TECHNICAL INDICATOR DESCRIPTIONS OF THE PROGRAMME PERFORMANCE INDICATORS

PROGRAMME 1: ADMINISTRATION

	SUB-PROGRAMME 1.1 : OFFICE OF THE MEC
	SUB-PROGRAMME 1.2 : OFFICE OF THE HOD
Indicator title	1.1.1 1.2.1 Audit report
Short definition	To measure the organisational performance and the financial
	management performance of the Department and what systems and
	process are in place to monitor and evaluate such performances
Purpose/importance	Improve levels of integrity, efficiency and effectiveness
Source/collection of data	Minutes of Meetings with Auditors, AGSA communiqués
Method of calculation	Count
Data limitations	Availability of information from AGSA
Type of indicator	Output
Calculation type	Non-cumulative
Reporting cycle	Annually
New indicator	No
Desired performance	As per target
Indicator responsibility	Programme Manager: Administration
Key risk	Non adherence to timelines and misalignment
Risk treatment measure	Review of SO P
	SUB-PROGRAMME 1.3: FINANCIAL MANAGEMENT
Indicator title	1.3.1 Audit reports (financial)
Short definition	To measure the financial management performance of the
	Department and what systems and process are in place to monitor
	and evaluate such financial management performance
Purpose/importance	Improve levels of Integrity, efficiency and effectiveness
Source/collection of data	Minutes of Meetings with Auditors, AGSA communiqués
Method of calculation	Count
Data limitations	Availability of information from AGSA
Type of indicator	Output
Calculation type	Non-cumulative
Reporting cycle	Annually
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Financial Management
Key risk	Non adherence to timelines and misalignment
Risk treatment measure	Review of SOP
Indicator title	1.3.2 Number of In Year Monitoring reports
Short definition	Monthly in year reports on performance
Purpose/importance	Corrective action instituted timeously
Source/collection of data	In-house reports and Treasury format
Method of calculation	Count
Data limitations	None
Type of indicator	Efficiency, economy
Calculation type	Cumulative
Reporting cycle	Monthly
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Financial Management
Key Risk	Non adherence to timelines and misalignment
Risk treatment measure	Review of SOP

Indicator title	1.3.3 Number of Annual Financial Statements
Short definition	Measure financial performance of the Department
Purpose/importance	Transparency
Source/collection of data	National Treasury templates and system reports
Method of calculation	Count
Data limitations	None
Type of indicator	Efficiency, economy
Calculation type	Cumulative for the year
Reporting cycle	Bi-annually
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Financial Management
Key risk	Non adherence to timelines and misalignment
Risk treatment measure	Review of SOP
Indicator title	1.3.4 Number of corrective actions achieved with regard to audit findings and SCOPA/SC resolutions
Short definition	Ensure corrective action is completes and addresses the findings
Purpose/importance	Transparency, integrity
Source/collection of data	Audit / SCOPA / SC reports
Method of calculation	Count
Data limitations	None
Type of indicator	Efficiency
Calculation type	Non-Cumulative for the year
Reporting cycle	Bi-annually
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Financial Management
Key risk	Non adherence to timelines and misalignment
key lisk	HOLL GALLOTOLIC TO TILLIONING AND THISANGLITHOLD
Risk treatment measure	Review of SOP
	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES
Risk treatment measure Indicator title	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance)
Risk treatment measure	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and
Risk treatment measure Indicator title	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such
Risk treatment measure Indicator title Short definition	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance
Risk treatment measure Indicator title Short definition Purpose/importance	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count Availability of information from AGSA
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count Availability of information from AGSA Output
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count Availability of information from AGSA Output Non-cumulative
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count Availability of information from AGSA Output Non-cumulative Annually
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count Availability of information from AGSA Output Non-cumulative Annually No
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count Availability of information from AGSA Output Non-cumulative Annually No As per target
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count Availability of information from AGSA Output Non-cumulative Annually No As per target Sub-programme Manager: Strategic Services and Communication
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility Key risk	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count Availability of information from AGSA Output Non-cumulative Annually No As per target Sub-programme Manager: Strategic Services and Communication Non adherence to timelines and misalignment
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count Availability of information from AGSA Output Non-cumulative Annually No As per target Sub-programme Manager: Strategic Services and Communication
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility Key risk Risk treatment measure	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count Availability of information from AGSA Output Non-cumulative Annually No As per target Sub-programme Manager: Strategic Services and Communication Non adherence to timelines and misalignment Review of SOP
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility Key risk Risk treatment measure Indicator title	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count Availability of information from AGSA Output Non-cumulative Annually No As per target Sub-programme Manager: Strategic Services and Communication Non adherence to timelines and misalignment Review of SOP 1.4.2 Number of Annual Performance Plans submitted and published
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility Key risk Risk treatment measure Indicator title Short definition	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count Availability of information from AGSA Output Non-cumulative Annually No As per target Sub-programme Manager: Strategic Services and Communication Non adherence to timelines and misalignment Review of SOP 1.4.2 Number of Annual Performance Plans submitted and published To provide detailed performance plan targets for a financial year
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility Key risk Risk treatment measure Indicator title	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count Availability of information from AGSA Output Non-cumulative Annually No As per target Sub-programme Manager: Strategic Services and Communication Non adherence to timelines and misalignment Review of SOP 1.4.2 Number of Annual Performance Plans submitted and published To provide detailed performance plan targets for a financial year To showcase/table what the Department is planning to achieve for
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count Availability of information from AGSA Output Non-cumulative Annually No As per target Sub-programme Manager: Strategic Services and Communication Non adherence to timelines and misalignment Review of SOP 1.4.2 Number of Annual Performance Plans submitted and published To provide detailed performance plan targets for a financial year To showcase/table what the Department is planning to achieve for the upcoming financial year
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility Key risk Risk treatment measure Indicator title Short definition	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count Availability of information from AGSA Output Non-cumulative Annually No As per target Sub-programme Manager: Strategic Services and Communication Non adherence to timelines and misalignment Review of SOP 1.4.2 Number of Annual Performance Plans submitted and published To provide detailed performance plan targets for a financial year To showcase/table what the Department is planning to achieve for the upcoming financial year The information is derived from the line function i.e. strategic
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count Availability of information from AGSA Output Non-cumulative Annually No As per target Sub-programme Manager: Strategic Services and Communication Non adherence to timelines and misalignment Review of SOP 1.4.2 Number of Annual Performance Plans submitted and published To provide detailed performance plan targets for a financial year To showcase/table what the Department is planning to achieve for the upcoming financial year The information is derived from the line function i.e. strategic coordinators which is submitted in a NT template format
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count Availability of information from AGSA Output Non-cumulative Annually No As per target Sub-programme Manager: Strategic Services and Communication Non adherence to timelines and misalignment Review of SOP 1.4.2 Number of Annual Performance Plans submitted and published To provide detailed performance plan targets for a financial year To showcase/table what the Department is planning to achieve for the upcoming financial year The information is derived from the line function i.e. strategic coordinators which is submitted in a NT template format Count
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count Availability of information from AGSA Output Non-cumulative Annually No As per target Sub-programme Manager: Strategic Services and Communication Non adherence to timelines and misalignment Review of SOP 1.4.2 Number of Annual Performance Plans submitted and published To provide detailed performance plan targets for a financial year To showcase/table what the Department is planning to achieve for the upcoming financial year The information is derived from the line function i.e. strategic coordinators which is submitted in a NT template format Count None
Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation	Review of SOP SUB-PROGRAMME 1.4: CORPORATE SERVICES 1.4.1 Audit report (performance) To measure the organisational performance of the Department and what systems and process are in place to monitor and evaluate such performance Improve levels of Integrity, efficiency and effectiveness Minutes of Meetings with Auditors, AGSA communiqués Count Availability of information from AGSA Output Non-cumulative Annually No As per target Sub-programme Manager: Strategic Services and Communication Non adherence to timelines and misalignment Review of SOP 1.4.2 Number of Annual Performance Plans submitted and published To provide detailed performance plan targets for a financial year To showcase/table what the Department is planning to achieve for the upcoming financial year The information is derived from the line function i.e. strategic coordinators which is submitted in a NT template format Count

