

Pre-emptive load shedding schedule for City of Cape Town area of supply for the period 05 May 2008 to 31 May 2008

Please note that maps for the more complex suburbs with parts that are shed at different times may be available on the Capetown Website. If a suburb has a number in square brackets next to it e.g.[1] then a detailed map will be available.

Revision: 20080426

It would be beneficial to get to know the name of the substation supplying your area, which is mostly static, but may at times change due to network rearrangements.
