## Department of Economic Development and Tourism

	2012/13 To be appropriated	2013/14	2014/15
<b>MTEF allocations</b>	<b>R 291 117 000</b>	<b>R 383 542 000</b>	<b>R 403 091 000</b>
Responsible MEC	Provincial Minister of Finance, Economic Development and Tourism		
Administering Department	Department of Economic Development and Tourism		
Accounting Officer	Head of Department, Economic Development and Tourism		

### 1. Overview

#### Core functions and responsibilities

Institutional Strengthening & Good Governance

Enabling Business Environment

Demand led Sector Development

Marketing the Region

Workforce Development

Infrastructure led growth

Economic Intelligence

#### Vision

The Department's vision is a Western Cape that has a vibrant, innovative, and sustainable economy, characterised by growth, employment and increasing equity, and built on the full potential of all.

#### Mission

Provide leadership to the Western Cape economy through the Department's understanding of the economy, its ability to identify economic opportunities and potential, and its contribution to government economic priorities.

Act as a catalyst for the transformation of the economy and respond to the challenges and opportunities of the economic citizens, in order to support the government's goal of creation of opportunities for businesses and citizens to grow the economy and employment.

Contribute to the provision of a predictable, competitive, equitable and responsible environment for investment, enterprise and trade.

## **Strategic Goal**

Creation of opportunities for businesses and citizens to grow the economy and employment.

The necessary conditions to achieve this have been translated into five objective statements:

Objective 1: To develop and implement the economic strategic plan and policies in support of achieving opportunities for jobs and growth.

Objective 2: To create an enabling environment (minimal hurdles, sustainable business growth, investment and job creation) through improvement in the regional business confidence index and growth in the employment rate.

Objective 3: To facilitate demand led, private sector-driven government support for growth sectors, industries and business by increasing the value of exports.

Objective 4: To improve the competitiveness of the region through infrastructure-led economic growth.

Objective 5: To facilitate through EPWP 204 770 "100-day work opportunities" and 111 859 "full-time equivalents" between 2009 and 2014.

The five objectives will be measured as follows:

Approved economic strategic plan

Per cent increase in business confidence index

Per cent growth in employment

Per cent increase in value of exports

Value of infrastructure investment

Number of work opportunities facilitated

Number of full time equivalent work opportunities facilitated

## **Main services**

Provide evidence based research that will inform economic policy development.

Support enterprise promotion through the provision of mentorship, training and financial support.

Promote Local Economic Development through initiatives such as capacity building within municipalities and the support of large scale projects within communities.

To develop and implement sector strategies ensuring the growth of the Western Cape economy.

To develop and intensify support for training interventions which address specific skills shortage within identified sectors.

To attract and facilitate international and domestic direct investment into the Western Cape and to grow the exports of products and services of the Western Cape through the development of exporter capability, demand and market access.

To enhance the operations of the Consumer Tribunal thereby enhancing access to redress, both outside and inside of the judicial structures and strengthening the Office of the Consumer Protector's position as the first and preferred reference point for consumers seeking information or access to redress, whether they are residents of or visitors to the province.

The regulation of the Liquor Industry as well as to drive initiatives that would contribute towards the creation of a culture that promotes responsible liquor consumption.

To market the Western Cape as a world-class business and tourist destination.

### **Demands and changes in service**

The Eurozone crisis is likely to have a more pronounced impact on the Western Cape economy as trade statistics show a greater reliance by the Western Cape on demand from European countries for exports than that of the rest of the country.

GDP growth in the Western Cape has traditionally outperformed that of the rest of the country, primarily due to robust growth in the services sector which represents a bigger portion of the Western Cape economic activity than in the case for the rest of South Africa. However, because the mining sector recovery played a significant role in driving national economic growth, this time, the regional economy is unlikely to outperform the national economy.

This, amongst others, together with the fact that the unemployment rate in the Western Cape weakened from 21.8 per cent to 23.3 per cent necessitated the Department to undertake a reflective stance in evaluating what it needs in order to create a vibrant growing economy that will increase job creation opportunities for all citizens of the Western Cape.

In doing so, the Department needs to re-focus its strategy in order to shift the current trajectory of the national and provincial economy. This will be done by upscaling our service offerings in enterprise development, red tape reduction, skills development and by investing in sectors displaying high growth and employment creation potential.

### **Acts, rules and regulations**

There are a vast number of acts that play a role in the Department's work ambit, the more important acts and policies are mentioned:

Public Finance Management Act, 1999 (Act 1 of 1999 as amended by Act 29 of 1999)

The Micro-economic Development Strategy (MEDS)

Businesses Act, 1991 (Act 71 of 1991)

Broad-Based Black Economic Empowerment Act, 2003 (Act 53 of 2003)

Preferential Procurement Policy Framework Act of 2000

Small Business Amendment Bill, 2004

Municipal Systems Act, 2000 (Act 32 of 2000)

The Local Government Structures Act 117 of 1998

National Credit Act, 2005 (Act 34 of 2005)

Co-operatives Act of 2005

The BEE: Codes of Good Practice

Western Cape Investment and Trade Promotion Agency Amendment Act (Act 1 of 2005)

Western Cape Investment and Trade Promotion Agency Law, 1996 (Act 3 of 1996)

Liquor Act, 2003 (Act 59 of 2003)

Western Cape Liquor Act, 2008 (Act 4 of 2008)

National Tourism Second Amendment Act, 2000, (Act No. 70 of 2000)

National Tourism Sector Charter as a Sector Code on black economic empowerment in terms of Section 9(1) of the BBEE Act (Act No 53 of 2003), gazetted May 2009

Provincial Western Cape Tourism Act, 2004, (Act No. 1 of 2004)

The National Integrated Manufacturing Strategy (NIMS)

The Advanced Manufacturing and Technological Strategy (AMTS)

The Western Cape Liquor Policy, 2005 (Department of Economic Development and Tourism, Western Cape Government)

ASGISA (Accelerated Shared Growth Initiative-South Africa)

National White Paper on the Development and Promotion of Tourism in South Africa, 1996

Provincial White Paper on Sustainable Tourism Development and Promotion, 2001

The Western Cape's Tourism Development Plan

The Western Cape Tourism Development Framework

## **Budget decisions**

With the adoption of SO1 and subsequent strategy development, much impetus has been given to the need for the Department to refocus and prioritise its resource use. The ever changing economic landscape has necessitated substantial introspection within the Department to ensure and drive the efficiency and effectiveness of services to clients that produce substantial impact.