Reporting cycle	Annually
New indicator	No
Desired performance	Performance as per target
Indicator responsibility	Sub-programme Manager: Strategic Services and Communication
Key risk	Non adherence to timelines and misalignment
Risk treatment measure	Review of SOP
	No tion of our
Indicator title	1.4.3 Number of Quarterly Performance Reports submitted
Short definition	To provide information on quarterly achievements based on the
	Annual Performance Plan
Purpose/importance	To table the departmental performance achievements per quarter to
	Provincial Treasury
Source/collection of data	The data collection is the Quarterly Performance Reports and Annual
	Performance Plan, internal assessments
Method of calculation	Count
Data limitations	None
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Quarterly
New indicator	No
Desired performance	Performance as per target
Indicator responsibility	Sub-programme Manager: Strategic Services and Communication
Key risk	Non adherence to timelines and misalignment
Risk treatment measure	Review of SOP
Indicator title	1.4.4 Number of Annual Reports published
Short definition	To provide a report of the Department's annual achievements based
	on the Annual Performance Plan
Purpose/importance	To table the departmental performance achievements for a financial
	year
Source/collection of data	The data collection is the Quarterly Performance Reports and Annual
	Performance Plan
Method of calculation	Count
Data limitations	None
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Annually
New indicator	No
Desired performance	Performance as per target
Indicator responsibility	Sub-programme Manager: Strategic Services and Communication
Key risk	Non adherence to timelines and misalignment
Risk treatment measure	Review of SOP

PROGRAMME 2 - CIVILIAN OVERSIGHT

	SUB-PROGRAMME 2.1 : PROGRAMME SUPPORT
Indicator title	2.1.1 Number of strategic policies developed
Short definition	To develop transversal policies of strategic nature for the programme
Purpose/importance	This objective will ensure that policies are developed in ordere to
. , .	guide operations aligned to the design principles of PSO 5: Increasing
	Safety
Source/collection of data	Research of current policies and other study material available in the
	resource centre
Method of calculation	Count
Data limitations	Access and availability of information
Type of indicator	Output
Calculation type	cumulative
Reporting cycle	Annually
New indicator	Yes
Desired performance	As per target
Indicator responsibility	Programme Manager:Civilian Oversight
Key Risk	Change of staregic direction
Risk treatment measure	Use forecasting to identify possible strategic changes
	SUB-PROGRAMME 2.2 : POLICY AND RESEARCH
Indicator title	2.2.1 Number of research reports*
Short definition	A reporting mechanism on the state of policing in the Province
Purpose/importance	A tool to exercise civilian oversight by reporting on the state of
	policing in the Province and provide recommendations to be
	implemented by Law Enforcement Agencies
Source/collection of data	Collation of research reports collected such as oversight reports,
	community police relation reports, crime prevention reports, police
	client satisfaction reports
Method of calculation	Count
Data limitations	Access and availability of information
Type of indicator	Activity
Calculation type	Cumulative/
Reporting cycle	Annually
New indicator	No As partarent
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Policy and Research The lack of access to available data from key stakeholders to use in
Key risk	process increasing safety in Province through evidence based information. Alternative sources of data like the Department of Health, Forensic Pathology Service data on murder would be sourced. Similarly, links would be established with Department of Correctional Servics amongst others to to source existiing and available data on offenders to map an offender profile and spaital location of of these offenders
Risk treatment measure	Different institutions that could provide data will be identified and a Memorandum of Agreement (MOA) would be entered into with these institutions to provide data on a regular interval
Indicator title	2.2.2 Number of police precincts where Provincial Policing Needs and Priorities were determined
Short definition	The determining of policing needs and priorities (PNP's) from the perspective of communities
Purpose/importance	To determine the policing needs and priorities from the perspective of communities with the aim of influencing the SAPS plan at local police station/community service centre level, in order to improve service delivery of SAPS
Source/collection of data	Questionnaires

