

Vote 10

Department of Transport and Public Works

	2016/17 To be appropriated	2017/18	2018/19
MTEF allocations	R6 788 528 000	R7 052 006 000	R7 227 164 000
Responsible MEC	Provincial Minister of Transport and Public Works		
Administering Department	Department of Transport and Public Works		
Accounting Officer	Head of Department, Transport and Public Works		

1. Overview

Vision

To lead in the delivery of government infrastructure and related services.

Mission

The Department of Transport and Public Works delivers infrastructure and services to promote socio-economic outcomes and safe, empowered and connected communities.

Main Services and Core functions

The core functions of the Department are to deliver a transport system inclusive of the provincial road network, social and economic infrastructure; and to optimally utilise the provincial property portfolio (excluding human settlements property).

Main services of the Department are the following:

Construction and maintenance of education, health and general buildings facilities and provincial road network infrastructure.

Administration of motor vehicle licences, vehicle fitness testing and driver testing.

Administration of public transport operating licences.

Monitoring of subsidised bus services.

Establishment of subsidised public transport services.

Offering of bursaries to study in the engineering and built environment sector.

Construction related skills development.

Utilisation of the immovable asset portfolio to the benefit of the public.

Provision of traffic law enforcement services.

Facilitation of road safety education, communication and awareness.

Provision of training and development opportunities to traffic policing and other law enforcement officials.

Performance environment

Key demands for services are as follows:

Creating opportunities for growth and jobs through:

Maintenance and provision of sustainable general building infrastructure.

Construction and maintenance of sustainable, integrated transport infrastructure that is safe, accessible and affordable.

Construction industry innovation and empowerment and the provision of Expanded Public Works Programme (EPWP) work opportunities for youth, women and people with disabilities.

Skills development through built environment related trade programmes and contractor development programmes.

Improving education outcomes and opportunities for youth development through:

Youth related programmes, including the National Youth Service and road safety education and awareness at schools.

Investment in development of scarce built environment skills through the Masakh'iSizwe Bursary Programme.

Delivery of enabling education facilities and the provision of office accommodation to support the education system (implementing agent).

Increase wellness, safety and reducing social ills through:

Delivery of enabling health facilities and the provision of office accommodation to support the health system (implementing agent).

Promoting transport safety through the public transport safety implementation programme, Safely Home projects, traffic law enforcement training and public transport law enforcement by amongst others:

Delivering effective and efficient traffic law enforcement by providing a 24/7 traffic law enforcement operational service.

Focusing on driver fitness, moving violations, vehicle fitness, pedestrian safety, and crime prevention.

Conducting road safety education and awareness interventions designed to educate citizens on road safety matters but ultimately to address the root causes of traffic offences.

Developing a professional traffic policing workforce through formal, informal and refresher training interventions.

Enabling a resilient, sustainable, quality and inclusive living environment through:

Investing in the George Integrated Public Transport Network, subsidised bus contract services and the monitoring of the performance thereof, as well as assisting people with special needs.

Ensuring a safe and appropriately regulated vehicle and driver population through compliance inspections to combat fraud at vehicle and driver testing centres.

Weighing of vehicles to minimise road damage, promote legal compliance and improve road safety.

Providing a public transport operator and motor vehicle licensing service.

Investment in the Cape Town Central City Regeneration Programme, portfolio management of the immovable assets of the Province, and ongoing modernisation of office accommodation.

Organisational environment

Against the backdrop of a weakened economic environment Government endorsed strong measures to restore a sustainable fiscal path. These measures entail addressing inefficiencies and curtailing compensation of employee expenditure. As a consequence:

Upper limits have been set for compensation of employee expenditure.

The staff establishment in accordance with the approved organisational structure that became effective 1 October 2013 will not fully materialise.

Although the organisational structure has not been affected, maneuverability is only permissible within said limitations.

Substantial work needs to be done to balance delivery expectations with the affordable staff establishment.

Road Network Management and Traffic Management organisational structures are under review.

The labour market, in relation to professionals in the built sector, continues to provide significant challenges in relation to responding adequately to job offers. Consequently, the Department continues to be reliant on aging experienced professionals on the one hand and incoming graduates with limited, if any, experience on the other, requiring the procurement of expertise from the private sector which places pressure on scarce resources.

Acts, Rules and Regulations

Key legislation regulating the Department's operational functions is the following:

Administrative Adjudication of Road Traffic Offences Act, 1998 (Act 46 of 1998)

Broad-Based Black Economic Empowerment Act, 2003 (Act 53 of 2003)

Criminal Procedure Act, 1977 (Act 51 of 1977)

Construction Regulation R1010 of 2003 (for compliance to occupational health and safety within the construction industry)

Construction Industry Development Board Act, 2000 (Act 38 of 2000)

Control of Access to Public Premises and Vehicle Act, 1985 (Act 53 of 1985)

Division of Revenue Act (annual)

Expropriation Act, 1975 (Act 63 of 1975)

General Conditions of Contract (2010)
Government Immovable Asset Management Act, 2007 (Act 19 of 2007)
National Building Regulations and Building Standards Act, 1977 (Act 103 of 1977)
National Environmental Management Act, 1998 (Act 107 of 1998)
National Land Transport Act, 2009 (Act 5 of 2009)
National Road Traffic Act, 1996 (Act 93 of 1996)
Occupational Health and Safety Act, 1993 (Act 85 of 1993)
Preferential Procurement Policy Framework Act, 2000 (Act 5 of 2000)
Road Ordinance 19 of 1976 and Advertising along Roads and Ribbon Development Act, 1940 (Act 21 of 1940)
Road Safety Act, 1972 (Act 9 of 1972)
Road Transportation Act, 1977 (Act 74 of 1977)
Road Traffic Act, 1989 (Act 29 of 1989)
Road Traffic Management Corporation Act, 1999 (Act 20 of 1999)
Skills Development Act, 1998 (Act 97 of 1998)
Western Cape Toll Road Act, 1999 (Act 11 of 1999)
Western Cape Land Administration Act, 1998 (Act 6 of 1998)
Western Cape Provincial Road Traffic Administration Act, 2012 (Act 6 of 2012)
Western Cape Transport Infrastructure Act, 2013 (Act 1 of 2013)

Aligning departmental budgets to achieve Government's prescribed outcomes

The Department's performance environment is governed by five Provincial Strategic Goals (PSG) that are aligned to the National Development Plan (NDP), the Medium Term Strategic Framework, Provincial Strategic Plan and Departmental Strategic Objectives.