Lessons learned from the global economic downturn experienced in 2009 and 2010 have shown that the effective, efficient and economical use of resources is of ever greater importance. It has also burst the bubble on the notion that Government resources are limitless. Thus, it has become ever more important that Government, and more specifically this Department, refocuses its resources to ensure that a greater depth and focus of intervention is achieved.

To this effect, the allocation received via the Provincial Treasury, as part of our equitable share, has plateaued and as such it is imperative that the Department finds ways of doing more with less.

## **Aligning departmental budgets to achieve government's prescribed outcomes**

The need to do more with less while still impacting on the economy has become ever more apparent during this past period of economic instability. More so, the Department was required to change its orientation to be more responsive to the ever changing economic climate. Thus, it has become increasingly

important that Government, and more specifically this Department, refocus resources to ensure that a greater depth and focus of intervention is achieved

Based on the aforementioned, the Departments' strategy will be built on three strategic directives, namely:

### **Sector-based strategic implementation**

The Department will adopt a strong sectoral-based focus in terms of its economic development initiatives as highlighted in SO 1. In order to achieve this approach, the Department embarked on a review process of its sector choices by interrogating the work of the MEDS and reviewing the Industrial Policy Action Plan (IPAP) as approved by National Government.

To this extent the Department has skewed the resource envelope to ensure that R69.939 million or 25.9 per cent of resources to cater for the need to invest in the strategic propulsive and employment generating sectors. The prioritised sectors are Oil and Gas Marine complex, Tourism, ICT, Business Processing and Outsourcing (BPO), Green Technologies, Clothing and textiles, Craft, film, Agro-processing, and Aquaculture.

It should also be noted that a number of sectors will also be in their final year of financial support. These are Furniture, boatbuilding and tooling.

### **Creating an enabling environment for business**

The enabling environment initiatives will comprise all relevant economic, political, social regulatory and international factors external to firms in the Western Cape. The accent of this strategy is to review all government policies and practices which "set the rules of the game" for business in the Province and which influences the performance of the market, incentives to invest and the cost of business operations.

In this regard, the Department has created a new sub-programme to tackle the Red Tape challenges faced by business. This unit will specifically investigate issues that raise the cost of doing business within the Province by lobbying and networking with other government agencies, departments and spheres. To this end, an amount of R2 million was allocated for red tape reduction interventions.

A further shift in the strategy of the Department is that a major focus will be placed on the improvement in the business competitiveness of firms. Here the Department will provide assistance to the economy through our LED strategy that will look at ways of improving the competitiveness of our regional economies through the provision of assistance programmes to municipalities and the furtherance of the LED growth fund aimed at supporting innovative economic development projects that seeks to crowd in private sector investment and thereby support key business linkages. In this regard, R14.9 million has been allocated to businesses competitiveness projects, R2.5 million to enterprise promotion, and R5.050 million to Regional and local economic development including R4 million for the growth fund and R1.050 million for the LED centre of excellence (support for municipalities in improving their IDP processes).

Lastly, the Department has made a significant investment into the improvement of the economic infrastructure of the Province with an allocation of R12 million for the supporting and improving the Telecommunications Strategy as well as allocating R5 million for the Saldanha Industrial Development Zone (IDZ) project. Other projects that will be supported in line with the need to improve the economic infrastructure of the Province will be the East City Design Precinct, Port of Cape Town Precinct, Health Technology Hub and the expansion of the Cape Town International Convention Centre (CTICC).

### **Investment into Skills development**

With the gap between the demand and supply of skills amongst the workforce of the Province growing ever wider, the Provincial Government needs to urgently intervene. In this regard, the Department together with other key Provincial Departments such as the Department of the Premier and the Department of Education and other stakeholders will be implementing the Provincial Skills Development Strategy.

Key facets of this strategy will be to meaningfully intervene through projects and programmes aimed at supporting employment amongst the youth such as the work and skills programme as well as projects aimed at bridging the widening gap between the supply and demand of skills with programmes such as Artisan training.

The work and skills programme will be expanded in the 2012/13 financial year from R6.2 million in 2011/12 to R9 million in 2012/13. Furthermore, the Department initiated an Artisan training programme estimated at R10.980 million.

## **2. Review 2011/12**

While the Department has registered progress in terms of its stated outputs, performance has exhibited mixed results with numerous delays resulting from uncertainty with regard to the EDP process and strategy development.

### **Enterprise Development**

The year saw a fundamental change in the approach of the sub-programme: Enterprise Development to entrepreneurship and SMME development. With the rationalisation of the Red Door project, partnerships were formed with SEDA, The Business Place and West Coast Business Development Centre. SEDA's commitment to maintain seven quasi centres of support meant that SMMEs in areas such as Khayelitsha, Mitchells Plain and Paarl were able to access the services and products from both the Red Door and SEDA. Very encouraging is the go ahead given by the DTI for SEDA to continue with this partnership during the 2012/13 financial year. Furthermore, significant collaboration was secured with both formal and informal business chambers and associations. These included Western Cape Black Business Chamber, NAFCOOC, AHI and the Cape Chamber of Commerce.

Success was achieved in the key focus areas of interventions of the Legacy Mentorship programme, the Enterprise Development Fund and the Business Association Network. All these programmes were overwhelmed with requests for assistance and subsequently all targets set for these programmes were achieved. Not only were these achieved, but the interventions had meaningful impact on these businesses.

In terms of the sector-based enterprise development support substantial achievements were attained in the ICT and tourism sectors. In ICT, the partnership with The Bandwidth Barn, arguably the most successful technology-based incubator in Africa, the Department secured another set of successful incubation-mentorship interventions which saw eleven fledgling ICT SMMEs complete the rigorous programme in preparation to becoming service providers in their own right and or subcontracting to major contractors. The participation of two hundred and forty nine SMMEs in the Tourism Enterprise Development programme, comprising business skills training and mentorship, have put them in a solid position to deal with challenges and opportunities facing the sector.