Method of calculation	Count
Data limitations	Access to information
Type of indicator	Activity
Calculation type	Non-Cumulative
Reporting cycle	Annually
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Policy and Research
Key risk	The lack of participation of key stakehoders in the process
Risk treatment measure	The research methodological approach would be amended
kisk irediffielli ffiedsore	accordingly to primarily focus on secondary and existing data
	decordingly to printing focus on secondary and existing data
Indicator title	2.2.3 Number of CPFs evaluated against the set standards of civilian
	oversight
Short definition	Evaluating the quality of oversight reports received from CPFs
Purpose/importance	To determine whether CPFs do exercise their oversight functions over
	the police effectively
Source/collection of data	Questionnaire
Method of calculation	Count
Data limitations	Access to information
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Quarterly
New indicator	Yes
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Policy and Research
Key risk	The delay in the development of the Expanded Partnership
	Programme application is a risk.
Risk treatment measure	This risk could be mitiagated by developing a manual system for
	I collecting and capturing the information as an interim solution
	collecting and capturing the information as an interim solution
Indicator title	
	2.2.4 Number of safety and crime trend analysis conducted
Short definition	Number of safety and crime trend analysis conducted Analysis of safety and crime information
	2.2.4 Number of safety and crime trend analysis conducted Analysis of safety and crime information To analyse and assess safety and crime trends in order to influence
Short definition Purpose/importance	2.2.4 Number of safety and crime trend analysis conducted Analysis of safety and crime information To analyse and assess safety and crime trends in order to influence policing resources
Short definition Purpose/importance Source/collection of data	2.2.4 Number of safety and crime trend analysis conducted Analysis of safety and crime information To analyse and assess safety and crime trends in order to influence policing resources Crime and safety statistics
Short definition Purpose/importance Source/collection of data Method of calculation	2.2.4 Number of safety and crime trend analysis conducted Analysis of safety and crime information To analyse and assess safety and crime trends in order to influence policing resources Crime and safety statistics Count
Short definition Purpose/importance Source/collection of data Method of calculation Data limitations	2.2.4 Number of safety and crime trend analysis conducted Analysis of safety and crime information To analyse and assess safety and crime trends in order to influence policing resources Crime and safety statistics Count Access and availability of information
Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator	2.2.4 Number of safety and crime trend analysis conducted Analysis of safety and crime information To analyse and assess safety and crime trends in order to influence policing resources Crime and safety statistics Count Access and availability of information Activity
Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type	2.2.4 Number of safety and crime trend analysis conducted Analysis of safety and crime information To analyse and assess safety and crime trends in order to influence policing resources Crime and safety statistics Count Access and availability of information Activity Cumulative
Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle	2.2.4 Number of safety and crime trend analysis conducted Analysis of safety and crime information To analyse and assess safety and crime trends in order to influence policing resources Crime and safety statistics Count Access and availability of information Activity Cumulative Annually
Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator	2.2.4 Number of safety and crime trend analysis conducted Analysis of safety and crime information To analyse and assess safety and crime trends in order to influence policing resources Crime and safety statistics Count Access and availability of information Activity Cumulative Annually No
Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance	2.2.4 Number of safety and crime trend analysis conducted Analysis of safety and crime information To analyse and assess safety and crime trends in order to influence policing resources Crime and safety statistics Count Access and availability of information Activity Cumulative Annually No As per target
Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility	2.2.4 Number of safety and crime trend analysis conducted Analysis of safety and crime information To analyse and assess safety and crime trends in order to influence policing resources Crime and safety statistics Count Access and availability of information Activity Cumulative Annually No As per target Sub-programme Manager: Policy and Research
Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance	2.2.4 Number of safety and crime trend analysis conducted Analysis of safety and crime information To analyse and assess safety and crime trends in order to influence policing resources Crime and safety statistics Count Access and availability of information Activity Cumulative Annually No As per target Sub-programme Manager: Policy and Research The lack of access to available data from key stakeholders to use in
Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility	2.2.4 Number of safety and crime trend analysis conducted Analysis of safety and crime information To analyse and assess safety and crime trends in order to influence policing resources Crime and safety statistics Count Access and availability of information Activity Cumulative Annually No As per target Sub-programme Manager: Policy and Research The lack of access to available data from key stakeholders to use in process increasing safety in Province through evidence based
Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility	2.2.4 Number of safety and crime trend analysis conducted Analysis of safety and crime information To analyse and assess safety and crime trends in order to influence policing resources Crime and safety statistics Count Access and availability of information Activity Cumulative Annually No As per target Sub-programme Manager: Policy and Research The lack of access to available data from key stakeholders to use in process increasing safety in Province through evidence based information. Alternative sources of data like the Department of Health,
Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility	2.2.4 Number of safety and crime trend analysis conducted Analysis of safety and crime information To analyse and assess safety and crime trends in order to influence policing resources Crime and safety statistics Count Access and availability of information Activity Cumulative Annually No As per target Sub-programme Manager: Policy and Research The lack of access to available data from key stakeholders to use in process increasing safety in Province through evidence based information. Alternative sources of data like the Department of Health, Forensic Pathology Service data on murder would be sourced.
Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility	2.2.4 Number of safety and crime trend analysis conducted Analysis of safety and crime information To analyse and assess safety and crime trends in order to influence policing resources Crime and safety statistics Count Access and availability of information Activity Cumulative Annually No As per target Sub-programme Manager: Policy and Research The lack of access to available data from key stakeholders to use in process increasing safety in Province through evidence based information. Alternative sources of data like the Department of Health, Forensic Pathology Service data on murder would be sourced. Similarly, links would be established with Department of Correctional
Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility	2.2.4 Number of safety and crime trend analysis conducted Analysis of safety and crime information To analyse and assess safety and crime trends in order to influence policing resources Crime and safety statistics Count Access and availability of information Activity Cumulative Annually No As per target Sub-programme Manager: Policy and Research The lack of access to available data from key stakeholders to use in process increasing safety in Province through evidence based information. Alternative sources of data like the Department of Health, Forensic Pathology Service data on murder would be sourced. Similarly, links would be established with Department of Correctional Servics amongst others to to source existiing and available data on
Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility	2.2.4 Number of safety and crime trend analysis conducted Analysis of safety and crime information To analyse and assess safety and crime trends in order to influence policing resources Crime and safety statistics Count Access and availability of information Activity Cumulative Annually No As per target Sub-programme Manager: Policy and Research The lack of access to available data from key stakeholders to use in process increasing safety in Province through evidence based information. Alternative sources of data like the Department of Health, Forensic Pathology Service data on murder would be sourced. Similarly, links would be established with Department of Correctional Servics amongst others to to source existiing and available data on offenders to map an offender profile and spaital location of of these
Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility Key risk	2.2.4 Number of safety and crime trend analysis conducted Analysis of safety and crime information To analyse and assess safety and crime trends in order to influence policing resources Crime and safety statistics Count Access and availability of information Activity Cumulative Annually No As per target Sub-programme Manager: Policy and Research The lack of access to available data from key stakeholders to use in process increasing safety in Province through evidence based information. Indicator title	2.2.5 Number of virtual information management and resource
	centres maintained
Short definition	A data warehouse of Safety and crime information
Purpose/importance	To ensure the access to a central repository of safety and crime
	information
Source/collection of data	Register of data/ information available
Method of calculation	Count
Data limitations	Accommodation
Type of indicator	Activity
Calculation type	Non-Cumulative
Reporting cycle	Annually
New indicator	No Association and the second
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Policy and Research
Key risk	Lack of space that could be dedicated to the Information and Resource Center
Risk treatment measure	The data will be stored electronically and backed up on a quarterly basis
Indicator title	2.2.6 Number of community organization databases developed
Short definition	The development of a database of all organisations who are active in the field of policing and safety in every police cluster
Purpose/importance	The database will indicate the number and nature of organisations, their levels of activities contact particulars and geographical location
	in the province
Source/Collection of data	Questionnaire would will sent to these organisations to complete
Method of calculation	Count
Data limitations	Access to information and unwillingness of organisation to participate.
Type of indicator	Activity
Calculation type	Non-cumulative
Reporting cycle	Annually
New indicator	Yes
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Policy and Research
Key risk	Unwillingness and reluctance of the community organisation to participate in the programme
Risk treatment measure	Awareness sessions could be held to increase awareness.
Indicator title	2.2.7 Number of Integrated Information Systems maintained
Short definition	Integrated information System is an application that would be used collect and house data and information that has been co-produced by the community structures and the Department to increase safety. This would be based on the key facets of the Community Safety Bill, 2012.
Purpose/importance	The IIS would show the available data on safety and security make it easily accessible to the users.
Source/Collection of data	Community Structures like Community Police Forum and Neighbourhood Watches,
Method of calculation	Count
Data limitations	Application development and technical expertise. The Development of application is the DotP, Centre for e-Innovation (CeI) mandate hence the department is dependent
Type of indicator	Activity
Calculation type	Non-cumulative
Reporting cycle	Annually
New indicator	Yes
Desired performance	As per target

Indicator responsibility	Sub-programme Manager: Policy and Research
Key risk	Application development and technical expertise. The Development of application is the DoTP, Centre for e-Innovation (CeI) mandates hence the department is dependent on this indicator.
Risk treatment measure	Constant engagements with Cel and register the project with them as their key performance indicator as well.

