilitate a nurturing, caring and safe environment for children to survive, be physically healthy, mentally alert, emotionally secure, socially competent and be able to learn.
- 3.5 Facilitate the provision of alternative care and support programmes for children found to be in need of care and protection.
- 3.6 Facilitate the provision of community based child and youth care services to improve access by more vulnerable children.

Number of family members reunited with their families	422	422	412	425	647	222	Emphasis was placed on reunifying street people with their families, in collaboration with the City of Cape Town.
Number of families participating in parenting skills programmes	11 292	8 908	8 800	7 741	7 627	-114	Under performance is largely due to the personal circumstances of parents such as working hours and seasonal employment.
PROVINCIAL PERFORMANCE INDICATORS							
Number of government subsidised beds in shelters for homeless adults	1 389	1398	1 368	1 388	1 371	-17	Under performance is as a result of one NPO who did not achieve their target.

Programme achievements

- Collaboration with the City of Cape Town around reunification
- Capacity building on norms and standards and an improved monitoring and reporting process has resulted in increased NPO compliance.

Strategy to overcome areas of under performance

- Relook at the scheduled times and duration of the parenting skills programmes to accommodate working hours of parents and those who are seasonal workers.
- Continuous monitoring and capacity building of funded NPOs.

Number of Children's Court inquiries opened	-	-	New Indicator	3 555	1 883	-1 672	This is a new indicator and no previous baseline existed. The performance is dependent on the number of court orders and number of statutory interventions required.
Number of Form 38 reports submitted by designated social workers to the Children's Court	-	-	New Indicator	3 555	2 624	-931	This is a new indicator and no previous baseline existed. Under performance is due to the complexity of the process, and outstanding documents from external organisations.
Number of Children's Court inquiries completed	-	-	New Indicator	3 555	2 806	-749	This is a new indicator and no previous baseline existed. The children's court proceedings have been concluded but the court orders may not have been correctly issued. Allocation of court dates impacts on the date of completion in the reporting period.

Programme achievements

- Performance monitoring visits were conducted to funded child protection organisations to monitor compliance with the norms and standards thus ensuring effective and efficient service delivery. The performance monitoring includes quality assurance, which is a comprehensive form of performance monitoring that also affords the NPOs an opportunity to do self-assessment.
- 40 monitoring and evaluation officials (15 new and 25 existing) were trained on the Quality Assurance Framework.
- The SOP for Social Welfare Services was finalised and approved in June 2016.
- The SOP for Extension of Child and Youth Care Centres orders was developed and approved in March 2017.
- A Provincial Foster Care Management Plan was approved in March 2017.
- Capacity building on norms and standards and an improved monitoring and reporting process has resulted in increased NPO compliance.

Strategy to overcome areas of under performance

- The draft SOP on the Removal of Children to Temporary Safe Care was developed in the reporting year and awaiting final approval.
- A draft SOP for Canalisation was completed in the reporting year and awaiting final approval.
- Strategic planning workshops with programmes and regions to review programme performance and make strategic decisions around revised targets and reprioritisation of service delivery.

Number of registered partial care sites	1 697	1 909	1 708	1 850	1 872	22	Over performance is due to a high demand for registration of sites.

Programme achievements

- A campaign on the registration of ECD Partial Care sites was launched with a web page highlighting the importance of partial care registration and the benefits for children and parents /care givers.
- The establishment of a special ECD programme for English language, cognitive development and a pilot programme was implemented at ten of these sites. A mobile messaging application which includes parenting and practitioner support programmes was implemented.
- Through the After School Game Changer project, 87 DSD funded After School Partial Care facilities were externally audited following a self-audit process and this has enabled the identification of specific sites for targeted capacity building.

Strategy to overcome areas of under performance

A new registration model was introduced by NDSD (that will categorise facility registration as bronze, silver or gold) looking at relaxation of some of the municipal requirements and conditionally register/re-register facilities. This conditional registration will enable these ECD facilities to continue rendering a service while in the process of becoming fully compliant.

4.4 PROGRAMME 4: RESTORATIVE SERVICES

Purpose

Provide integrated developmental social crime prevention and anti-substance abuse services to the most vulnerable in partnership with stakeholders and civil society organisations.

Sub-programmes

Sub-programme 4.1:	Management and Support
Sub-programme 4.2:	Crime Prevention and Support
Sub-Programme 4.3:	Victim Empowerment
Sub-Programme 4.4:	Substance Abuse, Prevention and Rehabilitation

Strategic objectives

- 4.2 Reduce recidivism through an effective probation service to all vulnerable children and adults by 2020.
- 4.3 All victims of violence with a special emphasis on women and children have access to a continuum of services.
- 4.4 Improve match between the demand for substance abuse services for individuals, families and communities, the departmental supply of services, and improve overall outcomes of services.

Programme achievements

- Reintegration and aftercare pilot project to strengthen continuum of services to recipients of probation services. This integrated initiative solidifies socio-economic interventions to reduce recidivism.
- The Western Cape is the leading province in terms of full registration of CYCCs providing secure care programmes to children and youth in terms of the Child Justice Act. Implementation of risk plans for all centres and an effective quality assurance process assisted in monitoring compliance with norms and standards for secure care centres. It includes registered Adult Education Centres at all facilities, managed by qualified education staff.
- Capacity building on norms and standards, and improved monitoring and reporting process has resulted in increased NPO compliance.

Strategy to overcome areas of under performance

- Stakeholder engagements with Department of Justice, National Prosecuting Authority, SAPS and individual magistrates with the objective of unblocking the slow movement of children in the system.

Programme achievements

- During the reporting period the Department registered 13 inpatient treatment centres, three halfway houses and nine community-based service organisations.
- Developed a SOP for Registration of Substance Abuse Facilities in terms of Sections 14; 19 and 21 of The Prevention of and Treatment for Substance Abuse Act. The purpose of the SOP is to provide a clear step-by-step guide in line with relevant legislation.
- Increased subsidised bedspace.
- Capacity building on norms and standards and an improved monitoring and reporting process has resulted in increased NPO compliance.

Strategy to overcome areas of under performance

- Development of an active early detection system to target movement of clients.
- A uniform admission process for funded inpatient treatment centres will be developed over the MTEF.

5. TRANSFER PAYMENTS

5.1 Transfer payments to public entities

Not applicable

5.2 Transfer payments to all organisations other than public entities

Please see enclosed CD.

The Department monitors the transfer payment process in the following ways:

- Each programme has a monitoring plan for each NPO that it funds which include site visits;
- Compliance is monitored according to the TPA which contains all the targets and the funding conditions;
- Funding meetings have been institutionalised as an additional tool to monitor programme TPAs; and
- The performance information management processes (including reporting templates, SOPs and an indicator description manual) have been revised to ensure that the data collected is reliable, valid and that the data sets are complete.

The major challenge and difficulty experienced with the transfer payment process is that the Department previously transferred funds on a quarterly basis to the NPOs. On instruction from the Provincial Treasury, payments have been processed monthly since September 2016 in order to project cash flows more accurately. Processing monthly payments to more than 2 000 NPOs has caused a tremendous administrative burden for the Department and this has led to some NPOs not receiving payments on time.

With the development and implementation of the NPO Management System the Department should be able to address these issues.