The drive to utilise provincial procurement means of developing and growing fledgling and existing businesses was propelled through the total revamp of the Provincial Tender Site and an extensive programme to create awareness of the new preferential procurement regulations that came into effect 7 December 2011. Feedback from SMMEs accessing the new site had been overwhelmingly positive. The awareness programme for the new regulations comprised road shows that covered eight areas and aimed at both suppliers and government officials. As part of this awareness campaign, 200 exempted micro enterprises and 10 qualifying small enterprises, were assisted with becoming BBEEE compliant.

The LED Growth Fund gained significant momentum with the quality of applications improving substantially. A total of five businesses were assisted with interventions that led to improved productivity and or increased turnover.

### **Establishment of the Economic Development Partnership (EDP)**

On 6 December 2011, Cabinet provided in-principle approval for the WCG to draft and process provincial legislation which will provide for the legislative context and statutory framework within which the EDP will operate. This will include consideration and finalisation of:

- Clearly defined mandate, responsibility and objectives of the EDP

- Role delineation of key stakeholders (public and private sector), including board membership, reporting lines and obligations as deemed necessary

- WCG shareholding and membership, with Municipalities partnering the EDP through Memoranda of Understanding and Section 73 of the Municipal Systems Act.

- Funding requirements, including provincial public sector funding mechanisms which adhere to the Public Finance Management Act as well as private sector funding.

The strategic objectives of the EDP have been refined as follows:

- Provisioning of economic and market intelligence and monitoring to ensure evidence led strategy and planning

- Developing and co-ordinating an economic vision and strategy through building leadership and a common strategic agenda

- Securing business attraction, retention and expansion through building an improved business and investment climate

- Creating a single brand platform through a regional marketing alliance

- Organising the economic system for optimum delivery through performance monitoring and ongoing co-ordination of economic reform.

### **Red Tape to Red Carpet**

The Red Tape to Red Carpet programme commenced midway through the financial year with the establishment and operationalization of the Call Centre. The objective of the call centre was two-fold – firstly, a conduit for channelling issues (red tape and other blockages) to the relevant departments and organisations, and secondly, the identification of trends and patterns of issues that require comprehensive attention. Issues that were identified as being in the top ten raised by callers included, EIAs, rezoning, business registration and licencing, access to financial and non-financial support and tenders. The average resolution rate had been well over 70 per cent with the balance being referred to more in-depth

investigation and longer term resolution. The call centre dealt with an average of 100 bona fide red tape-related issues per month.

In highlighting the issues that impede on the creation of an enabling environment for business, two valuable pieces of research were completed. Firstly, "Red tape Reduction in the Procurement Process: The Case of the Western Cape, and secondly, "Red Tape: A Study of the Cost of Doing Business in the Western Cape". Both studies yielded valuable information that informed the review of the provincial procurement process and the more in-depth consideration of the issues identified as increasing the cost of doing business. The following position papers were also completed and tabled for consideration by EISSC: (1) property development, (2) Transportation of wind turbines, (3) immigration processing as a blockage to investment and (4) constraints impacting on the fine foods industry.

The establishment of the Red Tape Reduction Work Group comprising representatives from all the provincial economic cluster departments, the City of Cape Town and Business Western Cape has meant, (1) red tape-related issues were properly channelled to the relevant departments for rapid resolution, (2) that each of these departments or organisations identified champions for red tape reduction within their respective departments. Based on an approved and adopted terms of reference the group's main function has been to identify red tape-related issues and blockages emanating from specific departments/organisations, and ensure that identified red tape-related issues are taken up within the specific departments/organisations.

### **Skills and the establishment of the Provincial Skills Development Forum**

The Provincial Skills Development Forum has gained momentum with short, medium and long term interventions underway to tackle key challenges highlighted by the Technical Working Group.

Six working groups have been established this year, with scoping and implementing skills projects occurring at various stages. The Working Groups include: Artisan Development, Work placement opportunities, Research and Careers Awareness

WCG Working Group had the following key project: Premier's Advancement of Youth (PAY) Project

The Workforce Development Sub – program has focussed on strengthening skills interventions with regards to:

- Access to relevant skills information and data

- Better mapping of skills provision

- Building strong relationships with employers

- SETA's participation in finance and or access to host companies towards achieving outcomes

The Work and Skills project was developed with the objective of giving unemployed youth the opportunity to gain skills and work experience in order to boost and improve their chances of full-time employment. Successes included:

- 240 learners currently employed and trained.

- Support from local stakeholders ensured that learners recruited from the relatively rural FET Colleges, i.e. South Cape, Boland, West Coast, received basic and advanced skills training and placed with employers within these areas.

- The South African Oil and Gas Alliance hosted learners with technical interests in areas such as boiler making, welding and fitting.

In partnership with our Tourism unit the project was able to recruit learners from the FETs and Higher Education Institutions and place them with host employers within the hospitality industry.

Generally, the shortage of artisans is becoming a restrictive hurdle for economic growth in South Africa. The Train the Trainer program for Artisans successfully complete 20 trained individuals from private sector and FET Colleges with the aim of ensuring quality curricula and training that matches the standards required from industry to ensure relevant training to increase competitiveness.

## **Infrastructure**

The Department has made significant strides in the infrastructure component of the Departments' mandate. The flagship projects identified by the department are:

Telecoms infrastructure

Saldanha IDZ project

East City Design project

Pilot harbour project

Air access project

The fringe project

While all the projects are at various stages of development significant progress has been made in terms the development of prefeasibility and feasibility studies and or business case development.

These projects have been identified as they offer great prospects in the creation of an enabling environment for business and or specific industries to develop and maintain competitiveness and shift the trajectory of the Provincial economy.

In terms of the Future cape project, the aim is to develop a shared economic vision and brand for the Western Cape through sound forecasting and relevant stakeholders.

## **3. Outlook for 2012/13**

In developing our priorities, the Department will give effect to the National outcomes and SO 1 by orientating the Department as an investment in building the base of clients, jobs, taxes, firms, and economic infrastructure for the economy rather than an expenditure on a public service. This will be achieved through fulfilling its public and private leadership function which will draw on all spheres of Government, business and institutional leaders with clear links to the micro-economic policies and frameworks. The Department will also enhance its intelligence and evidence systems that will provide a continuous observatory of economic activity, trends, conditions and performance leading to regular assessments of intervention performance. Furthermore, the Department will embark on a visioning and agenda setting process that will lead to both long term thinking and common agendas and shared plans between all economic parties and stakeholders. The translation of the intelligence and visions into strategies, action plans and tactics will be operationalised into coherent and consistent planning frameworks for the Province.