	SUB-PROGRAMME 2.3 : MONITORING AND EVALUATION
Indicator title	2.3.1 Number of stations monitored*
Short definition	To determine the state of policing by monitoring policing service
	delivery through the Community Safety Expanded Partnership
	Programme (EPP).
Purpose/importance	Improved policing will contribute to increasing safety
Source/collection of data	Report on data collected from Community Safety Expanded
	Partnership Programme (EPP)
Method of calculation	Count
Data limitations	Data limited to EPP questionnaire tool, and CPFs participating in the
	EPP
Type of indicator	Count
Calculation type	Non-Cumulative
Reporting cycle	Quarterly
New Indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Monitoring and Evaluation
Key risk	Availability of and access to information, limited participation by CPFs
	in respect of EPP, Broadband remote access to EPP. Possible
	ambiguous interpretation of guiding legislation and policies that could prevent the Department from accessing information
Risk treatment measure	Continuous capacitation of CPFs in the EPP and promulgation of the
kisk iredifficiti ffiedsore	Community Safety Bill.
	Commonly safety bill.
Indicator title	2.3.2 Number of stations evaluated*
Short definition	To use the oversight mandate of the Western Cape Government
	(WCG) to improve policing
Purpose/importance	Improved policing will contribute to increasing safety
Source/collection of data	Data comes from the police and community and is collected by
	utilising Monitoring Tools
Method of calculation	Count
Data limitations	Availability of and access to information
Type of indicator	Outputs
Calculation type	Cumulative
Reporting cycle	Quarterly
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Monitoring and Evaluation
Key risk	Possible ambiguous interpretation of guiding legislation and policies
Risk treatment measure	that could prevent the Department from accessing information Promulgation of the Community Safety Bill.
Risk frediment medsure	Fromolgation of the Continuous Safety Bill.
Indicator title	2.3.3 Number of audit reports*
Short definition	To evaluate and assess the implementation of the Domestic Violence
	Act (DVA) (Act 116 of 1999) and related policy directives to ensure
	effective police service delivery to communities and victims of crime
	in particular
Purpose/importance	Improved policing will contribute to increasing safety
Source/collection of data	Data comes from the police and community and is collected by
	utilising Monitoring Tools
Method of calculation	Count
Data limitations	Availability of and access to information
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Quarterly
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Monitoring and Evaluation

W	Describes and the second states of the second state
Key risk	Possible ambiguous interpretation of guiding legislation and policies
Risk treatment measure	that could prevent the Department from accessing information Promulgation of the Community Safety Bill.
Risk irealment measure	Promotigation of the Continuity safety bill.
Indicator title	2.3.4 Number of reports on complaints management*
Short definition	To report on police conduct in relation to police service delivery
Short deminion	standards
Purpose/importance	Improved policing will contribute to increasing safety
Source/collection of data	DoCS Policing Complaints and Compliments System (PCCS); SAPS;
Method of calculation	IPID; Municipal Police Services (MPS) Count
Data limitations	Availability of and access to information
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Quarterly
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Monitoring and Evaluation
Key risk	Possible ambiguous interpretation of guiding legislation and policies
	that could prevent the Department from accessing information
Risk treatment measure	Promulgation of the Community Safety Bill
Indicator title	2.3.5 Number of reports on the implementation of ICD, Parliament and
Charl dafinilian	Auditor-General recommendation*
Short definition	The monitoring of the SAPS with the aim to establish the status of the implementation of recommendations made by the Independent
	Police Investigative Directorate (IPID), Parliament and the Auditor-
	General (AG) as directed by the National Civilian Secretariat for
	Police (CSP)
Purpose/importance	Improved policing will contribute to increasing safety
Source/collection of data	By direction from the National Civilian Secretariat for Police (CSP) only
Method of calculation	Count
Data limitations	Timeous directive from the CSP; Availability of and access to information
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Annually
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Monitoring and Evaluation
Key risk	Possible ambiguous interpretation of guiding legislation and policies
	that could prevent the Department from accessing information
Risk treatment measure	Promulgation of the Community Safety Bill
	2.2.4. Number of semants on implementation of or a statement of the
Indicator title Short definition	2.3.6 Number of reports on implementation of special projects*
SHOU DEMINITION	The implementation of special projects as directed from time-to-time by the National Civilian Secretariat for Police (CSP)
Purpose/importance	Improved policing will contribute to increasing safety
Source/collection of data	Reports submitted on implementation of special projects as directed
Method of calculation	Count
Data limitations	Availability of and access to information
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Annually
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Monitoring and Evaluation
Key risk	Possible ambiguous interpretation of guiding legislation and policies

	that could prevent the Department from accessing information
Risk treatment measure	Promulgation of the Community Safety Bill
Risk irediffielli ffledsore	Tromolgation of the Continuous Safety bill
Indicator title	2.3.7 Number of first level oversight visits to stations
Short definition	To evaluate police service delivery as an early warning mechanism
Purpose/importance	Improving policing will contribute to increasing safety
Source/collection of data	EPP E-reports
Method of calculation	Count
Data limitations	Availability of and access to information; consistency of web
Daid illiliations	· · · · · · · · · · · · · · · · · · ·
Type of indicator	application; functionality of community structures
Type of indicator	Output Cumulative
Calculation type	
Reporting cycle	Annually
New indicator	Yes
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Monitoring and Evaluation
Key risk	Possible ambiguous interpretation of guiding legislation and policies that could prevent the Department from accessing information
Risk treatment measure	Promulgation of the Community Safety Bill
Indicator title	2.3.8 Number of reports on court watching briefs conducted
Short definition	To identify and report on systemic failures or lack adequate policing
	which are contributing to poor prosecution rates amongst priority
	cases such as gang related murders and other violent crimes
Purpose/importance	Improved policing will contribute to increasing safety
Source/collection of data	Observation at high profile court cases
Method of calculation	Count
Data limitations	Availability of and access to information
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Quarterly
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Monitoring and Evaluation
Key risk	Possible ambiguous interpretation of guiding legislation and policies
	that could prevent the Department from accessing information
Risk treatment measure	Promulgation of the Community Safety Bill
Indicator title	2.3.9 Number of reports on police conduct at high profile protest actions
Short definition	To provide the WCG Executive with real-time status reports on high
	profile protest actions
Purpose/importance	Improved policing will contribute to increasing safety
Source/collection of data	Observation at high profile protest actions
Method of calculation	Count
Data limitations	Availability of and access to information
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Annually
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Monitoring and Evaluation
Key risk	Possible ambiguous interpretation of guiding legislation and policies
,	that could prevent the Department from accessing information
Risk treatment measure	Promulgation of the Community Safety Bill