8. CAPITAL INVESTMENT

8.1 Capital investment, maintenance and asset management plan

Progress made on implementing the capital, investment and asset management plan

The Department's capital investments mainly comprise of movable assets in respect of computer equipment, furniture, motor vehicles and other equipment. The asset register is updated immediately with acquisitions, disposals and any other movement of assets. Information technology assets include a three-year warranty in the event that an asset breaks down.

Infrastructure projects (current and in progress)

Projects completed during this financial year were at Langa SDA, Beaufort West SDA and 8th Floor Union House (Head Office). The 4th and 6th floors at Union House are in their final stages of completion.

The following projects are currently in progress:

- Union House 2nd, 5th, and 10th floors are in the construction phase.
- Mossel Bay SDA - design planning phase completed and the tender process will start within the next financial year.
- George SDA (York Park) - design phase completed and the tender process will follow.

Plans to close down or downgrade any current facilities

Tenderten CYCC was closed down during the period under review.

Progress made on the maintenance of infrastructure

Maintenance and infrastructure issues were dealt with by the DTPW.

Developments relating to the above that are expected to impact on the Department's current expenditure

None

Changes regarding asset holdings

- The Department's total capital asset holdings was R 105 844 315.32, at cost, as at 31 March 2017.
- The annual stock-take on allocated assets was completed on 31 March 2017, with the exception of Metro North Region which was concluded before the submission of the annual financial statements (by 31 May 2017).
- Khayelitsha SDA1 could not be verified due to non-accessibility as the site is currently undergoing renovations.
- All asset details were captured on the asset register and were accurate, reliable, correctly classified and accounted for.
- All obsolete, unserviceable and damaged assets were disposed of regularly and in a transparent manner.
- A total of 103 assets have been disposed of during the 2016/2017 financial year.
- A total of 0 assets have been written off during the 2016/2017 financial year.

Table G: The breakdown of the major (capital) asset holding is as follows:

Store	Cost Price
Head Office	R13 125 680.66

TOTAL	R105 844 315.32

Assets disposed in the 2016/17 financial year

The total value of assets disposed of in the 2016/17 financial year was R3 408 401.72. The assets disposed of related to 16 government vehicles, which were replaced by Government Motor Transport and 86 other capital assets which were disposed of in the ordinary course of business.

Measures taken to ensure that the Department's asset register remained up-to-date

Assets are being recorded on the date of receipt and in addition to this, monthly reconciliations are performed between asset expenditure and the asset register. Cost Centres are also required to perform monthly spot checks of assets under their control and to report any changes identified during the process, as this allows for the immediate update of the register. The annual asset verification is further performed to ensure that the asset register is complete and accurate.

The current state of the Department's capital assets

20% of assets are in good (usable) condition, 75% of are in a fair (usable) condition and the remaining 5% of assets are in a poor condition.

Major maintenance projects that have been undertaken

None

Progress made in addressing the maintenance backlog

Progress in addressing the maintenance backlog has been hampered due to lack of resources (human resources and budget) that the DTPW is experiencing. The DSD has engaged with the DTPW to reprioritise the maintenance backlog.

PART C: GOVERNANCE

PART C: GOVERNANCE

1. INTRODUCTION

Commitment by the Department to maintain the highest standards of governance is fundamental to the management of public finances and resources. Users want assurance that the Department has good governance structures in place to effectively, efficiently and economically utilise the state resources, which are funded by the tax payer.

2. RISK MANAGEMENT

The Accounting Officer (AO) for the Department of Social Development takes responsibility for implementing Enterprise Risk Management (ERM) in accordance with the National Treasury Public Sector Risk Management Framework (PSRMF) and the Directorate Enterprise Risk Management (D:ERM) in the Department of the Premier (DotP) provides a centralised strategic support service to the Department.

In compliance with the National Treasury Public Sector Risk Management Framework (PSRMF) and to further embed risk management within the Department, the Western Cape Government (WCG) has adopted an ERM Policy Statement which sets out the WCG's overall intention with regard to ERM. The Department adopted an ERM Policy for the period 2016/17 – 2017/18, approved by the Accounting Officer on 15 April 2016; and an ERM Strategy and Implementation Plan for 2016/17, approved by the Accounting Officer on 15 April 2016. The ERM Implementation Plan gave effect to the departmental ERM Policy and Strategy and outlines the roles and responsibilities of management and staff in embedding risk management in the department.

The Department assessed significant risks that could have an impact on the achievement of its objectives, both strategically and on a programme level, on a quarterly basis. Risks were prioritised based on its likelihood and impact (inherently and residually) and additional mitigations were agreed upon to reduce risks to acceptable levels. New/emerging risks were identified during the quarterly review processes.

The Department established an Enterprise Risk Management Committee (ERMCO) to assist the Accounting Officer in executing his responsibilities relating to risk management. The Committee operated under a Terms of Reference approved by the Accounting Officer on 04 April 2016. ERMCO in the main evaluated the effectiveness of the mitigating strategies implemented to address the risks of the department and recommended further action where relevant.

The Social Cluster Audit Committee furthermore monitors the risk management process independently as part of its quarterly review of the Department.

3. FRAUD AND CORRUPTION

Fraud and corruption represent significant potential risks to the Department's assets and can negatively impact on service delivery efficiency and the Department's reputation.

The Western Cape Government (WCG) adopted an Anti-Corruption Strategy which confirms the Province's zero tolerance stance towards fraud and corruption. In line with this strategy the Department is committed to zero-tolerance with regard to corrupt or fraudulent activities, whether internal or external, and vigorously pursues and prosecutes by all legal means available, any parties who engage in such practices or attempt to do so.

The Department has an approved Fraud Prevention Plan and a Fraud Prevention Implementation Plan which gives effect to the Fraud Prevention Plan.

Various channels for reporting allegations of fraud and corruption exist and these are described in detail in the Provincial Anti-Corruption Strategy and the Departmental Fraud Prevention Plan. Each allegation received by the Provincial Forensic Services (PFS) Unit is recorded in a Case Management System which is used as a management tool to report on progress made with cases relating to the Department and generating statistics for the Province and Department.

Employees who blow the whistle on suspicions of fraud, corruption and theft are protected if the disclosure is a protected disclosure (i.e. meets statutory requirements e.g. was made in good faith). In this regard a transversal Whistle-blowing Policy was approved on 24 February 2016 to provide guidelines to employees on how to raise concerns with the appropriate line management, specific designated persons in the WCG or external institutions, where they have reasonable grounds for believing that offences or improprieties have been or are being perpetrated within the WCG. The opportunity to remain anonymous is afforded to any person who would like to report acts of fraud, theft and corruption and should they do so in person, their identities are kept confidential by the person to whom they are reporting.

Once fraud or corruption is confirmed after completion of an investigation, the relevant employee who participated in these acts is subjected to a disciplinary hearing. In all such instances, the WCG representative initiating the disciplinary proceedings is required to recommend dismissal of the employee concerned. Where *prima facie* evidence of criminal conduct is detected, a criminal matter is reported to the South African Police Services.

For the year under review, the PFS issued a Case Movement Certificate for the Department noting the following:

Open cases as at 1 April 2016	1
New cases (2016/17)	4
Closed cases (2016/17)	(4)
Open cases as at 31 March 2017	1

The following table further analyses the closed cases indicated above:

Outcome of cases closed	
Outcome	Number
Allegations substantiated	1
Only preliminary investigation with no adverse findings	3

4. MINIMISING CONFLICT OF INTEREST

A high standard of professional ethics must be promoted and maintained in the public service. To this effect, all members of the SMS are required to disclose to the executive authority particulars of all their registerable interests in accordance with Chapter 2 of the Public Service Regulations, 2016. The objective of Chapter 2 is to identify any conflicts of interest in order to promote just and fair administrative actions of officials in senior positions and thereby to protect the public service from actions that may be detrimental to its functioning. Such disclosures take place annually. Should any conflict of interest arise it will be dealt with, in accordance with the Public Service Regulations, 2016 and related prescripts.