Based on the aforementioned, the Departments' strategy will built on five strategic directives, namely:

### ***Fulfilling the role of Economic Leader within the Province***

To overcome the problems mentioned above and taking the "good practice" approach into consideration it is important to undertake certain interventions to enhance the quality of the economic thinking and

leadership in the Province, improve the impact of interventions, and leadership to ensure better co-ordination.

The Department will need to position itself as the leader of economic development matters within the Province. In previous years, the role of the Department was one of an active player. This fundamental shift from active player to leader is based primarily on best practice experience faced in the global environment.

The Department will therefore focus primarily on fulfilling the following roles in the Provincial economy:

- Fostering coalitions for growth initiatives;

- Co-ordination/leadership of local, regional, national and international investors/donors;

- Monitoring the city/metropolitan economy and business/investment climate;

- Strategic planning for economic and territorial development; and

- Infrastructure and investment/business climate advocacy.

### **Sector-based strategic implementation**

As alluded to previously, the Department will adopt a strong sectoral-based focus in terms of its economic development initiatives as highlighted in SO 1. This review was conducted by centering on those sectors which act as the greatest drivers of economic growth i.e. that contribute to the provincial economy through exportable products or services and or squeeze out imports. This is a marked shift from the derived sectors that are by nature limited in market potential and are dependent on the expansion of other tradable sectors and other factors such as government spend to support its growth.

The sector based implementation for 2012/13 includes:

- Developing and growing industries through supporting 7 clusters within the Province and phasing out support to 3 clusters;

- Utilising international linkages for greater market access;

- Improving growth and markets through identification of opportunities within the targeted sectors and deepening the value proposition of industries;

- Driving collaboration amongst the clusters towards achieving greater synergies and share best practice through the Cluster Forum and joint initiatives;

- Promoting collaboration with national and international stakeholders such as UNIDO;

- Driving awareness of clustering and the benefits of value chain collaboration across the region and nationally;

- Leveraging R30 million from stakeholders through the departmental support to the clusters;

- Assisting sector intelligence and knowledge sharing in the production of economic sector indicator reports, and

- Developing a model of selection and sustainability for cluster support, including exit strategies.

### **Creating an enabling environment for business**

The ideal enabling environment is one that minimizes the hurdles to sustainable business development, profitability, investment and job creation. To this extent the Department will invest heavily in Red Tape reduction strategies and interventions with the ultimate aim of improving the ease at which business can be conducted within the Province.

Other examples of issues that will be addressed under this directive is the advocacy of the green economy for the benefit of all future citizens and the role the Red Tape unit will play in the reduction of barriers to business sustainability and growth.

Further strategic interventions that will be undertaken will be directed at improving the competitiveness of firms as well as creating entrepreneurial awareness amongst aspiring entrepreneurs.

In attempting to substantially increase business competitiveness as well as elevating entrepreneurial intentions to actual establishment of businesses or expansion of existing businesses, the following will be embarked upon in the 2012/13 period:

- Partner with the National Empowerment Fund (NEF) to create a regional enterprise development fund

- The partnering with the City of Cape Town in raising the profile and reach of the Cape Town Entrepreneurship week.

- The recognition of successful entrepreneurs through public recognition and competitions

- A mentorship programme that will provide mentorship and coaching support that would ultimately increase business competitiveness.

### **Investment into Skills development**

Skills and Innovation focus needs to shift from a mainly supply focus to a more demand focus. Local stakeholders now realise that it is no longer enough just to invest in the formal education and training system and that the public private partnerships are key to developing solutions towards the development and growth of a knowledge economy.

Disparity with regard to the demand and supply of skills amongst the workforce of the Province is growing even wider and as a result the Provincial Government needs to intervene urgently.

The key strategic interventions that will be implemented in the 2012/13 period are:

- Creating a pool of skilled workers in identified artisanal fields that are essential to the development and growth of the economy.

- Facilitating and supporting unemployed youth to access jobs through the Work and Skills Programme.

In addition to the above, another key challenge within the skills development landscape, which has also been highlighted in the National Skills Development Strategy (NSDS III), will be a vital focus area of the department during the 2012/13 financial year. The intervention will be centered on developing a provincial mechanism for the management of skills information and data which would enable the delivery of quality skills development initiatives as well as enhancing decision making abilities.

### **Infrastructure**

While there is an array of government departments which are dedicated to provision of infrastructure – housing, roads, government buildings etc., the primary objective of this Department is on industrial infrastructure which will radically shift the growth trajectory of targeted sectors and significantly improve job creation. This will be delivered through the Cape Catalyst initiative and implementation for 2012/13 includes:

- Building capacity of the Cape Catalyst Unit;

- Improving the responsiveness of the Unit to emerging opportunities through broadening the number of infrastructure projects to be explored and investigated;

- Initiating the Western Cape Telecommunications Infrastructure Framework and Implementation Plan

Finalising and initiating the Implementation Plan of the Saldanha IDZ;

Initiating two projects within the Fringe, the East City Design Precinct;

Supporting the development of the Cape Health Technology Hub;

Co-ordinating stakeholders, including local and national players;

Developing an infrastructure-led economic plan for Hout Bay Harbour and surrounds through collaboration with MCM, National Department of Public Works, City of Cape Town and other stakeholders; and

Supporting, together with the City of Cape Town, the expansion of the Cape Town International Convention Centre to expand the region's tourism market.

## 4. Receipts and financing

Table 4.1 hereunder gives the sources of funding for the vote.