Indicator title	2.3.10 Number of cases monitored through court watching briefs
Short definition	To provide the WCG Executive with real-time status reports on high
	profile court cases
Purpose/importance	Improved policing will contribute to increasing safety
Source/collection of data	Observation at high profile court cases
Method of calculation	Count
Data limitations	Availability of and access to information
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Quarterly
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Monitoring and Evaluation
Key risk	Possible ambiguous interpretation of guiding legislation and policies
	that could prevent the Department from accessing information
Risk treatment measure	Promulgation of the Community Safety Bill
Indicator Title	2.3.11 Number of priority investigations conducted
Short definition	To report on high priority police service delivery investigations
Purpose/importance	Improved policing will contribute to increasing safety
Source/collection of data	Case files
Method of calculation	Count
Data limitations	Availability of and access to information
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Annually
New indicator	Yes
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Monitoring and Evaluation
Key risk	Possible ambiguous interpretation of guiding legislation and policies
	that could prevent the Department from accessing information
Risk treatment measure	Promulgation of the Community Safety Bill
Indicator Title	2.3.12 Number of policy frameworks developed for monitoring of
Short definition	municipal police services To develop a policy on monitoring of Municipal Police Services (MPS)
Purpose/importance	To develop a policy on monitoring of Municipal Police Services (MPS) Improved policing will contribute to increasing safety
Source/collection of data	DoCS Policing Complaints and Compliments Call Centre
Method of calculation	Count
Data limitations	Final proclamation of the Community Safety Act
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Annually
New indicator	Yes
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Monitoring and Evaluation
Key risk	Possible ambiguous interpretation of guiding legislation and policies
,	that could prevent the Department from accessing information
Risk treatment measure	Promulgation of the Community Safety Bill

^{*} National Sector Specific Indicators (Safety and Liaison)

PROGRAMME 3 – CRIME PREVENTION AND COMMUNITY POLICE RELATIONS

	SUB-PROGRAMME 3.1 : SOCIAL CRIME PREVENTION
Indicator title	3.1.1 Number of partnerships established
Short definition	To advance and implement evidence based safety initiatives that
	aimas to collaborate with safety social sector agencies
Purpose/importance	To emphasise the importance of making safety everyone's
	responsibility.
Source/collection of data	Stakeholder Forums Engagements, Memorandum of Agreement,
	Service Level Agreements
Method of calculation	Count
Data limitations	Lack of participation from stakeholders.
Type of indicator	Output
Calculation type	Non-cumulative
Reporting cycle	Quarterly
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub Programme Manager: Social Crime Prevention
Key risk	Budget constraints
Risk treatment measure	Inter-governmental co-operation
Indicator title	3.1.2 Number of Chrysallis graduates taken up in the "Youth for
Short definition	Safety" EPWP work programme To provide training to youth at risk.
Purpose/importance	The Chrysalis Academy through its learning programmes, aims to
r orpose/importance	contribute to youth development through the promotion of social
	consciousness, values and attitudes in young people between the
	ages of 17-22. The focus of this programme is to enable them to grow
	on a personal level and acquire knowledge and skills through training
	aimed at empowering them economically, morally and spiritually.
Source/collection of data	Business plans, quarterly reports and annual report.
Method of calculation	Count
Data limitations	None
Type of indicator	Activity
Calculation type	Cumulative
Reporting cycle	Quarterly
New indicator	Yes
Desired performance	As per target
Indicator responsibility	Sub-Programme Manager: Social Crime Prevention
Key risk	Availability of funding. Youth drop out of training without graduating.
Risk treatment measure	Inter-governmental co-operation
Indicator title	3.1.3 Number of Neighbourhood Watch policies developed
Short definition	To develop policies for the accreditation of NHW Structures
Purpose/importance	Policies are developed to accredit NHW Structures.
Source/collection of data	Business plans, quarterly reports and annual report.
Method of calculation	Count
Data limitations	None
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Quarterly
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-Programme Manager: Social Crime Prevention
Key risk	Budget constraints
Risk treatment measure	Budget planning and allocation of funds

Indicator title	3.1.4 Number of Neighbourhood Watches trained
Short definition	To train Neighbourhood Watch volunteers
Purpose/importance	The training of Neighbourhood Watch Structures and its members
	through the provision of training so that communities play a far more
	effective role in addressing crime and report on safety incidents in
	their neighbourhood
Source/collection of data	Business plans, quarterly reports and annual report
Method of calculation	Count
Data limitations	None
Type of indicator	Output
Calculation type	Non-Cumulative
Reporting cycle	Quarterly
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-Programme Manager: Social Crime Prevention
Key risk	Non availability of community members to attend the training
Risk treatment measure	Annual training schedule circulated to NHWs
Indicator title	3.1.5 Number of Neighbourhood Watches supported
Short definition	Sustaining the functions of Neighbourhood Watches
Purpose/importance	To provide Neighbourhood wathes with the necessary equipment
Source/collection of data	Reports
Method of calculation	Count
Data limitations	Functionality of Neighbourhood Watches
Type of indicator	Output
Calculation type	Non-cumulative
Reporting cycle	Annually
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Social Crime Prevention
Key risk	Neighbourhood watches not effectively control the use of equipment
	allocated to them
Risk treatment measure	Facilitate provincial criteria for the control and usage of equipment
	by Neighbourhood Wathes
Indicator title	3.1.6 Number of Community Safety Outreach Programmes rolled out
Short definition	To measure the safety needs of communities
Purpose/importance	The measuring of the number of public accountability meetings
	where safety needs of communities are determined, youth
	programmes supported and neighbourhood safety walk-abouts promoted
Source/collection of data	
Method of calculation	Report Count
Data limitations	Dependency on CPFs
Type of indicator	Output Cumulative
Calculation type	
Reporting cycle	Quarterly
New indicator	Yes A pertaget
Desired performance	A per target Sub programme Manager: Social Crime Prevention
Indicator responsibility	Sub-programme Manager: Social Crime Prevention
Key risk	Lack of community attendance and participation during public
Risk treatment measure	outreach engagements
kisk irealinent measure	Improved marketing and communication
Indicator title	2.1.7 Number of gross where "Vouth and Policies for Cafeb."
maicalor line	3.1.7 Number of areas where "Youth and Religion for Safety"
Short definition	programmes are implemented The measuring of the number of youth and religion safety
SHOU GENMINOU	The measuring of the number of youth and religion safety