In terms of section 30 of the Public Service Act, (as amended), employees in the public service may perform other remunerative work outside their employment in the relevant department, provided that they have written permission from the Executing Authority. Furthermore, Regulation 13(c) of the Public Service Regulations, 2016 which came into effect on 1 August 2016 directs that "an employee shall not conduct business with any organ of state or be a director of a public or private company conducting business with an organ of state, unless such employee is in an official capacity a director of a company listed in schedule 2 and 3 of the Public Finance Management Act." Employees who have not obtained the necessary approval to perform other remunerative work outside the public service (RWOPS) will be disciplined.

With the introduction of the new Public Service Regulations, 2016 Annexure 1 (Transitional Arrangements), read in conjunction with section 30 of the Public Service Act greater emphasis is being placed on employees who are doing business with an organ of state. Transitional measures according to Annexure 1 of the Public Service Regulations, 2016 specifically require:

- "(1) All approvals and deemed approvals granted to employees in terms of section 30 of the Act prior to the coming into effect of the determination contemplated in regulation 24 shall terminate with effect from six months after the commencement thereof.
- (2) An employee, who at the time of the coming into effect of these Regulations, conducts business with an organ of state or is a director of a company which conducts business with an organ of state, other than an employee who is in his or her official capacity a director of company listed in schedule 2 or 3 of the Public Finance Management Act, shall -
- (a) within one month, disclose that the employee is conducting business with an organ of state or is a director of a company that conducts business with an organ of state;
 - (b) within six months:
 - (i) cease conducting business with an organ of state or resign as an employee;
 - (ii) resign as a director of a company that conducts business with an organ of state or resign as an employee;
 - (c) if the employee does not resign within the six month period, the employee must submit proof that the employee has ceased conducting business or has resigned as a director of a company that conducts business with an organ of state within a month of doing so."

Identified cases of employees who appear on the Central Supplier Database are addressed with the relevant employees, requesting them to exercise their decision as contemplated in transitional measures, above, and to provide the Department with the necessary documentary evidence of their decision.

Employees who wish to perform other RWOPS, must apply in accordance with section 30 of the Public Service Act and use the regulatory framework established by the Minister of Public Service and Administration (MPSA), which includes an amended application form, to be submitted to the appointed Ethics Officer to support and/or indicate a reason(s) when not supporting the application, before approval is granted by the Executing Authority or Delegated Authority. Upon approval the Executing Authority or Delegated Authority issues a Certificate: Approval of Other Remunerative Work, informing the applicant that approval has been granted. The certificate clearly highlights what other remunerative work outside the

public service the person can perform including the period. The certificate specifies that if it is to be discovered that there is non-compliance or adherence to government prescripts regulating other remunerative work, including not conducting business with an organ of state, permission will be withdrawn and disciplinary steps, in-line with the Disciplinary Code and Procedures for the Public Service, will be instituted. Mention is also made that if a person wishes to continue with other remunerative work after the expiry of the approved date, a further application must be submitted.

All applications must be in writing and must, amongst others, address the nature and extent of remunerative work to be performed, including the times/hours of duty and relation thereof (possible conflict of interest or areas of concern) to the normal duties that the employee performs in the public service. Such applications are then subject to review. Employees must apply annually prior to the expiry of the period approved by the Executing Authority or Delegated Authority. Quarterly newsflashes, highlighting the procedure around performing RWOPS is distributed to all internal staff to improve their understanding and compliance with the regulatory framework.

Furthermore, ethics officers were appointed by the Executive Authority to monitor compliance regarding disclosures. To minimise the conflict of interest in SCM processes, SCM practitioners and Bid Committee members were made aware of their ethical obligations including the signing of Codes of Conduct, by Bid Committee members and SCM practitioners. During the consideration, acceptance or allocation of bids or any offer a declaration of interest form is completed and signed by all members where they commit that as members of the committee, they will not deliberately favour or prejudice anybody in the decision-making process of the committee.

To ensure compliance to the Public Service Act, (as amended) and Public Service Regulations, 2016 a Transversal Gift Policy and the Departmental Gift and Donations Register and written declarations are applied. The Research Ethics Committee, established in 2009, ensures the promotion of ethically-based research in the Department. The development of a Research Ethics Policy culminates in providing ethical guidelines for undertaking research.

5. CODE OF CONDUCT

The Code of Conduct for the Public Service, as included in Chapter 2 of the Public Service Regulations is the "adopted" code. The Code of Conduct prescribes norms and standards in promoting integrity, and efficient and effective delivery of services to the public; is a set of standards describing the behaviour we expect from our employees; guides employees as to what is expected of them ethically, both in their individual conduct and in their relationships with others; and all employees are expected to comply with the code of conduct.

Awareness about the Code of Conduct was raised through induction training for new employees, interns as well as staff members and reinforced through newsflashes communicated to all staff. The Disciplinary Code and Procedures for the Public Service are used to promote acceptable conduct, and to avert and correct unacceptable conduct.

6. HEALTH, SAFETY AND ENVIRONMENTAL ISSUES

Occupational Health and Safety:

During the 2016/17 financial year, the Departmental Occupational Health and Safety Committee, which is constituted by members from the Department's head office, regions, local offices and facilities, convened all the planned quarterly meetings. In order to streamline communication and develop internal incident report protocol, the Department issued a circular, which prescribed reporting procedures for the occurrence of safety and security related incidents.

In order to continuously develop and build the capacity of the designated officials, floor marshalling, fire-fighting and first aid training was provided. Sixty officials benefitted from these interventions.

Three local offices of the Department were inspected by the Department of Labour (DoL) for compliance regarding occupational health and safety. The faults identified were due to the poor maintenance service received from the DTPW and these offices were threatened with closure. Negotiations with the DoL continued until year end. Despite these challenges, it is worth noting that the Department scored very well during the OHS audit performed by the Department of Community Safety during this period.

Security

The Department continuously conveys the message to all employees that security is not the sole responsibility of the departmental Security Committee, but it is the business of everyone.

The Department has a functional Security Committee. In June 2016, the Committee received the results of the information security appraisal conducted by the State Security Agency in September 2015. The recommendations made by the appraisal are currently being implemented taking into account all the constraints imposed by shrinking budgets.

The Security Committee has improved its performance from 86% to 92% as per the security audit conducted in October 2016 by the SAPS. Some of the structural recommendations of the audit will be addressed by the renovations of Union House that are currently underway. The renovations, which began in the third quarter of the reporting period, compromised our security due to the number of building contractor employees on site. All employees at Union House have been advised to take extra measures to protect both their belongings and the assets of the department in order to mitigate security risks.

The renovations at Union House have forced the department to put on hold certain aspects of the Business Continuity Plan that were due for testing. It is hoped that such testing will resume during the third quarter of 2017/18.

As part of the commitment to safety and information security preparedness, after each audit and information security appraisals conducted by the relevant agencies, the Department participates in the annual corrective plan conducted by Department of Community Safety. These action plans contribute to the improvement of Departmental performance.