The NDP emphasises the aspects of transport and infrastructure in relation to improved access, greater mobility, economic infrastructure, expanding the economy and economic development.

The Department's response (encapsulated in Programmes 1, 3, 4, 5 and 6) in relation to transport, includes but is not limited to the following:

- Integrated transport planning – Provincial Land Transport Framework and Integrated Transport Plans.
- Road safety initiatives – average-speed-over distance implementation, awareness campaigns, fatigue management interventions, training programmes and provincial traffic services.
- Rural access and mobility – George Integrated Public Transport Network.
- Road infrastructure maintenance and construction (economic infrastructure).

The Department's response (encapsulated in Programmes 1, 2, and 6) in relation to other infrastructure, includes but is not limited to the following:

- Western Cape Infrastructure Framework and concomitant plans.

Optimal utilisation of the provincial immovable asset portfolio.

Collaborative investment through Public Private Partnerships – Cape Town Central City Regeneration Programme.

Construction and maintenance of social and general infrastructure – health and education facilities as well as general buildings.

2. Review of the current financial year (2015/16)

Given the diverse nature of the business and service delivery of this Vote the construct of the review has been organised in accordance with the programme structure, with the exception of some cross functional matters.

From a resource input perspective, the investment made in capacitating the Department through the filling of vacancies in a phased approach targeting the positions that promote integrated service delivery and good governance, has not yet yielded the required results due to slower than expected filling of posts. This situation has been aggravated by the weak economic climate that is being experienced and the consequential compulsory saving enforced upon compensation of employee expenditure.

Empowerment remains high on the development agenda and cross-cuts functions and programmes. The creation of jobs and opportunities for people, as well as strengthening scarce skills in the built environment was consequently supported through various empowerment programmes, the results of which are listed below.

53 staff members were supported through the Staff Bursary Scheme and 853 through the Work Place Skills Plan aimed at improving the academic qualifications and skills of the personnel core of the Department.

248 students were supported through the Masakh'iSizwe Bursary Programme aimed at succession, building and strengthening the transport, engineering and built environment sectors' professional capacity of the Department.

In support of infrastructure delivery; the Graduate Professional Civil Engineering Programme, supported by mentors to facilitate the proper training and retention of graduates continued. Five Engineers and two Engineering Technicians met the minimum requirements for professional registration with the Engineering Council of South Africa and have subsequently registered as professionals within the specific occupations, whilst a further four graduates have submitted their applications for registration. Four Engineers and one Engineering Technician from the Programme have, after registration, been permanently employed within the Department. It is expected that a further five graduates will join the programme in February 2016.

The Professional Development Programme (PDP) continued with the development of employees who are incumbents of occupation specific dispensation posts. This includes candidate engineers and architects who require training and development under the supervision of professionally registered mentors as well as the coordination and facilitation of maintenance of registration through continuing professional development. Furthermore, the Programme also assisted individuals with regards to registration and/or re-registration with their relevant professional bodies. Two Architectural Technologists, one Architect, one Mechanical Engineering Technician, one Mechanical Engineer and one Electrical Engineering Technician registered as professionals with the relevant professional bodies.

Apprentices attend the Provincial Training Centre in Bellville South and also a technical college where they achieve the various training levels of the National Technical Certificate (NTC) which incorporated with invaluable practical training, enables them to qualify as Artisans after four years, i.e. after completion of the prescribed examinations, inclusive of practical assessment by MERSETA. 15 Mechanical Artisans completed their training through the Apprenticeship Programme. Four Artisans from the Programme were permanently employed within the Department after registration. Three additional apprentices joined the Programme in July 2015, bringing the total number of apprentices to 20.

162 contractors were further developed through the Contractor Development Programme.

Internship programmes:

255 learners participated in Learnership Programmes for construction related trades in 2015/16.

51 contractors participated in a ten week structured training programme and 34 contractors participated in a four-week municipal-based training programme.

63 interns were accepted from the Premier's Advancement of Youth (PAY) project which has the aim of providing matriculants with meaningful workplace experience.

Formal training of all authorised officers (traffic officers, examiners of vehicles and examiners for driving licences) and informal training programmes within the province for traffic law enforcement officers:

43 traffic law enforcement officers successfully completed the traffic officers training programme of which 29 were Provincial Traffic Officers and 14 from various local traffic authorities.

Programme 1 – Administration

Supply Chain Management (SCM), is core to the business of the Department, which is infrastructure delivery focused. To enhance the effectiveness of SCM further investment was made in inventory management, training, and implementation, review and refinement of the Infrastructure Delivery Management System (IDMS) processes related to construction procurement.

To improve the efficiency and effectiveness of departmental knowledge, a knowledge management strategy and implementation plan was developed.

The Department embraced the Western Cape Corporate Governance Review and Outlook Strategy which resulted in "clean audit" outcomes for 2014/15.