	10 YO 0 YOU DO DO
Dura coo/ima catana co	programmes A magazine of youth and religion safety programmes which positively
Purpose/importance	A measure of youth and religion safety programmes which positively occupy the youth and disrupt gang violence
Source /collection of data	
Source/collection of data	Reports Count
Method of calculation Data limitations	
	Dependence on religious organisations
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Bi-annually
New indicator	Yes
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Social Crime Prevention
Key risk	Religious partners not reaching the youth targeted
Risk treatment measure	Capacitation and relationship building with religious seciotn to
	mobilise the targeted youth effectively
Indicator title	3.1.8 Number of community safety outreach Chrysallis graduate
	programmes implemented
Short definition	Determining the number of Chrysallis graduates in the community
Decision of the second of the	safety outreach programmes
Purpose/importance	The provision of support to Chrysallis graduates in order to implement
Course / collection of data	the community safety outreach programmes
Source/collection of data	Reports
Method of calculation	Count
Data limitations	None
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Quarterly
New indicator	Yes
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Social Crime Prevention
Indicator responsibility Key risk	Sub-programme Manager: Social Crime Prevention Inadequate human resources
Indicator responsibility	Sub-programme Manager: Social Crime Prevention
Indicator responsibility Key risk Risk treatment measure	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated
Indicator responsibility Key risk Risk treatment measure Indicator title	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13
Indicator responsibility Key risk Risk treatment measure Indicator title	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide future gang interventions in identified high risk areas.
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide future gang interventions in identified high risk areas. Information will be collated from the stakeholder forum engagements,
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide future gang interventions in identified high risk areas. Information will be collated from the stakeholder forum engagements, minutes, SAPS crime statistics.
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide future gang interventions in identified high risk areas. Information will be collated from the stakeholder forum engagements, minutes, SAPS crime statistics. Count
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide future gang interventions in identified high risk areas. Information will be collated from the stakeholder forum engagements, minutes, SAPS crime statistics. Count High levels of gang violence in targeted communities which
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide future gang interventions in identified high risk areas. Information will be collated from the stakeholder forum engagements, minutes, SAPS crime statistics. Count High levels of gang violence in targeted communities which contributes to apathy of communities and lack of stakeholder
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide future gang interventions in identified high risk areas. Information will be collated from the stakeholder forum engagements, minutes, SAPS crime statistics. Count High levels of gang violence in targeted communities which contributes to apathy of communities and lack of stakeholder participation.
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide future gang interventions in identified high risk areas. Information will be collated from the stakeholder forum engagements, minutes, SAPS crime statistics. Count High levels of gang violence in targeted communities which contributes to apathy of communities and lack of stakeholder participation. Output
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide future gang interventions in identified high risk areas. Information will be collated from the stakeholder forum engagements, minutes, SAPS crime statistics. Count High levels of gang violence in targeted communities which contributes to apathy of communities and lack of stakeholder participation. Output Cumulative
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide future gang interventions in identified high risk areas. Information will be collated from the stakeholder forum engagements, minutes, SAPS crime statistics. Count High levels of gang violence in targeted communities which contributes to apathy of communities and lack of stakeholder participation. Output Cumulative Annually
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide future gang interventions in identified high risk areas. Information will be collated from the stakeholder forum engagements, minutes, SAPS crime statistics. Count High levels of gang violence in targeted communities which contributes to apathy of communities and lack of stakeholder participation. Output Cumulative Annually Yes
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide future gang interventions in identified high risk areas. Information will be collated from the stakeholder forum engagements, minutes, SAPS crime statistics. Count High levels of gang violence in targeted communities which contributes to apathy of communities and lack of stakeholder participation. Output Cumulative Annually Yes As per target
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide future gang interventions in identified high risk areas. Information will be collated from the stakeholder forum engagements, minutes, SAPS crime statistics. Count High levels of gang violence in targeted communities which contributes to apathy of communities and lack of stakeholder participation. Output Cumulative Annually Yes As per target Sub Programme Manager: Social Crime Prevention
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility Key risk	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide future gang interventions in identified high risk areas. Information will be collated from the stakeholder forum engagements, minutes, SAPS crime statistics. Count High levels of gang violence in targeted communities which contributes to apathy of communities and lack of stakeholder participation. Output Cumulative Annually Yes As per target Sub Programme Manager: Social Crime Prevention Non availability of information from stakeholder's forum
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide future gang interventions in identified high risk areas. Information will be collated from the stakeholder forum engagements, minutes, SAPS crime statistics. Count High levels of gang violence in targeted communities which contributes to apathy of communities and lack of stakeholder participation. Output Cumulative Annually Yes As per target Sub Programme Manager: Social Crime Prevention
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility Key risk Risk treatment measure	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide future gang interventions in identified high risk areas. Information will be collated from the stakeholder forum engagements, minutes, SAPS crime statistics. Count High levels of gang violence in targeted communities which contributes to apathy of communities and lack of stakeholder participation. Output Cumulative Annually Yes As per target Sub Programme Manager: Social Crime Prevention Non availability of information from stakeholder's forum An approved activity plan
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility Key risk	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide future gang interventions in identified high risk areas. Information will be collated from the stakeholder forum engagements, minutes, SAPS crime statistics. Count High levels of gang violence in targeted communities which contributes to apathy of communities and lack of stakeholder participation. Output Cumulative Annually Yes As per target Sub Programme Manager: Social Crime Prevention Non availability of information from stakeholder's forum An approved activity plan
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility Key risk Risk treatment measure Indicator title	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide future gang interventions in identified high risk areas. Information will be collated from the stakeholder forum engagements, minutes, SAPS crime statistics. Count High levels of gang violence in targeted communities which contributes to apathy of communities and lack of stakeholder participation. Output Cumulative Annually Yes As per target Sub Programme Manager: Social Crime Prevention Non availability of information from stakeholder's forum An approved activity plan 3.1.10 Number of community safety coordinators taken into the EPWP programme
Indicator responsibility Key risk Risk treatment measure Indicator title Short definition Purpose/importance Source/collection of data Method of calculation Data limitations Type of indicator Calculation type Reporting cycle New indicator Desired performance Indicator responsibility Key risk Risk treatment measure	Sub-programme Manager: Social Crime Prevention Inadequate human resources Additional resources will be allocated 3.1.9 Number of anti-gang strategies reviewed and re-designed To review gang interventions conducted during 2012/13 To evaluate and assess the impact of interventions in order to guide future gang interventions in identified high risk areas. Information will be collated from the stakeholder forum engagements, minutes, SAPS crime statistics. Count High levels of gang violence in targeted communities which contributes to apathy of communities and lack of stakeholder participation. Output Cumulative Annually Yes As per target Sub Programme Manager: Social Crime Prevention Non availability of information from stakeholder's forum An approved activity plan 3.1.10 Number of community safety coordinators taken into the EPWP programme Determining the number of community safety coordinators taken into