**Table 4.1 Summary of receipts**

Receipts R'000	Outcome			Main appropriation 2011/12	Adjusted appropriation 2011/12	Revised estimate 2011/12	Medium-term estimate			
	Audited 2008/09	Audited 2009/10	Audited 2010/11				% Change from Revised estimate		2012/13	2013/14
<b>Treasury funding</b>										
Equitable share	210 013	251 296	228 480	249 080	249 030	247 327	<b>282 683</b>	14.30	378 208	397 757
Financing	13 964						<b>3 100</b>			
Asset Finance Reserve	2 600

<b>Total Treasury funding</b>	<b>223 977</b>	<b>251 296</b>	<b>228 480</b>	<b>249 080</b>	<b>249 030</b>	<b>247 327</b>	<b>285 783</b>	15.55	378 208	397 757
<b>Departmental receipts</b>										
Tax receipts	4 844	5 505	6 427	5 064	5 064	5 583	<b>5 064</b>	(9.30)	5 064	5 064
Sales of goods and services other than capital assets	397	358	494	270	270	304	<b>270</b>	(11.18)	270	270
Interest, dividends and rent on land	11	11	1							
Financial transactions in assets and liabilities	692	6 047	349		2 706	3 856		(100.00)		
<b>Total departmental receipts</b>	<b>5 944</b>	<b>11 921</b>	<b>7 271</b>	<b>5 334</b>	<b>8 040</b>	<b>9 743</b>	<b>5 334</b>	(45.25)	5 334	5 334
<b>Total receipts</b>	<b>229 921</b>	<b>263 217</b>	<b>235 751</b>	<b>254 414</b>	<b>257 070</b>	<b>257 070</b>	<b>291 117</b>	13.24	383 542	403 091

### Summary of receipts:

Total receipts increase by R34.047 million or 13.24 per cent from R257.070 million (revised estimate) in 2011/12 to R291.117 million in 2012/13.

### Treasury funding:

Equitable share funding increases by R35.356 million or 14.30 per cent from R247.327 million in the 2011/12 Adjusted Estimates to R282.683 million in 2012/13.

### **Departmental receipts:**

Included in the Department's total receipts of R291.117 million in 2012/13 is the projected departmental receipt of R5.334 million.

Total departmental receipts decreases from the 2011/12 revised estimate of R9.743 million to R5.334 million in 2012/13 financial year. The difference in total departmental receipts when comparing the 2011/12 revised estimate to the 2011/12 main appropriation can be attributed to Wesgro's accumulated surplus revenue reverting back to the Department in 2011/12.

An apportionment of the total departmental receipts, includes tax receipts from liquor license taxes that are projected at R5.064 million for 2012/13. This revenue figure is based on the total number of new applications anticipated and liquor license renewals for 2012/13.

Estimates for Sales of goods and services other than capital assets in respect of the registration of Tourist Guides remains constant at R270 000 for 2012/13.

### **Donor funding (excluded from vote appropriation) - None**

## **5. Payment summary**

### **Key assumptions**

The provision for growth in personnel expenditure will be calculated by providing for salary adjustments (ICS) and pay progression plus 0.5 per cent. The budgeted increase for Compensation of Employees (including improvement in conditions of service and excluding pay progression) is 5.8 per cent in April 2012, 6 per cent in April 2013 and 5.5 per cent in April 2014.

In budgeting for Goods and Services, provision will be made for all inflation related cost increases with the following CPI assumptions for increases in general Goods and Services for the 2012 MTEF period; namely 5.3 per cent for 2012/13, 5.5 per cent in 2013/14 and 5 per cent in 2014/15.

### **National priorities**

The national priorities have been incorporated into the provincial priorities.

### **Provincial priorities**

Strategic Objective 1: Creating opportunities for growth and jobs.

Strategic Objective 11: Creating opportunities for development and growth in rural areas.

## Programme summary

Table 5.1 below shows the budget or estimated expenditure per programme and Table 5.2 per economic classification (in summary).

**Table 5.1 Summary of payments and estimates**

Programme R'000	Outcome			Main appro- piation 2011/12	Adjusted appro- piation 2011/12	Revised estimate 2011/12	Medium-term estimate			
	Audited 2008/09	Audited 2009/10	Audited 2010/11				% Change from Revised estimate

# **6. Programme Description**

## **Programme 1: Administration**

**Purpose:** To provide strong, innovative leadership, strategic management in accordance with legislation, regulations and policies to ensure a clean, efficient, cost effective, transparent and responsive corporate services to the Department.

### **Analysis per sub-programme**

#### **Sub-programme 1.1: Office of the Head of Department**

to manage and direct the departmental transversal administrative programmes that give leadership to the department

to effectively maintain an oversight function of the whole department's mandate and function

#### **Sub-programme 1.2: Financial Management**

to provide an effective financial management function

to ensure implementation of the PFMA and other related financial regulations and policies

to provide planning and budgeting support to the Department

to make limited provision for maintenance and accommodation needs

#### **Sub-programme 1.3: Corporate Services**

to provide a strategic support function to the department

### **Policy developments**

The key points emerging from this Programme include:

Increasing capacity to best meet the demands of the reprioritised Department and its structures;

Increased focus on delivery and performance of the Department; and

The provision of a coherent and integrated management, administrative and support function to the department.

### **Changes: Policy structures, service establishments, etc.**

The Programme structure and service establishment remained static from the previous financial year.

## Expenditure trends analysis

The Programme's estimate expenditure has increased by 34.95 per cent or R7.183 million in the 2012/13 financial year from the 2011/12 revised estimates. This increase can be attributed to inflationary increases with regard to Compensation of Employees as well as the fact that audit fees for the Department has been centralised in Programme 1: Administration. Furthermore, the Office of the HoD realises an increase due to the realignment to Provincial Strategic Objective 1 and Corporate Services reflects the operationalisation of the Relations Management Unit that manages the relationship between the Department and the Human Resource Management functions managed by the Department of the Premier.

## Strategic goal as per Strategic Plan

### Programme 1: Administration

Creation of Opportunities for Businesses and Citizens to grow the Economy and Employment.

## Strategic objectives as per Annual Performance Plan

Maintain level 3 and attainment of a level 4 Financial Management Capability.

To ensure horizontal and vertical alignment of the Departmental Communication Strategy to adequately inform and empower the people of the Western Cape by providing access and connectivity of Departmental activities.

**Programme 2: Integrated Economic Development Services**

**Purpose:** To promote and support economic development through shared partnerships

**Analysis per sub-programme****Sub-programme 2.1: Enterprise Development**

to support and promote development of business enterprises

**Sub-programme 2.2: Regional and Local Economic Development**

to promote economic growth and development of regional and local economies in partnership with key stakeholders by aligning LED initiatives with Government

### **Sub-programme 2.3: Economic Empowerment**

to facilitate the process of empowerment and creation of an enabling business environment for PDIs

### **Sub-programme 2.4: Red Tape**

to reduce the identified regulatory requirements flowing from regulations legislation and interpretive policies

### **Sub-programme 2.5: Management: Integrated Economic Development Services**

to conduct the overall management and administrative support to the Programme

## **Policy developments**

More jobs are more likely to be immediately created by existing businesses than through the establishment of new businesses. For that reason, business retention and growth is essential to an economic growth strategy. This function will include:

The continued sponsorship of an Enterprise Development Fund which would support innovative businesses in need of some form of public support such as training, infrastructure, standards, a change in legislation, etc., in order to bring new products to market or take existent products into new markets.