A complete review of the Provincial Land Transport Framework (PLTF) was undertaken. The strategic intent of the review was to ensure that the frameworks for transport and land-use related provincial decision-making was aligned with the new Provincial Strategic Goals , as well as strengthen the strategic, tactical and operational response to the 2015/16 – 2019/20 Provincial Strategic Plan. In collaboration between Programmes 1 and 4, the development of a Provincial Public Transport Institutional Framework (PPTIF) was pursued with the primary aim of addressing the key constraints to improving both public and non-motorised transport in the non-Metro areas of the Western Cape. This approach aims to incorporate lessons learnt through the implementation of public transport improvement initiatives in South Africa, particularly in George and Cape Town.

The Department supported District and Local Municipalities with the development and review of their integrated transport plans. This development and review process took place over the 2014/15 and 2015/16 financial years respectively.

Infrastructure investment remains a pivotal enabler of socio-economic development involving all three spheres of government, other government agencies (including parastatals) and state-owned entities. It requires the strategic alignment and sequencing of planning and budgeting processes across sectors, space, and timeframes to ensure that the provincial medium to long term goals are achieved. The Western Cape Infrastructure Framework (WCIF), which defines a long term policy position on integrated infrastructure planning, was developed in collaboration with the respective District Municipalities. The Department commenced with the tactical translation of the WCIF into District Infrastructure Plans (DIP) which present the status quo analysis of the demographics and economic growth of Local Municipalities in a designated District Municipality. The DIPs provide an overview of the current provision of infrastructure related services and provides strategic direction to planning and implementing agents in their prioritisation and decision-making processes. Adding to the integrated regional management information the Integrated Transport Planning process will be incorporated and aligned to realise the policy prioritisation of a modal shift from private vehicles to public transport.

Programme 2 – Public Works Infrastructure

Progress on the Cape Town Central City Regeneration Programme projects:

The Government Motor Transport (GMT)-Top Yard project was registered as a PPP with the National Treasury (NT) during January 2015. In March 2015, the feasibility study was submitted for Treasury Approval (TA) 1, and approval was subsequently granted on 7 August 2015.

The Alfred Street-Prestwich Precinct and Helen Bowden Nursing Home (HBNH) - Somerset Precinct PPP projects, are currently in the feasibility stages of the PPP cycle and application for TA I for the HBNH project will be made during the 2016/17 financial year.

An in-depth assessment was undertaken on the Sea Point Main Road property and the recommendation from that assessment was that the property be offered to the market for an outright sale. The property was advertised for outright disposal on 8 May 2015 and the tender closed on 9 June 2015. During November 2015 the Provincial Cabinet granted approval for the disposal of the property to the successful bidder.

The development of a "Better Living Model" (BLM) is one of the key Game Changer interventions of the Provincial Government. In support of this project, the former Conradie Hospital site was approved to serve as a pilot development specifically to test and implement the concepts of the "Live, Work and Play" ideal. The Project is carried out in collaboration with the City of Cape Town and a host of stakeholders. The Integrated "Better Living Model" seeks to efficiently design, fund and develop the former Conradie Hospital site as a residentially led, integrated and affordable development with the intention of establishing key replicable levers to unlock state property.

Municipalities are dependent on the cash inflow from service and property rates accounts to deliver services to the community. As a significant customer of the municipalities, these accounts were paid promptly to support and sustain the cash inflow to municipalities.

The planned acquisition (purchasing) of properties was mainly directed towards supporting the health and education delivery systems.

The leasing-in of office accommodation is capped at the current provisions for existing leases. New leases will not be entered into unless the client department bears the cost related to such leases.

Efforts to optimise office space utilisation across the Province continued in the form of the office Modernisation Programme. This Programme is directed at improving space utilisation efficiency and improving all accommodation related cost efficiencies. Modernisation projects were executed in the Cape

Town, Cape Winelands and Eden regions. Overall space saving of office Modernisation projects completed to date amount to a 40.5 per cent saving, as reported in the Property Efficiency Report Issue number 3 published in May 2015.

Incorporating water-wise and energy-saving technologies into the design of new education, health and general building facilities continued as the Green Building initiatives are integrated into projects.

Programme 3 – Transport Infrastructure

Apart from ongoing optimisation of its road asset investment programme and exercising land-use access control procedures, road network planning was facilitated through Integrated Transport Planning (ITP) engagements and one-on-one engagements with the Stellenbosch Municipality Transport Workgroup. Ongoing liaison with key stakeholders such as Transport for Cape Town (TCT) and the South African National Road Agency (SANRAL) was maintained.

At project level, environmental assessments and implementation agreements with other municipal and national authorities, including agencies such as the Passenger Rail Agency of South Africa (PRASA) were facilitated.

The following key construction and maintenance projects commenced and/or were undertaken during the year under review to improve the preservation and condition of the road network:

Rehabilitation of Main Road 298 from Wyzersdrift to Worcester through Rawsonville

Rehabilitation of Divisional Road 1108 between Old Paarl Road and Agter-Paarl

Rehabilitation of Trunk Road 31 between Ashton and Montagu

Rehabilitation of Main Road 332 between the N2 and Stilbaai

Rehabilitation and upgrade of the N2 between Borcherts Quarry and Swartklip Interchange

Rehabilitation and upgrade of the N1 between Durbanville Interchange and Old Oak Interchange

Rehabilitation of Main Road 215 between Mamre and Yzerfontein

Rehabilitation of Main Roads 230 and 231 near Moorreesburg

Rehabilitation of Divisional Road 1111 between Kalbaskraal and Malmesbury.

Planning continued for the upgrade of the Wingfield Interchange on the N1/N7, and the first phase detailed design of the extensions to the road network in support of the Saldanha Bay Industrial Development Zone.

An investigation into the economic and operational efficiency of the present regional road maintenance model, whereby the District Municipalities act as service providers to maintain provincial roads, began.

The drafting of the Subsidy and Planning sub-regulations of the Western Cape Transport Infrastructure Act, 2013 (Act 1 of 2013) was completed.