	the co-production of safety information and institutionalise the
Course / selles Bons of dolor	monitoring of policing functions by CPFs
Source/collection of data	Database
Method of calculation	Count
Data limitations	Dependence on CPFs
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Quarterly
New indicator	Yes
Desired performance	As per target
Indicator responsibility	Sub Programme Manager: Community Police Relations
Key risk	CPFs do not clearly understand their roles and functions in terms of
	their oversight role of monitoring policing functions
Risk treatment measure	Capacitation and relationship building with CPFs providing adequate
	technical support in terms of the web based system and the
	monitoring of policing functions
Indicator title	3.2.4 Number of performance audit tools developed
Short definition	To develop audit performance tools for CPFs on the Expanded
	Partnership Programme (EPP)
Purpose/importance	A measure of audit performance of EPP of EPP-CPFs
Source/collection of data	Tool for measuring and auditing performance
Method of calculation	Count
Data limitations	None
Type of indicator	Output
Calculation type	Non Cumulative
Reporting cycle	Annually
New indicator	Yes
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Community Police Relations
Key risk	None
Risk treatment measure	None
Indicator title	3.2.5 Number of performance audits of EPP CPFs
Short definition	To measure the organisational performance of EPP-CPFs
Purpose/importance	To address organisational performance of EPP-CPFs
Source/collection of data	Performance audit tool, report on performance of EPP-CPFs
Method of calculation	Count
Data limitations	CPF cooperation
Type of indicator	Output
Calculation type	Non cumulative
Reporting cycle	Quarterly
New indicator	Yes
Desired performance	As per target
Indicator responsibility	Sub-programme Manger: Community Police Relations
Key risk	CPFs do not clearly understand their roles and functions in terms of
	their oversight role of monitoring policing functions
Risk treatment measure	CPF capacitation on improving understanding of CPF roles, functions
	and relationship building and partnering with relevant stakeholders
Lead and a 190	2.2.4 November of CRF was 11 11 11
Indicator title	3.2.6 Number of CPF meetings attended
Short definition	To improve on the communication and support provided to CPFs by
	the Department through regular attendance of CPF meetings
- /• ·	I like manaray and and at a composition and a manaration of
Purpose/importance	The improvement of communication and support of CPFs by means of
	regular attendance of meetings
Source/collection of data	regular attendance of meetings Reports of meetings attended
	regular attendance of meetings

Tyme of indicator	Outout
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle New indicator	Quarterly
	Yes
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Community Police Relations
Key risk	Inadequate human capital resources
Risk treatment measure	Additional resources will be allocated
Indicator title	3.2.7 Number of public accountability meetings
Short definition	To faciliate regular public accountability meeting held with SAPS, CPFs and the community to gather safety information and to provide for a forum at which communities may register afety concerns
Purpose/importance	To provide communities with an opportunity to engage SAPS, the Department and CPFs about safety concerns within their communities which links to the policing needs and priorities of a community
Source/collection of data	Reports on public accountability meetings
Method of calculation	Count
Data limitations	None
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Quarterly
New indicator	No
Desired performance	As Per target
Indicator responsibility	Sub Program Manager: Community Police Relations
Key risk	CPFs do not clearly understand their roles and functions in terms of
1.0, 1.0.1	their oversight role of monitoring policing functions
Risk treatment measure	CPF capacitation on improving understanding of CPF roles, functions
	and relationship building and partnering with relevant stakeholders

Data limitations	None
Type of indicator	Activity
Calculation type	Non-Cumulative
Reporting cycle	Quarterly
New indicator	Yes
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Promotion of Safety
Key risk	Budgetary constraints
Risk treatment measure	Pre-emptive budgeting and planning
Indicator title	3.3.2 Number of social crime prevention programmes implemented*
Short definition	The implementation of integrated social crime prevention initiatives
Purpose/importance	To implement whole-of-society social crime prevention initiatives with municipalities, communities, social cluster departments and civil society institutions in order to contribute to an enabling environment in which crime is less likely to happen
Source/collection of data	Business plans, project reports
Method of calculation	Count
Data limitations	None
Type of indicator	Activity
Calculation type	Cumulative
Reporting cycle	Quarterly
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Social Crime Prevention
Key risk	Staff and budget constraints
Risk treatment measure	Approval of business plan which addresses risk

^{*} National Sector Specific Indicators

PROGRAMME 4 – TRAFFIC MANAGEMENT

	SUB-PROGRAMME 4.1: PROGRAMME SUPPORT
Indicator title	4.1.1 Number of fully effective performance assessments of the CD:
	Traffic Management
Short definition	To provide management and strategic leadership to the Programme
Purpose/importance	This objective will ensure the optimal functioning of the Programme
Source/collection of data	Performance Agreement of CD: Traffic Management, Quarterly
	Assessments of the CD: Traffic Management
Method of calculation	Count
Data limitations	Confidentiality
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Annually
New indicator	No
Desired performance	As per target
Indicator responsibility	Programme Manager: Traffic Management
Key risk	Non-achievement rating
Risk treatment measure	Active monitoring of set targets
	SUB-PROGRAMME 4.2: TRAFFIC LAW ENFORCEMENT
Indicator title	4.2.1 Number of speed operations conducted *
Short definition	Manual form of speed timing operations at identified locations within
Daniel de la Constantina del Constantina de la Constantina del Constantina de la Con	the province
Purpose/importance	Enforce speed compliance to reduce road crashes
Source/collection of data	Plan and Report
Method of calculation	Manual count
Data limitations	Reports not submitted timely
Type of indicator	Output Non-Cumulative
Calculation type Reporting cycle	
New indicator	Quarterly Yes
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Traffic Law Enforcement
Key risk	Equipment failure
Risk treatment measure	Development of a Standard Operating Procedure/Service Level
KISK II CHIII CIII III CASOIC	Agreement for repair and replacement of speed equipment
	A STATE OF THE PAIR CITE OF THE STATE OF THE
Indicator title	4.2.2 Number of K78 roadblocks held *
Short definition	It is a multi- disciplinary road blocks according to National Standards
Purpose/importance	To enhance driver and vehicle fitness thereby contributing to crime
-	prevention
Source/collection of data	Manual or Electronic data base
Method of calculation	Manual count
Data limitations	Timely submission of reports
Type of indicator	Output
Calculation type	Non-Cumulative
Reporting cycle	Quarterly
New indicator	New
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Traffic Law Enforcement
Key risk	Participation of stakeholders
Risk treatment measure	Relationship building
Indicator title	4.2.3 Number of hours weighbridges operated *
Short definition	The number of hour weighbridges operated
	I To reduce the exertentian and protect the read infrastructure
Purpose/importance Source/collection of data	To reduce the overloading and protect the road infrastructure Report from overloading control systems

Method of calculation	Electronic and manual count
Data limitations	Electronic data lost /system errors
Type of indicator	Output
Calculation type	Non-Cumulative
Reporting cycle	Quarterly
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Traffic Law Enforcement
Key risk	Equipment failure
Risk treatment measure	Memorandum of Agreement with Department of Transport and Public
	Works
Indicator title	4.2.4 Number of road side vehicle check point operations *
Short definition	Vehicle check point where drivers and vehicles are stopped and
	checked for compliance with various legislations
Purpose/importance	To change road users behaviour
Source/collection of data	Counting sheets for check points operations (WC = Plan & Report)
Method of calculation	Manual count
Data limitations	Incorrect capturing of information
Type of indicator	Output
Calculation type	Non-Cumulative
Reporting cycle	Quarterly
New indicator	Yes
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Traffic Law Enforcement
Key risk	Emergency re-deployment of officials
Risk treatment measure	-
Indicator title	4.2.5 Number of road user compliance reports
Short definition	Report on actual Traffic Law Enforcement activities in relation to
	planned activities as in the provincial operational plan
Purpose/importance	To monitor and evaluate the activities and outputs of the Traffic
. or posse, importantes