As indicated in the previous annual report, although DSD prioritises the vetting of designated categories of staff, the challenges experienced by the State Security Agency in speeding up the vetting process compromises the ability of the Department to be fully compliant in this regard. The State Security Agency is trying its best to assist DSD to speedily vet its employees.

During the period under review, the Departmental Security Manager and a support staff member participated in the accredited training offered by the Private Security Industry Regulatory Authority (PSIRA) and received grading E – A.

As per the Security Committee obligations, all the Departmental safety and security related policies were reviewed and approved.

10. INTERNAL CONTROL UNIT

The unit's focus for the year under review was mainly on the areas of Good Governance, Assurance Services and Loss Control Management.

Good Governance

The Department performed the following functions with regard to internal controls:

- Implementation of a fully web-based system or E-GAP application (Electronic Governance Action Plan) which will allow for historical data reports and trending from the system, as well as a central information library allowing for swift turnaround time, knowledge sharing and improved processes.
- Monitoring of the implementation of internal and external audit recommendations as well as those of the MPAT.
- Coordination of the ERMCO meetings.
- Recognition of the following stakeholders, namely, the Audit Committee, Internal Audit, PT and the Auditor-General of South Africa in finalising matters.
- A Special intervention programme was conducted in September 2016 and February 2017 with the regional offices and the facilities on new developments in Internal Control.
- Three Finance Forums were held with the regional offices and facilities.

Assurance Services

For the year under review, the following were performed in the Department:

- One financial inspection at the Metro North Regional Office, one at the HUB and facilities.
- Verification of payments after processing in order to ensure validity and accuracy - audit readiness.
- All documents were scanned for safekeeping and as a measure to prevent misplacements or duplicate payments.

Loss Control and Fraud

- The Department utilises the ORACLE Loss Control system to manage losses due to theft, damages etc.
- The Department recognises the following stakeholders, namely, the SAPS, CSC – Legal Services, Government Motor Transport and PT in finalising matters.
- For the period under review 89 (Government Garage (GG) vehicle accidents and damages) cases were finalised and written off.

11. INTERNAL AUDIT AND AUDIT COMMITTEES

Internal Audit provides management with independent, objective assurance and consulting services designed to add value and to continuously improve the operations of the Department. It assists the Department to accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of Governance, Risk Management and Control processes. The following key activities are performed in this regard:

- Assess and make appropriate recommendations for improving the governance processes in achieving the department's objectives;
- Evaluate the adequacy and effectiveness and contribute to the improvement of the risk management process;
- Assist the Accounting Officer in maintaining efficient and effective controls by evaluating those controls to determine their effectiveness and efficiency, and by developing recommendations for enhancement or improvement.

The following assurance engagements were approved in the 2016/17 Internal Audit Plan:

- Youth Development
- Public Administration and Management Delegations
- Child Care and Protection – Metro East Region
- Customer Care
- Child Care and Protection – Metro South Region
- Transfer Payments
- Substance Abuse
- Sustainable Livelihoods

The Audit Committee is established as an oversight body, providing independent oversight over governance, risk management and control processes in the Department, which include oversight and responsibilities relating to:

- Internal Audit function;
- External Audit function (Auditor General of South Africa - AGSA);
- Departmental Accounting and reporting;
- Departmental Accounting Policies;
- Review of AGSA management and audit report;
- Review of Departmental In year Monitoring;
- Departmental Risk Management;
- Internal Control;
- Pre-determined objectives;
- Ethics and Forensic Investigations.

The table below discloses relevant information on the audit committee members:

12. AUDIT COMMITTEE REPORT

We are pleased to present our report for the financial year ended 31 March 2017.

Audit Committee Responsibility

The Audit Committee reports that it has complied with its responsibilities arising from Section 38 (1) (a) (ii) of the Public Finance Management Act and Treasury Regulation 3.1.13. The Audit Committee also reports that it has adopted appropriate formal terms of reference as its Audit Committee Charter, has regulated its affairs in compliance with this charter and has discharged all its responsibilities as contained therein.

The Effectiveness of Internal Control

In line with the PFMA and Treasury Regulations, Internal Audit provides the Audit Committee and Management with reasonable assurance that the internal controls are adequate and effective. This is achieved by an approved risk-based internal audit plan, Internal Audit assessing the adequacy of controls mitigating the risks and the Audit Committee monitoring implementation of corrective actions.

The following internal audit work was completed during the year under review:

- Youth Development
- Public Administration and Management Delegations
- Child Care and Protection – Metro East Region
- Customer Care
- Child Care and Protection – Metro South Region
- Transfer Payments
- Substance Abuse
- Sustainable Livelihoods

The areas for improvement, as noted by internal audit during performance of their work, were agreed to by management. The Audit committee monitors the implementation of the agreed actions on a quarterly basis.

In-Year Management and Monthly/Quarterly Report

The Audit Committee is satisfied with the content and quality of the quarterly in-year management and performance reports issued during the year under review by the Accounting Officer of the Department in terms of the National Treasury Regulations and the Division of Revenue Act.

Evaluation of Financial Statements

The Audit Committee has:

- reviewed and discussed the Audited Annual Financial Statements to be included in the Annual Report, with the Auditor-General South Africa (AGSA) and the Accounting Officer;
- reviewed the AGSA's Management Report and Management's responses thereto;
- reviewed changes to accounting policies and practices as reported in the Annual Financial Statements; and
- reviewed material adjustments resulting from the audit of the Department.

Compliance

- The Audit Committee has reviewed the Department's processes for compliance with legal and regulatory provisions.

Provincial Forensics Services

The Provincial Forensic Services (PFS) presented us with statistics. The Audit Committee Monitors the progress of the PFS reports on a quarterly basis. There were no matters brought to our attention that required further reporting by the Audit Committee.

Performance Information

The Audit Committee has reviewed the information on predetermined objectives as reported in the Annual Report.

Report of the Auditor-General South Africa

The Audit Committee has, on a quarterly basis, reviewed the Department's implementation plan for audit issues raised in the prior year. The Audit Committee has met with the AGSA to ensure that there are no unresolved issues that emanated from the regulatory audit. Corrective actions on the detailed findings raised by the AGSA are monitored by the Audit Committee on a quarterly basis.

The Audit Committee concurs and accepts the AGSA's opinion regarding the Annual Financial Statements, and proposes that these Audited Annual Financial Statements be accepted and read together with their report.

The Audit Committee commends the Department for maintaining an unqualified audit opinion with no material findings.

Appreciation

The Audit Committee wishes to express its appreciation to the Management of the Department, the Auditor-General South Africa and the WCG Corporate Assurance Branch for the co-operation and information they have provided to enable us to compile this report.

PART D: HUMAN RESOURCE MANAGEMENT

PART D: HUMAN RESOURCE MANAGEMENT

1 INTRODUCTION

Our unique contribution to the work of the WCG is largely ascribed to the persistent, and often selfless, efforts of the people within the Department. Building a new service delivery trajectory and successfully directing the collective efforts of our team is not without its own challenges. The modern people management landscape has shifted significantly in recent years and requires complex navigation between a range of competing variables.

Apart from the fact that these variables are interdependent and interrelated, they are also governed by stringent rules and regulations, which prove difficult when retention and attraction initiatives are explored. These include balancing service delivery imperatives, the attraction and retention of critical and scarce skills, workforce empowerment, career management, succession planning, employment equity and creating an enabling environment where employees are able to thrive. Further to this, the Department is required to function within an austere environment, which demands that managers consider the impact of “doing more with less”.