The 2015/16 data to be used in the next version of the bi-annual asset preservation report that informs the status of provincial roads and the effect of the planned and current investment in roads on future generations, was compiled for analyses. Draft Business Processes for the Upgrade, Rehabilitation, Reseal and Gravel Road Maintenance programmes were concluded for further ratification.

Programme 4 – Transport Operations

The Department drove efforts to improve public and non-motorised transport improvement in the Western Cape. During the 2015/16 financial year, the Department implemented a range of road and rail transport safety initiatives.

Continued to roll-out a high quality public transport network (GoGeorge/GIPTN) in George, enhancing the quality of life for the people of George. This has been achieved through a partnership with the George Municipality and the National Department of Transport.

Continued with the development of the Provincial Public Transport Institutional Framework (PPTIF), in order to move toward partnerships with selected priority municipalities.

Continued to effectively manage and monitor a subsidised bus operator and the associated Public Transport Operations Grant (PTOG), until such time as the function shifts to the City of Cape Town.

Began to improve the strategic approach of the Department to rail, through joint efforts with Programme 1 - Administration.

Programme 5 – Transport Regulation

In an attempt to sustain the downward trend in road deaths and improve safety, the following were undertaken through the Safely Home Programme activities and traffic law enforcement:

Executed traffic law enforcement through, inter alia, Average Speed Over Distance (ASOD) and automatic number plate recognition technology.

Held road safety awareness campaigns and implemented fatigue management interventions.

Law enforcement efforts included activities to reduce the impact of alcohol and drug abuse in support of initiatives undertaken by other departments in the Province.

Integrated and visible traffic law enforcement operational planning and coordination on the national and provincial road network was conducted in order to ensure legal compliance in respect of freight and passenger transport and a safer road environment.

Conducted an impact assessment of the Fatigue Management Programme on road crash fatalities involving minibus taxis on the N1 between Laingsburg, Beaufort West and Aberdeen in the Western Cape to determine further roll-out possibilities within the Province.

Continued with the regulation and registration of minibus taxi drivers, associations and members.

Initiated the design of a Public Transport Marking (identification) System.

The Gene Louw Traffic College continued to deal with various learning areas, amongst others: Examiner of Vehicles (EOV), Examiner of Driving Licences (EDL), refresher training, Field Training Officer and Firearm training.

The Gene Louw Traffic College explored the implementation of the e-Learning programme which is linked to compulsory refresher training for all authorised officers in the Province.

Furthermore, the new facilities for Driving Licence K53 track and the Vehicles testing pit area were completed.

A review of the regulatory and policy environment of the metered taxi industry, inclusive of e-hailing services, was initiated in consultation with the national Department of Transport and the City of Cape Town.

Development of a Provincial Information System with regards to land transport and aligned to relevant legislation and prescripts was initiated in partnership with the State Information Technology Agency (SITA) and the Centre for e-Innovation (Ce-I) in the Department of the Premier.

In response to on-going taxi related violence, the initiative to formalise a Conflict Management Action Plan (CMAP) in partnership with the City of Cape Town and the South African Police Services (SAPS) continued. The CMAP documents the roles and responsibilities of the Department, the Provincial Regulatory Entity (PRE), the Provincial Transport Registrar, traffic law enforcement and the SAPS in managing conflict in order to prevent violent conflict. It also sets out roles, responsibilities and procedures to be followed in cases of violent conflict and criminal actions between operators and associations.

Programme 6 – Community Based Programmes

Executing the significant role as coordinator of the Expanded Public Works Programme in the Province which aims to provide work opportunities for youth, women, and people with disabilities, continued. The Empowerment Impact Assessment (EmplA) tool is embedded in the Departmental Preferential Procurement Implementation Plan and was used to inform the design and construction process of specific projects in excess of R5 million. In 2015/16 financial year ten Empowerment Impact Assessments were conducted and 25 Empowerment Target Implementation Reports (ETIR) were produced on departmental infrastructure projects.

Empowerment and skills programmes are the focus areas of this Programme including the National Youth Service, Contractor Development Programmes, artisan training and learnerships, the results of which have already been indicated earlier.

2. Outlook for the coming financial year (2016/17)

Programme 1 – Administration

The Department will continue to actively participate in the PSG context and respective workgroups to ensure the alignment of infrastructure delivery between the spheres of Government that promotes economic growth in a sustainable manner.

In line with the National Evaluation Plan and the Provincial Evaluation Plan, the development and implementation of the Departmental Evaluation Plan will continue over the MTEF. A total of six implementation programme evaluations are scheduled, with a further four in the planning stages.

With the attainment of a mature system to ensure a clean audit of pre-determined objectives, the implementation of the outcomes monitoring system intends tracking the outcomes of programmes, thus shifting the focus from compliance to performance.

Endeavour to maintain the “clean audit” outcome status.

Elevation of the finance maturity levels to the next capability intermediate level.

In the IDMS environment explore/ pilot and implement alternative procurement and delivery strategies to accelerate infrastructure delivery and mitigate associated infrastructure delivery risks.

The Masakh'iSizwe Bursary- and Professional Development Programmes will continue to address the skills shortage of registered professionals in the transport, built and engineering environment by creating a feeding pipeline of a skilled and capable workforce. The underlying principles of these Programmes are empowerment, mentoring and collaboration with the Higher Education Institutions, parastatals, private sector and other spheres of government to share and/or transfer expertise and pull together resources to maximise efficiency and quality to improve socio-economic conditions.

Programme 2 – Public Works Infrastructure

Work will continue on the six selected Cape Town Central City Regeneration Programme projects.