The Western Cape Government has adopted the reduction of Red Tape as a critical component in realising our objective. Likewise, red tape reduction features prominently in national governments New Growth Plan. In addition, the WCG through the Department of Economic Development and Tourism will increase its focus on facilitating and supporting – but not dominating – a network of interactions with the private sector. Provincial Government will continue to engage with businesses through the private sector's representative institutions. It will also create new platforms to facilitate regular semi-structured engagement between government, business and other relevant sectors such as higher education, at all levels.

Provincial Government engagement with local economic development (LED) processes will be consistent with the principles of the provincial growth strategy: (a) the creation and protection of an enabling environment for business and (b) demand-led, private-sector driven government support for growth sectors, industries and businesses. This means that LED should be demand-led and private sector-driven.

## **Changes: Policy structures, service establishments, etc.**

A new sub programme, namely, Red Tape, has been established to identify and reduce the regulatory barriers flowing from regulations, legislation and interpretive policies.

## **Expenditure trends analysis**

The budgeted allocation for the programme has decreased from R51.266 million in 2011/12 revised estimate to R45.228 million in 2012/13 main estimate a decrease of R6.038 million or 11.78 per cent. The main contributor to this is the fact that sector specific enterprise development initiatives have been reallocated to their respective Programmes for the 2012/13 financial year and 2012 MTEF.

**Strategic goal as per Strategic Plan****Programme 2: Integrated Economic Development Services**

Creation of Opportunities for Businesses and Citizens to grow the Economy and Employment.

**Strategic objectives as per Annual Performance Plan**

To create an enabling environment that minimises the hurdles to sustainable business growth, investment and job creation

Improving regional and local coordination through strategic LED support to local economic role players

To create an enabling business environment for sustainable economic empowerment through promotion of procurement opportunities to local businesses.

To create and maintain an enabling regulatory environment through the reduction of Red Tape and other unnecessary burdensome bureaucratic processes and procedures.

## **Programme 3: Trade and Sector Development**

**Purpose:** To stimulate economic growth through industry development, trade and investment promotion

### **Analysis per sub-programme**

#### **Sub-programme 3.1: Trade and Investment Promotion**

to facilitate trade, export promotion and attract investment

#### **Sub-programme 3.2: Sector Development**

to implement strategies for the positioning of the industrial sector as a key contributor to economic growth and development

#### **Sub-programme 3.3: Strategic initiatives**

to facilitate the implementation of strategic programmes that will stimulate the competitiveness of priority sectors

#### **Sub-programme 3.4: Management: Trade and Sector Development**

to conduct the overall management and administrative support to the Programme

### **Policy developments**

The National Industrial Policy Framework (NIPF) provides the current national direction within the broader parameters of the country's economic and industrial path, setting out the dti's approach to South Africa's industrialisation trajectory. The NIPF seeks to facilitate diversification and intensification of the country's economy, with a particular emphasis on employment creation, as well as broader participation and contribution towards the African regional economies. The operationalisation of the NIPF was articulated through the 2007 Industrial Policy Action Plan, and subsequently refined through the Industrial Policy Action Plan II which was launched in 2010. The key thrusts outlined within the National Industrial Framework have varying degrees of direct relevance to the Province and the Department. All the themes within the IPAP II (with the exception of one) have direct applicability to Programme 3, namely leveraging procurement (as it is linked to localising manufacturing capability), developmental trade policies (as it is linked to sector specific enabling environments), and sector strategies; skills and education for industrialisation; industrial upgrading; innovation and technology; spatial and industrial infrastructure; and co-ordination, capacity and organisation.

On a provincial level, the key objectives, principles and approach to Economic Development of the Western Cape Government are encapsulated within *Strategic Objective One: Creating Opportunities for growth and Jobs*. The twin thrusts of Strategic Objective One (SO1) are (a) The creation and maintenance of an enabling environment for business, and (b) Demand-led, private-sector driven government support for growth sectors, industries and businesses. The approach and a significant number of the Growth Action Plans contained within Strategic Objective One are captured and will be implemented and/or supported by Programme 3's core responsibilities. This includes:

**The Micro-Economic Development Strategy and Sector Support**, which underpins the sector strategies and cluster approach within Programme 3. The Sector Strategies provide the bottom-up, demand-driven approach with respect to SO1's emphasis on red tape reduction, skills development and enterprise development.

**Future Cape**, wherein Programme 3 will provide secretariat and resource support.

**Infrastructure and asset development**, which will include Cape Catalyst economic-led infrastructure projects.

The establishment of the Economic Development Partnership will have a major impact on the institutions that fall within the ambit of the Programme, and particularly Wesgro and the SPV's. It is at this stage unsure as to how the new institutional arrangements are to be structured.

### Changes: Policy structures, service establishments, etc.

The Programme structure and service establishment remained static from the previous financial year.

### Expenditure trends analysis

The allocated budget for the Programme increased from R70.223 million in the 2011/12 revised estimate to R95.658 million in 2012/13 financial year. This represents an increase of 36.22 per cent or R25.435 million. The primary reason for this increase in Trade and Sector Development's allocation is the increased focus on sector prioritisation housed within the Sector Development sub programme and an increased allocation towards catalytic infrastructure projects, within the Strategic Initiatives sub programme. Furthermore, the 2012/13 financial year reflects an increased allocation within Sub-programme 3.1: Trade and Investment promotion for the purpose of supporting Wesgro.

### Strategic goal as per Strategic Plan

#### Programme 3: Trade and Sector Development

Creation of Opportunities for Businesses and Citizens to grow the Economy and Employment.

### Strategic objectives as per Annual Performance Plan

The stimulation, facilitation and increase of economic growth and opportunities through export and investment promotion and a strong economic regional brand.

To support and develop economic sectors as a key contributor towards the achievement of maximising economic opportunities, sustainability and growth.