Despite this, the consistent hard work of our people, amidst the ever-challenging circumstances, has resulted in remarkable achievements and service delivery improvement during the year under review.

Vacancy rate

In order to effect ongoing service delivery efforts in the public service, DPSA launched a strategy in 2011 to reduce the vacancy rate in departments to a national standard below 10%. Compliance with the strategy is monitored by the Forum for South African Directors General (FOSAD) as well as the Department of Planning Monitoring and Evaluation (DPME) through the MPAT.

At the end of the 2016/17 financial year, the Department had an overall vacancy rate of 2,5%. This is an improvement on the 5,4% vacancy rate during the 2015/16 review period. In the critical occupations category, the vacancy rate was also below the 10% norm at 3%.

Internship Programmes

The Department created learning opportunities for 20 unemployed matriculants through the Premier's Advancement of Youth (PAY) Internship Programme and provided 13 graduate interns with work-related experience. A further 30 interns gained experiential learning as part of their course work and 15 social auxiliary work interns received in-service training as part of their programme. The 78 interns comprised 3% of the total workforce remunerated over the period.

2 STATUS OF PEOPLE MANAGEMENT AT THE DEPARTMENT

2.1. Departmental Workforce Planning Priorities

HR Planning Priorities	Outcomes
Organisational Design	<ul style="list-style-type: none"> Improved service delivery/Improved processes in terms of relevant PSG (Organisational Design investigation; Uniform funding cycle process) Implementation Plan (implementation plan of legislative mandate, with specific reference to Children's Act including staffing issues, budget, etc.) More favourable ratio between social workers and population numbers
Recruitment/ Staffing/Retention	<ul style="list-style-type: none"> Reduced time frames to fill advertised posts (Recruitment plan) Reduced vacancy rate and more efficient Recruitment & Selection process (Recruitment plan) Reduced the turn-around for filling of posts (E-recruitment system) Improved staff stability/reduced turn-over (Reduce the number of contract workers appointed against permanent posts) Shared values and culture alignment contributing to staff retention (Implement and roll-out the "On-Boarding Programme" to successfully integrate new employees)
Career management inclusive of Training and Development	<ul style="list-style-type: none"> A competent workforce Availability of a pool of competent employees ready to take up vacant positions Reduced entropy levels as employees become more productive Increase in identified staff groupings and adherence to national targets (learnerships: 2% and internships: 3%) Availability of specialised/ scarce/critical skills Training needs sufficiently addressed Efficient skills transfer and preservation of institutional memory
Knowledge Management	<ul style="list-style-type: none"> Institutional memory available to inform sound decision-making
Promotion of Employment Equity	<ul style="list-style-type: none"> A diverse workforce with equal opportunities for all Compliance with EE targets in SMS (Gender 50/50)
Institutionalise Change Navigation within the Department (inclusive of values, ethics and organisational culture)	<ul style="list-style-type: none"> Entropy (energy wasted on unproductive tasks) reduced to acceptable levels Sound employee relations Increased resilience levels.

2.2. Employee Performance Management

One of the cornerstones of the Staff Performance Management System (SPMS) is the basic requirement that all employees are obliged to do what is expected of them. These expectations and the required performance standards are concretised by means of job descriptions, performance agreements and business / operational plans. Rewards and incentives are therefore only granted for work that qualitatively and quantitatively surpasses work for which employees are remunerated.

Employees who are nominated for performance bonuses are assessed by moderation panels, who then examine the evidence of superior performance. Under-performing staff members, on the other hand, are required to complete the actions stipulated in a Performance Improvement Plan. These are closely monitored to ensure absolute compliance with acceptable performance standards.

The framework also seeks to promote a positive workplace culture that encourages formal and informal discussions about performance quality, lead practice and continuous individual improvement.

This system sets the framework in which both the employer and employee can equally realise their goals and objectives to ensure the achievement of PSG 5, namely to “Embed good governance and integrated service delivery through partnerships and spatial alignment.”

2.3. Employee Wellness

Developing a wellness culture in the Department is of strategic importance to ensure that employees achieve optimum levels of performance while feeling cared for and supported in the work context. The WCG's transversal Employee Health and Wellness (EHW) Programme follows a holistic approach to employee wellbeing and is largely preventative in nature, offering both primary and secondary services. The EHW Programme is monitored in the Department through monthly utilisation reports for primary services (24-hour telephonic counselling service, online e-Care service and reporting) and secondary services (face-to-face counselling, trauma and critical incidents, training and targeted intervention, executive coaching and advocacy).

A quarterly report is prepared by the Directorate: Organisational Behaviour within the CSC that provides a trend analysis of utilisation, risk identification and its impact on productivity. Furthermore, on-going reporting to the DPSA is a requirement and such reporting focuses on four areas namely, HIV/AIDS, Health and Productivity, Wellness Management and Safety Health Environment and Quality.

3 PEOPLE MANAGEMENT OVERSIGHT STATISTICS

3.1 Personnel related expenditure

The following tables summarise final audited expenditure by programme (Table 3.1.1) and by salary bands (Table 3.1.2).

The figures in Table 3.1.1 are drawn from the Basic Accounting System and the figures in Table 3.1.2 are drawn from the PERSAL (Personnel Salary) system. The two systems are not synchronised for salary refunds in respect of staff appointments and resignations and/or transfers to and from other departments. This means there may be a difference in the total expenditure reflected on these systems.

The key in the table below is a description of the Programmes within the Department. Programmes will be referred to by their number from this point forward.

The following tables provide a summary per programme (Table 3.1.3) and salary bands (Table 3.1.4), of expenditure incurred as a result of salaries, overtime, housing allowance and medical assistance. These tables do not make provision for other expenditure such as pensions, performance bonus and other allowances, which make up the total personnel expenditure. In each case, the table provides an indication of the percentage of the personnel expenditure that was used for these items.

3.2 Employment and vacancies

The following tables summarise the number of active posts on the establishment, the number of employees (excluding interns and the Minister), and the percentage active vacant posts as at the end of the financial year. This information is presented in terms of three key variables, namely: Programme (Table 3.2.1), Salary Band (Table 3.2.2) and Critical Occupations (Table 3.2.3). All information in this section is provided as a snapshot as at the end of the financial year under review.

Table 3.2.1: Employment and vacancies by programme, as at 31 March 2017

Social Auxiliary Worker	191	185	3.1
Social Worker	768	750	2.3
Total	1374	1331	3.1

Note: Critical occupations - refer to occupations that are critical for service delivery. If these occupations are not present in the department, the function/services will collapse.

3.3 Job evaluation

Job evaluation was introduced as a way of ensuring that work of equal value is remunerated equally. Within a nationally determined framework, executing authorities are required to evaluate each new post in his or her organisation or re-evaluate any post where the post mandate or content has significantly changed. This job evaluation process determines the grading and salary level of a post. It should be understood that Job Evaluation and Staff Performance Management differ in the sense that Job Evaluation refers to the value/weighting of the activities that are associated with the post and Staff Performance Management refers to the review of an individual's performance.

Table 3.3.1 summarises the number of posts that were evaluated during the year under review. The table also provides statistics on the number of posts that were upgraded or downgraded.

Table 3.3.1: Job evaluation, 1 April 2016 to 31 March 2017

Salary Band	Total number of posts as at 31 March 2017	Number of posts evaluated	% of posts evaluated	Posts Upgraded		Posts Downgraded

3.4. Employment changes

Turnover rates provide an indication of trends in the employment profile of the Department during the year under review. The following tables provide a summary of turnover rates by salary band (Table 3.4.1) and by critical occupation (Table 3.4.2). This section does not include intern information.