The GMT-Top Yard project is likely to be released to the market in the form of a PPP and will progress to the procurement stage. This is dependent on timeous approvals granted by the NT. Alfred Street-Prestwich Precinct and HBNH - Somerset Precinct PPP projects, are currently in the feasibility stages of the PPP cycle, and application for TA I for the HBNH project will be made during the 2016/17 financial year.

Further, work on the Head Office Accommodation PPP project will continue with the finalisation and signing of a PPP agreement with the private party, obtaining TA III approval from the NT and setting up the contract management regime for both pre- and post-construction periods.

Newly identified under-utilised properties will be evaluated with regard to their development potential. Planned and completed enablement activities such as construction and rezoning will continue with the aim to stimulate infrastructure growth.

The work on the BLM will continue to progress in accordance with set timelines.

The BLM project team deliverables for the 2016/17 financial year will include: securing of grant funding, undertaking the relevant impact assessments, Odin/Aerodrome Road extension and Elsieskraal River floodline studies, commencing with the statutory public participation process, completing the development framework and feasibility reports and obtaining Cabinet approval to proceed into the procurement phase of the project.

Renewed effort will be directed towards analysing the provincial property portfolio and releasing the true residual part of the portfolio to better enhance the provision of social infrastructure by the Western Cape Government.

Condition assessments of the provincial immovable asset portfolio are implemented as required to ensure longevity of provincially owned building infrastructure as well as to address essential health and safety considerations. The intention is to implement an integrated management system that will assist with the life cycle management of the immovable asset portfolio.

Infrastructure projects related to planning, additions, renovations, refurbishments and maintenance of general building infrastructure that will be undertaken are listed in Annexure A.5.1. The infrastructure budget provisions for education and health facilities are vested in Votes 5 and 6 respectively in the Provincial Estimates of Revenue and Expenditure, 2016. The construction and maintenance project lists are annexed to those Votes. The Department will continue to perform as implementing agent in the execution of those projects.

Efforts to optimise office space utilisation across the Province will continue in the form of the Modernisation Programme, in order to align office space allocations with the latest national norms and standards and to develop effective and efficient workplace environments that contribute positively to staff performance and productivity. This Programme is expected to improve space utilisation efficiency by up to 40 per cent. Modernisation projects will continue to be executed in the Cape Town, Cape Winelands and Eden regions.

Programme 3 – Transport Infrastructure

The road network is the life-blood of the economy. Construction and maintenance projects to be undertaken to improve the preservation and condition of the road network are listed in Annexure A.5.2.

The investment road infrastructure aims to preserve surfaced roads, gravel roads and bridges and to prevent the accumulation of backlogs. The investment also aims to upgrade roads from gravel to surfaced

standard as well as to improve hazardous locations to achieve a downward trend in road deaths and improve safety.

The identified projects to promote economic growth will continue in various stages of implementation. The Borcherd's Quarry Interchange on the N2; and the addition of a 3rd lane on the N1 at Durban Road Interchange are under construction. The phase 1 construction on the extensions to the road network in support of the Saldanha Bay Industrial Development Zone will go out on tender for commencement during 2017/18. The conceptual and detailed design for the upgrade of Wingfield Interchange on the N1/N7 will commence during 2016/17.

Road construction and maintenance investment projects will be identified by continuously improved asset management systems. With the advent of the incentive-driven Provincial Road Maintenance Grant, a closer relationship with the departmental Monitoring and Evaluation unit will be fostered in order to maximise the impact of meeting the Grant requirements, whilst optimising preservation of the road network.

The investigation into the economic and operational efficiency of the present regional road maintenance model will be guided by the outcome of the Branch's organisational restructuring. It is further envisaged that the approval of the new organisational structure will largely assist in the streamlining of the road planning, construction and maintenance functions toward being more responsive toward government-wide objectives and in optimising the use of internal and external resources, and aligning with IDMS provisions.

The drafting of the Subsidy and Planning sub-regulations of the Western Cape Transport Infrastructure Act, 2013 (Act 1 of 2013) was completed in 2015/16, however, the chapter on Advertising needs to be reviewed in the Act due to considerations of the City of Cape Town's by-laws on advertising. Furthermore, an additional chapter on dealing with the implications of the Telecommunications Act will be incorporated. The legal certification and gazetting of the full regulations are thus earmarked for the end of the 2016 calendar year. The review of the Road Access Guidelines will continue during 2016/17. Ten graduates on the Professional Development Programme will be ready for registration with the Engineering Council of South Africa in 2016/17 and four in 2017/18.

Ten graduates will be ready for registration in 2016/17 through the Professional Development Programme and four in 2017/18.

Programme 4 – Transport operations

The Programme will aim to achieve the following:

The full and consolidated roll-out of the GIPTN, with a particular focus on providing a very high standard of service to the people of George, refining operations to achieve financial sustainability and enhancing the ability of Government to manage operations and the contract.

Effective management and monitoring of the subsidised bus operator and the associated Public Transport Operations Grant (PTOG) in compliance with the PTOG requirements, until such time as the function shifts to the City of Cape Town.

Begin to implement the recommendations of the Provincial Public Transport Institutional Framework (PPTIF), through the formalisation of the institutional structures with a selected priority municipality in conjunction with the development of detailed technical operational and business plans for that priority municipality.

The development of a Rail Implementation Programme which consolidates the Western Cape Government's approach to rail and identifies rail support initiatives.

Programme 5 – Transport Regulation

After registration of the newly completed facilities at Gene Louw Traffic College, the facilities will primarily be used for training but also to assist with traffic law enforcement activities. The facilities will also be used by the departmental inspectorate to re-test drivers and motor vehicles where required.

Impact assessments will be conducted to determine the quality of training delivered and monitor law enforcement activities as part of measuring the quality of service delivery.

Road safety awareness and education campaigns will be strengthened, while fatigue management interventions will continue.

In-vehicle enforcement technology that integrates with the roll-out of automatic number plate recognition and average speed enforcement cameras will be tested.