Grow and develop the provincial economy and facilitate economic opportunities through development of strategically competitive and/or infrastructural initiatives, and develop an economic brand for the province.

**Earmarked Allocations**

Included in Sub-programme 3.1: Trade and Investment promotion is an earmarked allocation amounting to R18 500 000 (2012/13), R18 864 000 (2013/14) and R19 235 000 (2014/15) for the purpose of supporting Wesgro.

Included in Sub-programme 3.3: Strategic Initiatives is an earmarked allocation amounting to R10 000 000 (2012/13), R10 560 000 (2013/14), R11 130 000 (2014/15) for the purpose of supporting the Telecommunication Strategy.

Included in Sub-programme 3.3: Strategic Initiatives is an earmarked allocation amounting to R5 000 000 (2012/13), R5 280 000 (2013/14) and R5 565 000 (2014/15) for the purpose of supporting the IDZ Establishment.

Included in Sub-programme 3.3: Strategic Initiatives is an earmarked allocation amounting to R80 000 000 (2013/14) and R81 790 000 (2014/15) for the purpose of supporting the expansion of the Cape Town International Convention Centre (CTICC).

**Programme 4: Business Regulation and Governance**

**Purpose:** To ensure an equitable, socially responsible business environment that allows for predictability.

**Analysis per sub-programme****Sub-programme 4.1: Regulation Services**

to lobby against and address barriers in the broader business environment which inhibits business development

**Sub-programme 4.3: Consumer Protection**

to develop, implement and promote measures that ensure the rights and interests of all consumers

**Sub-programme 4.4: Liquor Regulation**

to promote and maintain an effective and efficient regulatory system for the liquor industry

**Policy developments**

The Business Regulation and Governance programme executes regulatory mandates that are imposed by the Constitution, as a functional area of either concurrent national and provincial legislative competence (consumer protection, as per Part A of Schedule 4 to the Constitution) or exclusive provincial legislative competence (liquor licences, as per Part A of Schedule 5). Its sub-programme Regulatory Services, similarly, draws its mandate from the Constitution, more particularly in certain areas of exclusive provincial legislative competence listed under Part B of Schedule 5 of the Constitution. Regulatory Services further derives its mandates from the programme structure alignment process initiated by the National Treasury in 2006/07.

**Changes: Policy structures, service establishments, etc.**

The Programme structure and service establishment remained static from the previous financial year.

**Expenditure trends analysis**

The operationalisation of the Liquor Board as a fully-fledged and independent public entity is the main factor for the increase of R5.624 million or 29.95 per cent in the 2012/13 allocated budget from the 2011/12 revised estimate of R18.780 million to R24.404 million in 2012/13.

**Strategic goal as per Strategic Plan****Programme 4: Business Regulation and Governance**

Creation of Opportunities for Businesses and Citizens to grow the Economy and Employment.

**Strategic objectives as per Annual Performance Plan**

An effective provincial trading environment facilitated through a reduction in regulatory barriers and inhibiting compliance requirements.

A business environment that reflects high levels of consumer rights awareness by a majority of the Western Cape population and business community, supported by effective complaints management and resolution mechanisms.

A regulatory environment that reflects high levels of participation by the public, a maximising of the benefits of the industry for the Province and its people and a minimising of its negative effects through increased awareness, reduced availability of liquor and better law enforcement.

**Table 6.4 Summary of payments and estimates – Programme 4: Business Regulation and Governance**

Sub-programme R'000	Outcome			Main appro- priation 2011/12	Adjusted appro- priation 2011/12	Revised estimate 2011/12	Medium-term estimate			
	Audited 2008/09	Audited 2009/10	Audited 2010/11				% Change from Revised estimate			
							2012/13	2011/12	2013/14	2014/15
3. Consumer Protection	7 803	10 598	8 734	11 551	9 751	9 751	9 381	(3.79 )	10 800	11 833
4. Liquor Regulation	7 483	9 245	7 299	9 029	9 029	9 029	15 023	66.39	15 620	16 062
<b>Total payments and estimates</b>	15 286	19 843	16 033	20 580	18 780	18 780	24 404	29.95	26 420	27 895

Note: The sub-programme deviates from the approved structure as no allocation is made to 4.1 Governance and 4.2 Regulation Services due to capacity constraints and thus these functions are absorbed by other sub-programmes.

## **Programme 5: Economic Planning**

**Purpose:** To develop provincial economic policies & strategies to achieve and measure sustainable economic development.

### **Analysis per sub-programme**

#### **Sub-programme 5.1: Policy and Planning**

to develop provincial economic policies and strategies

#### **Sub-programme 5.2: Research and Development**

to conduct economic research

#### **Sub-programme 5.3: Knowledge Management**

to contribute to the creation of a knowledge economy

#### **Sub-programme 5.4: Monitoring and Evaluation**

to determine the effectiveness and impact of provincial policy objectives and strategies

#### **Sub-programme 5.5: Management Economic Planning**

to conduct the overall management and administrative support to the Programme

### **Policy developments**

Framed within the concomitant policy frameworks of the New Growth Path and the Provincial Strategic Objective 1: Creating opportunities for growth and jobs, the Programme is bound to the Economic Agenda for the province. As outlined in Strategic Objective 1, the Micro Economic Development Strategy (MEDS) approach represents best practice in ensuring business-led support to growth sectors. The key focus for the Programme will therefore be:

The identification and prioritisation of growth sectors;

The institutional arrangements and systems within a WCEDA to give effect to the MEDS strategy; and

The refinement of the performance indicator structure against which we measure the effectiveness of our sector development efforts.

### **Changes: Policy structures, service establishments, etc.**

The Programme structure and service establishment remained static from the previous financial year. Furthermore, the establishment of the Western Cape Economic Development Partnership (WCEDP) will have a major impact on the Programme as it is recommended that the Research and Development function will be transferred to the EDP.

### **Expenditure trends analysis**

The Programme's budget has increased by 33.47 per cent or R4.997 million in the 2012/13 financial year from the 2011/12 revised estimate. The primary reason for this increase is the additional funding being allocated for the establishment and operational costs for the Western Cape Economic Development Partnership (WCEDP).

### **Strategic goal as per Strategic Plan**

#### **Programme 5: Economic Planning**

Creation of Opportunities for Businesses and Citizens to grow the Economy and Employment.