Total	1 923	100.0	48	2 261	2.1	40	1 477

Note: The leave dispensation as determined in the "Leave Determination", read with the applicable collective agreements, provides for normal sick leave of 36 working days in a sick leave cycle of three years. If an employee has exhausted his or her normal sick leave, the employer must conduct an investigation into the nature and extent of the employee's incapacity. Such investigations must be carried out in accordance with item 10(1) of Schedule 8 of the Labour Relations Act (LRA).

Incapacity leave is not an unlimited amount of additional sick leave days at an employee's disposal. Incapacity leave is additional sick leave granted conditionally at the employer's discretion, as provided for in the Leave Determination and Policy on Incapacity Leave and Ill-Health Retirement (PILIR).

Table 3.10.3: Annual Leave, 1 January 2016 to 31 December 2016

3.11. Health promotion programmes, including HIV and AIDS

Table 3.11.1: Steps taken to reduce the risk of occupational exposure, 1 April 2016 to 31 March 2017

Units/categories of employees identified to be at high risk of contracting HIV & related diseases (if any)	Key steps taken to reduce the risk
<p>The nature of the Department's work does not expose employees to increased risk of contracting HIV & AIDS. Despite the very low occupational risk, all employees have been targeted at all levels within the Department.</p>	<p>HIV & AIDS Counselling and Testing (HCT) and Wellness screenings were conducted in general. The outsourced Health and Wellness contract for the EHWP provides employees and their immediate family members (it means the spouse or partner of an employee or children living with an employee) with a range of services. These services include the following:</p> <ul style="list-style-type: none"> ● 24-hour telephone counselling; ● Face to face counselling (4 session model); ● Trauma and critical incident counselling; ● Advocacy on HIV&AIDS awareness, including online E-Care services; and ● Training, coaching and targeted Interventions where these were required.

<p>2. Does the Department have a dedicated unit or has it designated specific staff members to promote the health and well-being of your employees? If so, indicate the number of employees who are involved in this task and the annual budget that is available for this purpose.</p>	√		<p>The CSC within DotP provides a transversal service to the 11 departments, including DSD</p> <p>A designated Employee Health and Wellness unit within the Directorate Organisational Behaviour and the Chief Directorate Organisation Development serves to promote the health and wellbeing of employees in the 11 client departments.</p> <p>The unit consists of a Deputy Director, three Assistant Directors, and two EHW Practitioners.</p> <p>Budget: R2.65 m</p>

Question	Yes	No	Details, if yes
<p>3. Has the Department introduced an Employee Assistance or Health Promotion Programme for employees? If so, indicate the key elements/services of this Programme.</p>	√		<p>The Department has entered into a service level agreement with ICAS (external service provider) to render an Employee Health and Wellness Service to the eleven departments of the CSC.</p> <p>The Department conducted interventions namely, Awareness Session (EHW Services, Nutrition Awareness, E-Care Profiling and Information, and Exercise Demonstration), Stress & Work-life Balance, Conflict Management, Relationship Enrichment, Self-Development, Mental Health Awareness, Financial Management, Trauma Management, Juicy Parenting, Addictive Behaviour and Stress and Resilience and Coaching for employees.</p> <p>These interventions were planned based on the trends reported quarterly through the EHWP reports provided by the service provider, ICAS, for the period 2016/17. The reports were based on the utilisation of the EHW services and management information in order to target appropriate interventions to address these trends.</p> <p>The targeted interventions were aimed at improving employee engagement through awareness and educational interventions that promote healthy lifestyles and coping skills. This involves presentations to create awareness and encourage employees to have a proactive approach to limit the impact of these problems in the workplace. The above-mentioned interventions were conducted for the targeted departments, managers and supervisors as well as executive coaching for SMS members.</p> <p>The Department also provided information sessions, as requested by various departments in the WCG, to inform employees of the EHW service, and how to access the EHWP. Promotional material such as pamphlets, posters and brochures were distributed.</p>

<p>5. Has the Department reviewed its employment policies and practices to ensure that these do not unfairly discriminate against employees on the basis of their HIV status? If so, list the employment policies/practices so reviewed.</p>	√		<p>The Transversal Management Framework for Employee Health and Wellness Programmes in the WCG is in effect and was adopted by the Co-ordinating Chamber of the PSCBC for the Western Cape Province on 10 August 2005.</p> <p>In this regard, all employment policies make provision for fair practices, regardless of the HIV status of staff or applicants.</p> <p>During the period under review, the DoP has developed four Provincial Employee Health and Wellness Policies which were ratified and approved on 8 March 2016. One of the policies, HIV & AIDS and TB Management, responds to the prevention of discrimination against employees affected and infected by HIV & AIDS and TB in the workplace.</p> <p>Further to this, the DoH, the lead department for HIV & AIDS, has approved the Transversal HIV and AIDS/STI Workplace Policy and Programme that is applicable to all departments of the WCG. The document is in line with the four pillars of the EHW Strategic Framework 2008.</p>

Question	Yes	No	Details, if yes
6. Has the Department introduced measures to protect HIV-positive employees or those perceived to be HIV-positive from discrimination? If so, list the key elements of these measures.	√		<p>The Department implemented the Provincial Strategic Plan on HIV & AIDS, Sexually Transmitted Infections (STIs) and TB 2012-2016 to mainstream HIV and TB and its gender and rights-based dimensions into the core mandates to reduce HIV-related stigma.</p> <p>The overarching aim of the said Provincial Strategic Plan is to protect HIV-positive employees by advocating the implementation of the Three Zeros in line with the Joint United Nations Programme on HIV & AIDS (UNAIDS). These are educational programmes and information sessions developed to eradicate stigma and discrimination and to raise awareness through:</p> <ul style="list-style-type: none"> ● Zero new HIV, STI and TB infections; ● Zero deaths associated with HIV and TB; and ● Zero discrimination. <p>The Department conducted HCT and Wellness screenings to promote testing for HIV/AIDS and screening for TB by all employees in the department at least annually.</p> <p>The aim was to:</p> <ul style="list-style-type: none"> ● Reduce HIV and TB discrimination in the workplace. This included campaigns against unfair discrimination and empowerment of employees; and ● Reduce unfair discrimination in access to services. This included ensuring that the Directorate Employee Relations addresses complaints or grievances relating to unfair discrimination and provides training to employees. <p>Other key elements that addressed anti-HIV & AIDS discrimination issues were:</p> <ul style="list-style-type: none"> ● conducting Wellness and TB Screenings with specific requests from departments; ● distributing posters and pamphlets; ● providing HCT and TB Screenings, condom distribution and spot talks; and ● commemoration of World AIDS Day and Wellness events.

1 REPORT OF THE AUDITOR GENERAL

Report of the auditor-general to the Western Cape Provincial Parliament on vote no. 7: Western Cape Department of Social Development

Report on the audit of the financial statements

Opinion

1. I have audited the financial statements of the Western Cape Department of Social Development set out on pages 161 to 225, which comprise the appropriation statement, the statement of financial position as at 31 March 2017, and the statement of financial performance, statement of changes in net assets and cash flow statement, as well as the notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Western Cape Department of Social Development as at 31 March 2017, and its financial performance and cash flows for the year then ended in accordance with the Modified Cash Standard prescribed by the National Treasury and the requirements of the Public Finance Management Act of South Africa, 1999 (Act No. 1 of 1999) (PFMA) and the Division of Revenue Act of South Africa, 2016 (Act No. 3 of 2016) (DoRA).