The Department will continue to liaise with the national Department of Transport and municipalities to manage and alleviate the negative impact on service delivery resulting from litigation and delays relating to the finalisation of contracts for the maintenance and development of eNATIS and the provision of Live Capturing Units (LCU's) at Driving Licence Testing Centres.

The Provincial Regulatory Entity (PRE) will develop standard operating procedures for the management of hearings called in terms of Section 79 of the National Land Transport Act. These procedures will be drawn up in consultation with Legal Services in the Department of the Premier and the leadership of the public transport industry.

Programme 6 – Community Based Programmes

Continued development and empowerment of communities and the construction industry towards sustainable economic and employment growth, by developing and empowering emerging contractors.

Assessing the implementation of empowerment interventions on specific projects to inform the design and construction process. Empower and develop unemployed youth through targeted integrated skills and artisan development programmes.

Training of 50 contractors on the four week Municipal Based training and 60 contractors on the ten week training programme. 340 unemployed youth will be targeted to participate in either Learnerships or Apprenticeship programmes across the Western Cape. Ten Empowerment Impact Assessments will be conducted on planned infrastructure projects and 25 Empowerment Target Implementation Reports will be conducted.

4. Reprioritisation

The Department undertook a line-by-line evaluation of the budget provisions at lowest item level, per cost centre, taking into account cost containment measures, expenditure trends, as well as activities and projects to be undertaken by the Programmes.

Identified savings were reprioritised to defray increased costs on activities, projects, items and any new initiatives within the Programmes.

As this is mainly a project driven Department, mini business cases were developed for non-infrastructure projects and projects lists compiled from the U-Amp, R-Amp and C-Amp processes for infrastructure projects. These were evaluated by management against national and provincial priorities and core spending activities.

The application of the Government's cost of employees' austerity measures necessitated the revision of projects based on staff capacity to deliver services.

The provision for the acquisition of immovable assets will be augmented through the proceeds from disposal of such assets. This approach will serve as an incentive for client departments to relinquish and reduce unutilised immovable asset stock.

5. Procurement

Two major projects were procured in the latter part of the 2015/16 financial year to commence construction in 2016/17 in respect of roads infrastructure. These are:

C818 Rehabilitation of 13.4 km of Trunk Road from Ashton to Montague through Cogmanskloof, and

C1046 Extension of third land on Trunk Road 9 section 1 (N1) from Durban Road to the start of the National Route 1.

The ongoing review and performance monitoring of, and client engagements on the Supply Chain Management System of the Department aims to improve turn-around times, procurement strategies fit for purpose and accelerate infrastructure delivery.

In addition, the Department annually invests in training and development of staff involved in the Department's supply chain.

The configuration of the programme and project management tool (BizProjects) to facilitate the capturing/ analysing of management information relating to construction procurement will assist in enhancing the supply chain management system.

Procurement plans aligned to budget allocations for infrastructure are due in April 2016. The weakened economic outlook and accompanied austerity measures in relation to cost of employees and infrastructure allocations requires that the procurement plan addresses alternative delivery strategies, pricing strategies, packaging strategies, including a plan to undertake the review of non-core goods and services, and a plan to undertake an impact analysis of said strategies. As part of these strategies the undertaking of pilot projects to explore savings will be carefully considered against the associated risk of failure. Stringent measures will be considered to deal with the evaluation of bids in as short a period as possible, including all relevant approvals through the IDMS gates prior to the invitation of bids. ICT procurement remains a risk and a possible threat to the austerity planning given the legislative mandates around SITA services. A departmental strategy pertaining to the purchasing of modernised office accommodation furniture is well underway that will entail the consideration of framework contracts for the provision of such furniture, the procurement process of which will be facilitated by this Department.

In 2014/15 the Department initiated a three year reduction of consultants plan. This initiative has shown positive results and currently the trends indicate that the Department has undertaken an increased number of projects without an increase in consultants or cost.

The impact of the austerity measures on the SCM environment is that staff in the Department are offered positions in the infrastructure procurement environment at higher salaries in other departments, with a consequential risk that this loss in the Department cannot be replenished.

In the context of implementing agent the weakened economy has had a significant impact not just from a demand perspective, but also as it pertains to the Department's suppliers and contractors. The Supply Chain has been faced with an increase in contractors (small and large) failing more regularly in the execution of infrastructure delivery. This means that completion contracts have to be put in place with an associated cost that is unavoidable, unless there is a rethink pertaining to infrastructure delivery.

6. Receipts and financing

Summary of receipts

Table 6.1 below shows the sources of funding for the vote.

Note: National conditional grant: Devolution of Property Rate Funds Grant subsumed in equitable share as from 2013/14.

Summary of receipts:

Total receipts increased by R29.253 million or 0.4 per cent from R6.759 billion from the 2015/16 revised estimate to R6.789 billion in 2016/17.

Treasury funding:

National conditional grants comprise 25.3 per cent of total receipts for 2016/17 and include the following: Provincial Roads Maintenance Grant, the Public Transport Operations Grant, and the Expanded Public Works Integrated Grant to Provinces. The total conditional grant allocation has increased by 3.2 per cent from R1.664 billion in 2015/16 main appropriation to R1.716 billion in 2016/17.

The Equitable Share comprises 50.2 per cent of total receipts and decreases by R102.286 million or 2.9 per cent from R3.511 billion in 2015/16 main appropriation to R3.409 billion in 2016/17. The equitable share portion includes Provincial Treasury priority allocations to the amount of R775 million and earmarked funding amounting to R3.641 billion.

The Asset Finance Reserve funding (AFR) comprises 4.4 per cent of total receipts for 2016/17 and is used to fund infrastructure related expenditure.