**Strategic objectives as per Annual Performance Plan**

Strengthening institutional governance for improved service delivery.

To provide research that informs the strategic objective of the Department.

**Table 6.5 Summary of payments and estimates – Programme 5: Economic Planning**

**Programme 6: Tourism, Arts and Entertainment**

**Purpose:** To facilitate the opportunities for the growth and increased inclusivity of the tourism, arts and entertainment sectors.

**Analysis per sub-programme****Sub-programme 6.1: Management: Tourism**

to develop and coordinate the programme strategic agenda

**Sub-programme 6.2: Tourism Growth**

to facilitate Growth of the tourism industry

to enhance to the quality of the visitor experience to the destination through the provision of quality tourism support services

**Sub-programme 6.3: Tourism Participation**

to develop the workforce to ensure that the industry has the right skills available at all times

to intensify breadth and depth of the participatory interventions in tourism enterprise development

to ensure a Regulated and Fair Business Environment within the tourism industry

**Sub-programme 6.4: Destination Marketing Organisation (DMO)**

to provide resources to the Destination Marketing Organisation to enable it to deliver on its mandate as defined in the Western Cape Tourism Act (Act 1 of 1999)

**Sub-programme 6.5: Commercial Arts and Entertainment**

to assist creative entrepreneurs to protect and benefit fully from their intellectual property

to promote and nurture the commercialisation and globalisation of product offering as part of the Cape offering to the tourism industry.

## **Policy developments**

The Provincially approved *Strategic Objective 1: Creating opportunities for growth and jobs* reaffirms that a key feature of the provincial economy is "a thriving multi-dimensional international tourism industry with strong links to the creative and cultural sectors.

The Strategy, adopted for the development of all dimensions of the Tourism Industry in South Africa in general and in the Western Cape in particular, is one which is the tried and tested standard in major tourism countries and sub-national regions worldwide.

The fundamental purpose of the strategy is to increase demand for tourism business (accommodation, land transport and the like). This results in more business for established firms, enough additional business for new firms to establish themselves and big opportunities for large foreign firms (Dubai World and the Taj Hotel) to establish themselves and thrive in the market. As Tourism is fundamentally a service industry, new business translates into new jobs across the employment levels and in all the sub-sectors which make up the Tourism Industry.

### **Changes: Policy structures, service establishments, etc.**

The Programme structure and service establishment remained static from the previous financial year.

### **Expenditure trends analysis**

The allocated budget for the programme decreased from R62.939 million in the 2011/12 revised estimate to R53.040 million in the 2012/13 financial year. This represents a decrease of 15.73 per cent or R9.899 million. The major contributing factor to this decrease in estimated expenditure is the reduction in the allocation to the Destination Marketing Organisation (DMO) trading as Cape Town Routes Unlimited due to the restructuring of the Public Entity as a result of the establishment of the WCEDP.

### **Strategic goal as per Strategic Plan**

#### **Programme 6: Tourism, Arts and Entertainment**

Creation of Opportunities for Businesses and Citizens to grow the Economy and Employment.

### **Strategic objectives as per Annual Performance Plan**

To achieve global best practice in public sector organisation delivery.

The achievement of above average sustainable economic growth [measured by output and by value] which gives rise to significant numbers of new sustainable employment opportunities.

The achievement of a situation in which opportunity exists of participating in the economy, through employment and business ownership, for all who seek such opportunity.

**Programme 7: Skills Development and Innovation**

**Purpose:** To facilitate the provisioning of Human Capital and Innovation skills in order to deliver on the economic Human Resources Development need of the Western Cape.

**Analysis per sub-programme****Sub-programme 7.1: Provincial skills co-ordination**

to develop a provincial mechanism for management of skills information and data

to promote partnerships and collaboration for increased access to occupationally directed programmes

**Sub-programme 7.2: Workforce development**

to facilitate/support unemployed youth to access jobs

to bridge the gap between supply and demand across all sectors by creating a pool of skilled workers in identified, artisanal, technical and professional fields that are essential to the development and growth of our economy

**Sub-programme 7.3: Innovation**

to enhance cohesion between all provincial and national stakeholders in order to foster an environment conducive to Innovation

**Sub-programme 7.4: Management: Skills Development**

to conduct the overall management and administrative support to the Programme

## **Policy developments**

In a globalised economy, where capital and labour are highly mobile and technology evolves rapidly, workforce development has a key role to play in improving prosperity and living standards (OECD, *More than Just Jobs*: 2008).

The Human Resource Development Strategy for South Africa (HRDSSA) seeks to secure planning and delivery alignment across the entire education and skills development pipeline in order to address mid to long term social and economic objectives. The National Skills Development Strategy commits to more responsive skills planning to secure alignment between the SETA planning and delivery system and national development priorities, including IPAP priorities.

Provincially, human resources make a major and increasing contribution to economic development. Studies at the firm, regional and national levels locate the existence of a competitive position in the skills and aptitudes of the workforce. Employment has been increasingly skill intensive, and this is true across different sectors and across the globe. The MEDS research reported that the gap between the demand for skills and the supply was rising and reported business concerns as to the functioning of the training system.

The programme, in terms of its skills focus will be guided by Strategic Objective 1: to play a facilitating role and addressing the activities which address the mismatch between skills demand and supply and increase opportunities for employment.

### **Changes: Policy structures, service establishments, etc.**

The Programme structure and service establishment remained static from the previous financial year.

## **Expenditure trends analysis**

The allocated budget for the Programme increased from R18.375 million in 2011/12 revised estimate to R25.120 million in the 2012/13 financial year. This represents an increase of 36.71 per cent or R6.745 million. The major contributing factor to the increase in estimated expenditure is the Artisan Training programme which will be R 10.980 million for 2012/13.

## **Strategic goal as per Strategic Plan**

### **Programme 7: Skills development and Innovation**

Creation of Opportunities for Businesses and Citizens to grow the Economy and Employment.

## **Strategic objectives as per Annual Performance Plan**

To create an enabling skills environment that minimises the human resource development hurdles to sustainable business growth, investment and job creation.

To co-ordinate institutional arrangements by increasing access to occupationally directed programmes, leading to entry, intermediate and high level learning.

The Regional Innovation Forum, RIF, will stimulate technological innovation in order to improve economic growth and enterprise competitiveness.