Key risk	Access to institutions
Risk treatment measure	Partnerships and co-ordination
Indicator title	4.3.2 Number of schools involved in road safety education programme *
Short definition	The number of schools which participate in road safety education programmes (this include schools presently participating and new
	schools which will be brought on board)
Purpose/importance	To educate learners in road safety
Source/collection of data	Programmes and reports
Method of calculation	Manual count
Data limitations	Non accurate reporting
Type of indicator	Input
Calculation type	Non-Cumulative
Reporting cycle	Annually
New indicator	No
Desired performance	To reach out to all schools with regard to road safety education
	programmes
Indicator responsibility	Sub-programme Manager: Road Safety Management
Key risk	Access to institutions
Risk treatment measure	Partnerships and co-ordination
Indicator title	4.3.3 Number of education interventions conducted
Short definition	The number of presentations of Safety in Traffic Education Programme
	(STEP), and learner license training for under-privileged persons
Purpose/importance	To highlight the number of STEP presentations made that impart skills
	to educators to teach road safety as a life skill to learners and the
	number of learner licence programmes presented
Source/collection of data	Attendance registers/Audit report forms
Method of calculation	Count
Data limitations	None
Type of indicator	Activity
Calculation type	Non-Cumulative
Reporting cycle	Quarterly
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Road Safety Management
Key risk	Access to institutions
Risk treatment measure	Partnerships and co-ordination
Indicator title	4.3.4 Number of Integrated Development Plans (IDPs) assessed
Short definition	Assessments done on local authority integrated development plans in relation to road safety
Purpose/importance	To assess all IDPs to highlight road safety matters and influence the
	inclusion thereof in those not addressing such
Source/collection of data	IDP Documents
Method of calculation	Count
Data limitations	None
Type of indicator	Activity
Calculation type	Non-Cumulative
Reporting cycle	Annually
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Road Safety Management
Key risk	Non/timeous availability of draft IDPs
Risk treatment measure	Engage Department of Local Government
* National Sector Specific	

^{*} National Sector Specific Indicators

	SUB-PROGRAMME 4.4: TRAFFIC TRAINING AND DEVELOPMENT
Indicator title	4.4.1 Number of formal training courses
Short definition	Indicate the number of formal training interventions: Traffic Officer
	(TO) training, Examiner for Driver Licenses, Examiner of Vehicles
Purpose/importance	To enhance the competency level of officers through training
	interventions offered
Source/collection of data	Attendance Registers, Course Programme, Results
Method of calculation	Count (based on date of conclusion of course) for EDL & EOV; start date for TO)
Data limitations	None
Type of indicator	Activity
Calculation type	Cumulative
Reporting cycle	Quarterly
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Traffic Training and Development
Key risk	Budgetary constraints from clients
Risk treatment measure	Flexible training programme
Indicator title	4.4.2 Number of reports on training courses
Short definition	Report on formal and informal training courses provided based on
	needs analysis and ad hoc requests
Purpose/importance	The enhancement of professionalism through training interventions
	and address training needs of traffic officers
Source/collection of data	Attendance registers, course reports and needs analysis reports
Method of calculation	Count
Data limitations	(1)Insufficient or incorrect information
	(2)Timeous submission
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Quarterly
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Traffic Training and Development
	Sub-programme Manager: Traffic Training and Development (1)Insufficient or incorrect information
Indicator responsibility	Sub-programme Manager: Traffic Training and Development

PROGRAMME 5 – SECURITY RISK MANAGEMENT

	SUB-PROGRAMME 5.1: PROGRAMME SUPPORT
Indicator title	5.1.1 Number of Provincial Transversal security managers forums
	supported
Short definition	To support and maintain a forum to discuss transversal security risk
	management issues affecting WCG departments
Purpose/importance	Standardisation of safety and security risk management issues
	affecting WCG departments
Source/collection of data	Minutes of meetings, quarterly progress reports
Method of calculation	Count
Data limitations	None
Type of indicator	Activity
Calculation type	Cumulative
Reporting cycle	Quarterly
New indicator	No
Desired performance	As per target
Indicator responsibility	Programme Manager: Security Risk Management
Key risk	Non communication of value
Risk treatment measure	Communication protocol
	SUB-PROGRAMME 5.2: PROVINCIAL SECURITY OPERATIONS
Indicator title	5.2.1 Number of Western Cape Government institutions assisted with
	the management of outsourced security services
Short definition	To assist WCG institutions with the contract management of
	outsourced security services
Purpose/importance	To assist with the management of outsourced security service
. o.p.o.o,p.o	contractors more proactively and optimise all direct spending by
	WCG departments
Source/collection of data	Monthly reports, minutes of meetings
Method of calculation	Count
Data limitations	None
Type of indicator	Output
Calculation type	Non-Cumulative
Reporting cycle	Quarterly
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Provincial Security Operations
Key risk	Deviation from the internal process
Risk treatment measure	Sample testing
Misk irediffielli ffiedsore	
Indicator title	5.2.2 Number of buildings at which the safety index is implemented
Short definition	Implementation of the risk index
Purpose/importance	To measure the safety compliance of buildings and have an
	objective measurement instrument
Source/collection of data	OHS risk index
Method of calculation	Count
Data limitations	None
Type of indicator	Output
Calculation type	Non-cumulative
Reporting cycle	Quarterly
New indicator	Yes
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Provincial Security Operations
Key risk	Skills
Risk treatment measure	
kisk frediment medsure	Capacity building
	5.2.2. Number of general control control and an arranged
Indicator title Short definition	5.2.3 Number of access control system reports generated
SHORT CATIDITION	Generate access control reports from the access control system
Purpose/importance	To monitor unauthorised access to increase safety

Source/collection of data	Access control reports
Method of calculation	Count
Data limitations	System offline
Type of indicator	Output
Calculation type	Non-Cumulative
Reporting cycle	Quarterly
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Provincial Security Operations
Key risk	Technical skills
Risk treatment measure	Capacity building
	SUB-PROGRAMME 5.3: SECURITY ADVISORY SERVICES
Indicator title	5.3.1 Number of safety and security plans reviewed
Short definition	The implementation of safety and security methodologies to facilitate
	the review of safety and security plans
Purpose/importance	To facilitate an updated safety and security plan for each
	department to increase safety
Source/collection of data	Review methodology
Method of calculation	Count
Data limitations	None
Type of indicator	Output
Calculation type	Non-cumulative
Reporting cycle	Quarterly
New indicator	No
Desired performance	As per target
Indicator responsibility	Sub-programme Manager: Security Advisory Services
Key risk	Skills
Risk treatment measure	Capacity building
Indicator title	5.3.2 Number of departments at which the implementation of the Security index is facilitated
Short definition	Number of WCG departments where levels of safety and security is determined and gaps mitigated
Purpose/importance	Obtain objective safety and security measurement and implement counter measures
Source/collection of data	Safety and security index
Method of calculation	Count
Data limitations	None
Type of indicator	Output
Calculation type	Non cumulative
Reporting cycle	Quarterly
New indicator	Yes
Desired performance	
Indicator responsibility	As per target
	Sub-programme manager: Security Advisory Services
Key risk	Lack of skills to manage the implementation of the security index
Risk treatment measure	Capacity building