Departmental receipts:

Tax receipts

Motor vehicle licence revenue dominates provincial own receipts, contributing 93.5 per cent of departmental receipts in 2016/17. Further increases in motor vehicle licence tariffs are under consideration.

Sales of goods and services other than capital assets

Rental of office buildings: Receipts adjustments are based on the number of buildings, the relevant lease amount, and periodical increase of the lease amount as per agreement and risk of bad debt.

Other licences and permits: Receipts adjustments are based on expected demand and revised tariffs on abnormal loads fees, applications to stage sports and events, filming shoots on public roads, traffic law enforcement course fees and demand for personalised and special motor vehicle licence numbers.

Sale of capital assets

A programme is underway to dispose of properties surplus to the Provincial Government needs. In line with the statutory provisions, preference will be given to the other spheres of Government prior to the properties being made available to the open market.

Donor funding (excluded from vote appropriation)

None.

7. Payment summary

Key assumptions

Stable political and managerial leadership

Sufficient managerial and operational capacity

Effective communication with clients

Timely environmental impact assessment Records of Decision and Mining Licences

No extreme weather events

No exogenous shocks related to increases in rates payable

Buy-in from stakeholders and partners

Sound intergovernmental relations

Growth in the Western Cape's motor vehicle population

Voluntary payment of receivables

No further deterioration of the economic environment

An effective and efficient Corporate Service Centre

Effective, efficient and economical government service providers

National outcomes, provincial strategic goals, departmental strategic outcome orientated goals and objectives as encapsulated in the department's Strategic and Annual Performance Plans will remain unchanged over the MTEF period.

Programme summary

Table 7.1 below shows the budget or estimated expenditure per programme and Table 7.2 per economic classification (in summary). Details of the Government Financial Statistics (GFS) economic classifications are attached as an annexure to this vote.

Table 7.1 Summary of payments and estimates

Table 7.3.1 shows a summary of infrastructure payments and estimates by category for Public Works Infrastructure. The construction and maintenance projects relating to general building that will be undertaken over the medium term are listed in more detail in Annexure A.5.1.

The new and replacement assets category decreases over the MTEF. The decrease is mainly due to the realignment of the acquisition and construction components of the Cape Town Central City Regeneration Programme projects to Construction and Acquisition respectively, as well as the suspension of the earmarking for this Programme in 2018/19. The decrease on rehabilitation, renovations and refurbishments over the MTEF is due to a substantial decrease on the allocation for the Modernisation Programme from 2017/18 onwards. The increase in 2016/17, if compared to the adjusted appropriation 2015/16, is mainly due to a downward adjustment on the Modernisation Programme in 2015/16 due to insufficient decanting space and internal capacity at the time. Maintenance and repairs reflect very little change over the MTEF period but includes an allocation from the Expanded Public Works Programme Integrated Grant for Provinces in 2016/17.

Table 7.3.1 Provincial infrastructure payments and estimates by Category: Public Works Infrastructure

Total provincial infrastructure payments and estimates	333 024	427 436	542 855	735 866	648 327	648 327	730 919	587 969	523 590

Table 7.3.2 shows a summary of infrastructure payments and estimates by category for Transport Infrastructure. The construction and maintenance projects to be undertaken over the medium term to improve the road network are listed in more detail in Annexure A.5.2.

The increase in the new and replacement assets category over the MTEF is due to the Saldanha Industrial Development Zone (IDZ) and port expansion project, the Gouda weighbridge project and the Hermanus bypass moving into construction phase. The allocation for existing infrastructure assets reflects a marginal change over the MTEF period.

^a Projects signed in terms of Treasury Regulation 16

^b Projects in preparation, registered in terms of Treasury Regulation 16.9

Disclosure notes for projects signed in terms of Treasury Regulation 16

Project name	Chapman's Peak Drive
Brief description	Design, construction and operation of a toll road.
Date PPP Agreement signed	21 May 2003
Duration of PPP Agreement	30 years
Significant contingent fiscal obligations including termination payments, guarantees, warranties, and indemnities and maximum estimated value of such liabilities.	The fourth addendum to the Concession Agreement was signed in November 2013. Province will provide revenue support, which amount is based upon the shortfall of toll fees and expenses. Province's contribution to the shortfall will be re-couped over the concession period. The construction of the Toll Plaza at Hout Bay was completed during August 2013. There was a significant increase of net toll traffic volume for December year-on-year of fourteen per cent, with December 2014 being a bumper month, reflecting a month-on-month increase of forty eight per cent.
Project name	Prestwich Precinct
Brief Description	To unlock the development potential of the Alfred Street Complex site within the Prestwich Precinct.
Note	The project was registered as a PPP with the National Treasury (NT) on 24 January 2012. An Investors Conference was held on 26 March 2014, wherein the property was show-cased with three other potential developments in the CBD. To assess the market appetite for the development of the four properties, an Expression of Interest (EOI) was also advertised during March 2014. The responses were assessed and contributed valuable inputs for consideration, in determining the optimal developmental options available, for this site. Work on the feasibility study is currently underway by the Transaction Advisors, to determine the developmental potential for this site.

Project name	Cape Town Head Office Accommodation
Brief Description	To develop the Leeuwen/Loop site for accommodation purposes, for the Department of Education as the resident tenant, relocating from leased premises to owned premises.
Note	The project was registered as a PPP with the NT on 17 February 2011 and is progressing as planned. TA I was obtained from NT on 19 November 2012. TA IIA RFQ obtained from NT on 27 May 2013. TA IIA RFP obtained from NT on 9 December 2013. Recommendation for Preferred Bidder and Value for money report is in readiness for submitting to the NT for the TA IIB application, pending approval by the Accounting Officer.
Project name	Government Motor Transport (GMT)-Top Yard
Brief Description	To unlock the development potential of the GMT-Top Yard property.
Note	The project was registered as a PPP with the NT on 27 January 2015. An Investors Conference was held on 26 March 2014, wherein the property was show-cased with three other potential developments in the CBD. To assess the market appetite for the development of the four properties, an Expression of Interest (EOI) was also advertised during March 2014. The responses were assessed and contributed valuable inputs for consideration, in determining the optimal developmental options available, for this site. TA I was obtained in April 2015. Substantial work has been completed on the RFQ documentation.