Basis for opinion

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general's responsibilities for the audit of the financial statements section of my report.
4. I am independent of the department in accordance with the International Ethics Standards Board for Accountants' Code of ethics for professional accountants (IESBA code) and the ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Other matter

6. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Unaudited supplementary schedules

7. The supplementary information set out on pages 226 to 236 does not form part of the financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion thereon.

Responsibilities of the accounting officer for the financial statements

8. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the Modified Cash Standard prescribed by National Treasury and the requirements of the PFMA and DORA and for such internal control as the accounting officer determines is necessary to enable the preparation of

financial statements that are free from material misstatement, whether due to fraud or error.

9. In preparing the financial statements, the accounting officer is responsible for assessing the Western Cape Department of Social Development's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the intention is to liquidate the department or cease operations, or there is no realistic alternative but to do so.

Auditor-general's responsibilities for the audit of the financial statements

10. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
11. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this report.

Report on the audit of the annual performance report

Introduction and scope

12. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof I have a responsibility to report material findings on the reported performance information against predetermined objectives for selected programmes presented in the annual performance report. I performed procedures to identify findings but not to gather evidence to express assurance.
13. My procedures address the reported performance information, which must be based on the approved performance planning documents of the department. I have not evaluated the completeness and appropriateness of the performance indicators included in the planning documents. My procedures also did not extend to any disclosures or assertions relating to planned performance strategies and information in respect of future periods that may be included as part of the reported performance information. Accordingly, my findings do not extend to these matters.
14. I evaluated the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the following selected programmes presented in the annual performance report of the department for the year ended 31 March 2017:

Programmes	Pages in the annual performance report
Programme 2 – social welfare services	60 – 67
Programme 3 – children and families	68 – 78
Programme 4 – restorative services	79 – 86

15. I performed procedures to determine whether the reported performance information was properly presented and whether performance was consistent with the approved performance planning documents. I performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.

16. I did not raise any material findings on the usefulness and reliability of the reported performance information for the following programmes:

- Programme 2 – social welfare services
- Programme 3 – children and families
- Programme 4 – restorative services

Other matters

17. I draw attention to the matters below.

Achievement of planned targets

18. Refer to the annual performance report on pages 61 to 66; 69 to 78 and 80 to 86 for information on the achievement of planned targets for the year and explanations provided for the underachievement of a number of targets.

Unaudited supplementary information

19. The supplementary information set out on pages 33 to 54 and 96 to 100 does not form part of the annual performance report and is presented as additional information. I have not audited these schedules and, accordingly, I do not report on them.

Report on audit of compliance with legislation

Introduction and scope

20. In accordance with the PAA and the general notice issued in terms thereof I have a responsibility to report material findings on the compliance of the department with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance. I did not identify any instances of material non-compliance in respect of the compliance criteria for the applicable subject matters.

Other information

21. The Western Cape Department of Social Development's accounting officer is responsible for the other information. The other information comprises the information included in the annual report. The other information does not include the financial statements, the auditor's report and those selected programmes presented in the annual performance report that have been specifically reported in the auditor's report.

22. My opinion on the financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion thereon.

23. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and the selected programmes presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work I have performed on the other information obtained prior to the date of this auditor's report, I conclude that there is a material misstatement of this other information, I am required to report that fact.

Internal control deficiencies

I considered internal control relevant to my audit of the financial statements, reported performance information and compliance with applicable legislation; however, my objective was not to express any form of assurance thereon. I did not identify any significant deficiencies in internal control.

Auditor-General

Cape Town
31 July 2017

AUDITOR - GENERAL
SOUTH AFRICA

Auditing to build public confidence

Annexure – auditor-general’s responsibility for the audit

1. As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements, and the procedures performed on reported performance information for selected programmes and on the department's compliance with respect to the selected subject matters.

Financial statements

2. In addition to my responsibility for the audit of the financial statements as described in the auditor's report, I also:
 - identify and assess the risks of material misstatement of the financial statements whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
 - obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the department's internal control
 - evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the accounting officer
 - conclude on the appropriateness of the accounting officer's use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Western Cape Department of Social Development's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify the opinion on the financial statements. My conclusions are based on the information available to me at the date of the auditor's report. However, future events or conditions may cause a department to cease operating as a going concern
 - evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Communication with those charged with governance

3. I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.
4. I also confirm to the accounting officer that I have complied with relevant ethical requirements regarding independence, and communicate all relationships and other matters that may reasonably be thought to have a bearing on my independence and where applicable, related safeguards.

for the year ended 31 March 2017**

Summary of significant accounting policies

The financial statements have been prepared in accordance with the following policies, which have been applied consistently in all material aspects, unless otherwise indicated. Management has concluded that the financial statements present fairly the department's primary and secondary information.

The historical cost convention has been used, except where otherwise indicated. Management has used assessments and estimates in preparing the annual financial statements. These are based on the best information available at the time of preparation. Where appropriate and meaningful, additional information has been disclosed to enhance the usefulness of the financial statements and to comply with the statutory requirements of the Public Finance Management Act (PFMA), Act 1 of 1999 (as amended by Act 29 of 1999), and the Treasury Regulations issued in terms of the PFMA and the annual Division of Revenue Act.

1. Basis of preparation

The financial statements have been prepared in accordance with the Modified Cash Standard.

2. Going concern

The financial statements have been prepared on a going concern basis.

3. Presentation currency

Amounts have been presented in the currency of the South African Rand (R) which is also the functional currency of the department.

4. Rounding

Unless otherwise stated financial figures have been rounded to the nearest one thousand Rand (R'000).

5. Foreign currency translation

Cash flows arising from foreign currency transactions are translated into South African Rands using the spot exchange rates prevailing at the date of payment/receipt.

6. Comparative information

6.1 Prior period comparative information

Prior period comparative information has been presented in the current year's financial statements. Where necessary figures included in the prior period financial statements have been reclassified to ensure that the format in which the information is presented is consistent with the format of the current year's financial statements.

6.2 Current year comparison with budget

A comparison between the approved, final budget and actual amounts for each programme and economic classification is included in the appropriation statement.

7. Revenue

7.1 Appropriated funds

Appropriated funds comprises of departmental allocations as well as direct charges against the revenue fund (i.e. statutory appropriation).

Appropriated funds are recognised in the statement of financial performance on the date the appropriation becomes effective. Adjustments made in terms of the adjustments budget process are recognised in the statement of financial performance on the date the adjustments become effective.

The net amount of any appropriated funds due to/from the relevant revenue fund at the reporting date is recognised as a payable/receivable in the statement of financial position.

7.2 Departmental revenue

Departmental revenue is recognised in the statement of financial performance when received and is subsequently paid into the relevant revenue fund, unless stated otherwise.

Any amount owing to the relevant revenue fund at the reporting date is recognised as a payable in the statement of financial position.

8. Expenditure

8.1 Compensation of employees

8.1.1 Salaries and wages

Salaries and wages are recognised in the statement of financial performance on the date of payment.

8.1.2 Social contributions

Social contributions made by the department in respect of current employees are recognised in the statement of financial performance on the date of payment.

Social contributions made by the department in respect of ex-employees are classified as transfers to households in the statement of financial performance on the date of payment.

8.2 Other expenditure

Other expenditure (such as goods and services, transfers and subsidies and payments for capital assets) is recognised in the statement of financial performance on the date of payment. The expense is classified as a capital expense if the total consideration paid is more than the capitalisation threshold.

8.3 Accrued expenditure payable

Accrued expenditure payable is recorded in the notes to the financial statements when the goods are received or, in the case of services, when they are rendered to the department or in the case of transfers and subsidies when they are due and payable.

Accrued expenditure payable is measured at cost.

8.4 Leases

8.4.1 Operating leases

Operating lease payments made during the reporting period are recognised as current expenditure in the statement of financial performance on the date of payment.

The operating lease commitments are recorded in the notes to the financial statements.

8.4.2 Finance leases

Finance lease payments made during the reporting period are recognised as capital expenditure in the statement of financial performance on the date of payment.

The finance lease commitments are recorded in the notes to the financial statements and are not apportioned between the capital and interest portions.

Finance lease assets acquired at the end of the lease term are recorded and measured at the lower of:

- Cost, being the fair value of the asset; or
- The sum of the minimum lease payments made, including any payments made to acquire ownership at the end of the lease term, excluding interest.

9. Cash and cash equivalents

Cash and cash equivalents are stated at cost in the statement of financial position.

Bank overdrafts are shown separately on the face of the statement of financial position as a current liability.

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held, other short-term highly liquid investments and bank overdrafts.

10. Prepayments and advances

Prepayments and advances are recognised in the statement of financial position when the department receives or disburses the cash.

Prepayments and advances are initially and subsequently measured at cost.

11. Loans and receivables

Loans and receivables are recognised in the statement of financial position at cost plus accrued interest, where interest is charged, less amounts already settled or written-off. Write-offs are made according to the department's write-off policy.

12. Financial assets

12.1 Financial assets (not covered elsewhere)

A financial asset is recognised initially at its cost plus transaction costs that are directly attributable to the acquisition or issue of the financial asset.

At the reporting date, a department shall measure its financial assets at cost, less amounts already settled or written-off, except for recognised loans and receivables, which are measured at cost plus accrued interest, where interest is charged, less amounts already settled or written-off.

12.2 Impairment of financial assets

Where there is an indication of impairment of a financial asset, an estimation of the reduction in the recorded carrying value, to reflect the best estimate of the amount of the future economic benefits expected to be received from that asset, is recorded in the notes to the financial statements.

13. Payables

Loans and payables are recognised in the statement of financial position at cost.

14. Capital Assets

14.1 Immovable capital assets

Immovable capital assets are initially recorded in the notes to the financial statements at cost. Immovable capital assets acquired through a non-exchange transaction is measured at fair value as at the date of acquisition.

Where the cost of immovable capital assets cannot be determined reliably, the immovable capital assets are measured at R1 unless the fair value of the asset has been reliably estimated, in which case the fair value is used.

All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R1.

Immovable capital assets are subsequently carried at cost and are not subject to depreciation or impairment.

Subsequent expenditure that is of a capital nature is added to the cost of the asset at the end of the capital project unless the immovable asset is recorded by another department in which case the completed project costs are transferred to that department.

14.2 Movable capital assets

Movable capital assets are initially recorded in the notes to the financial statements at cost. Movable capital assets acquired through a non-exchange transaction is measured at fair value as at the date of acquisition.

Where the cost of movable capital assets cannot be determined accurately, the movable capital assets are measured at fair value and where fair value cannot be determined; the movable assets are measured at R1.

All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R1.

Movable capital assets are subsequently carried at cost and are not subject to depreciation or impairment.

Subsequent expenditure that is of a capital nature is added to the cost of the asset at the end of the capital project unless the movable asset is recorded by another department/entity in which case the completed project costs are transferred to that department.

14.3 Intangible assets

Intangible assets are initially recorded in the notes to the financial statements at cost. Intangible assets acquired through a non-exchange transaction are measured at fair value as at the date of acquisition.

Internally generated intangible assets are recorded in the notes to the financial statements when the department commences the development phase of the project.

Where the cost of intangible assets cannot be determined accurately, the intangible capital assets are measured at fair value and where fair value cannot be determined; the intangible assets are measured at R1.

All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R1.

Intangible assets are subsequently carried at cost and are not subject to depreciation or impairment.

Subsequent expenditure that is of a capital nature is added to the cost of the asset at the end of the capital project unless the intangible asset is recorded by another department/entity in which case the completed project costs are transferred to that department.

15. Provisions and Contingents

15.1 Provisions

Provisions are recorded in the notes to the financial statements when there is a present legal or constructive obligation to forfeit economic benefits as a result of events in the past and it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the obligation can be made. The provision is measured as the best estimate of the funds required to settle the present obligation at the reporting date.

15.2 Contingent liabilities

Contingent liabilities are recorded in the notes to the financial statements when there is a possible obligation that arises from past events, and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not within the control of the department or when there is a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation or the amount of the obligation cannot be measured reliably.

15.3 Contingent assets

Contingent assets are recorded in the notes to the financial statements when a possible asset arises from past events, and whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not within the control of the department.

15.4 Commitments

Commitments are recorded at cost in the notes to the financial statements when there is a contractual arrangement or an approval by management in a manner that raises a valid expectation that the department will discharge its responsibilities thereby incurring future expenditure that will result in the outflow of cash.

16. Unauthorised expenditure

Unauthorised expenditure is recognised in the statement of financial position until such time as the expenditure is either:

- Approved by Parliament or the Provincial Legislature with funding and the related funds are received; or
- Approved by Parliament or the Provincial Legislature without funding and is written off against the appropriation in the statement of financial performance; or
- Transferred to receivables for recovery.

Unauthorised expenditure is measured at the amount of the confirmed unauthorised expenditure.

17. Fruitless and wasteful expenditure

Fruitless and wasteful expenditure is recorded in the notes to the financial statements when confirmed. The amount recorded is equal to the total value of the fruitless and or wasteful expenditure incurred.

Fruitless and wasteful expenditure is removed from the notes to the financial statements when it is resolved or transferred to receivables for recovery.

Fruitless and wasteful expenditure receivables are measured at the amount that is expected to be recoverable and are de-recognised when settled or subsequently written-off as irrecoverable.

18. Irregular expenditure

Irregular expenditure is recorded in the notes to the financial statements when confirmed. The amount recorded is equal to the value of the irregular expenditure incurred unless it is impracticable to determine, in which case reasons therefore are provided in the note.

Irregular expenditure is removed from the note when it is either condoned by the relevant authority, transferred to receivables for recovery or not condoned and is not recoverable.

Irregular expenditure receivables are measured at the amount that is expected to be recoverable and are de-recognised when settled or subsequently written-off as irrecoverable.

19. Changes in accounting policies, accounting estimates and errors

Changes in accounting policies that are effected by management have been applied retrospectively in accordance with MCS requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the change in policy. In such instances the department shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable.

Changes in accounting estimates are applied prospectively in accordance with MCS requirements.

Correction of errors is applied retrospectively in the period in which the error has occurred in accordance with MCS requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the error. In such cases the department shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable.

20. Recoverable revenue

Amounts are recognised as recoverable revenue when a payment made in a previous financial year becomes recoverable from a debtor in the current financial year. Amounts are either transferred to the National/Provincial Revenue Fund when recovered or are transferred to the statement of financial performance when written-off.