Transfers

Transfers to public entities

None.

Transfers to other entities

8. Programme Description

Programme 1: Administration

Purpose: To provide overall management support to the Department.

Note: The Corporate Services Centre, vested in the Department of the Premier, provides the following support services to the Department: Human Resource Management, Enterprise Risk Management, Internal Audit, Legal Services, Provincial Forensic Services, and Information and Communication Technology Services.

Analysis per sub-programme

Sub-programme 1.1: Office of the MEC

to render advisory, parliamentary, secretarial, administrative and office support services

Sub-programme 1.2: Management of the Department

to manage the Department and provide an executive support service to the Head of Department

Sub-programme 1.3: Corporate Support

to manage knowledge, communication, the supply chain and finance needs of the Department

to manage the departmental professional development programmes

to facilitate departmental responsibilities in respect of security, occupational health and safety, and human rights

to provide an operational management support service in respect of the Corporate Services Centre

to augment the Government Motor Transport trading account

to make limited provision for maintenance and accommodation needs

Sub-programme 1.4: Departmental Strategy

- to facilitate strategic planning and policy development, integration and co-ordination across spheres of government, functional boundaries, departments and the private sector
- to provide integrated planning
- to provide departmental monitoring and evaluation support services
- to provide for the co-ordination of transversal programmes

Policy developments

Development of a security policy that will include a classification system and a security plan and will address training and awareness in order to develop a common understanding of how documents are classified as well as the destruction of classified information, its storage and access control.

Finalising a skills development strategy to guide the implementation of skills development programmes and interventions to ensure these effectively address the needs of the Department and its clients, and that activities are integrated to eliminate possible duplication and inconsistency.

Finalising a Provincial Public Transport Institutional Framework that will determine the most appropriate role for provincial and local government in the process of public transport transformation and the most effective and efficient institutional structures and relationships required to successfully achieve transformation.

Finalising the review of the Provincial Land Transport Framework to guide all transport and land-use provincial decision-making with respect to transport infrastructure maintenance and investment, public transport, road traffic safety and management, as well as guiding district-wide and local integrated transport planning.

Continual assessment and identification to address gaps in policies, processes and procedures.

Changes: Policy, structure, service establishment, geographic distribution of services

The policy measures to curtail compensation of employee expenditure will cause staff establishments in accordance with the approved organisational structure, to not fully materialise.

Expenditure trends analysis

The provision for 2016/17 for the Programme has decreased by 24.3 per cent compared to the main appropriation for 2015/16 and has decreased by 8.8 per cent compared to the revised estimates for 2015/16. Based on the main appropriation for 2015/16, the Programme shows a decrease of 16.2 per cent over the MTEF. The provision for payments of capital assets for 2016/17 has increased by 70.6 per cent compared to the main appropriation for 2015/16, while current payments have decreased by 24.8 per cent and transfer payments decreased by 22.7 per cent. The net decrease for the Programme is mainly due to curtailing compensation of employee expenditure, rescheduling of the updating of the Integrated Transport Planning in 2017/18 and shifting of the allocation for the Provincial Public Transport Institutional Framework to Programme 4: Transport Operations.

Strategic outcome-oriented goal as per Strategic Plan

Promote good governance, effectiveness and efficiency throughout the Department.

Strategic objectives as per Annual Performance Plan

Improve the quality of finance management.

Facilitate effective and secure utilisation of information systems, processes and knowledge within the Department.

Improve skills and capacity in the transport, built, engineering and related disciplines.

Improve management of transversal and integrated strategic planning, policy development, co-ordination and monitoring and evaluation.

Programme 2: Public Works Infrastructure

Purpose: To provide balanced provincial government building infrastructure that promotes integration, accessibility, sustainability, equity, environmental sensitivity, economic growth and social empowerment.

Analysis per sub-programme

Sub-programme 2.1: Programme Support

- to manage the programme and render an administrative and professional support service
- to act as preferred implementing agent for the delivery of building infrastructure

Sub-programme 2.2: Planning

- to manage the demand for infrastructure
- to develop, monitor and enforce built sector and property management norms and standards
- to assist with the development of User Asset Management Plans
- to development Custodian Asset Management Plans and related implementation plans

Sub-programme 2.3: Construction

- to construct, upgrade and refurbish building infrastructure
- to manage contracts and projects

Sub-programme 2.4: Maintenance

- to perform routine and scheduled maintenance
- to conduct conditions assessment of all buildings
- to alter building infrastructure for reasons other than maintaining the asset

Sub-programme 2.5: Immovable Asset Management

to manage the property portfolio of the province
 to provide accommodation for all provincial departments and other institutions
 to acquire and dispose properties
 to manage property rates payments
 to manage leasing-in and leasing-out of property
 to manage the asset register
 to monitor and evaluate the utilisation of provincial government facilities

Sub-programme 2.6: Facility Operations

to manage the operations of buildings, including facilities management, cleaning, greening, beautification, interior decorating and design, and day to day preventative maintenance of electronic, electrical and mechanical equipment

Policy developments

The following policy development work will be undertaken and/concluded:

Development of norms and standards for the provision of office accommodation (in terms of the Office Modernisation programme and including the associated furniture policy and Ce-I Policy). The associated furniture policy will set out the principles for the provision of office furniture in the Western Cape Government and will cover responsibilities for specifications, procurement and inclusion in appropriate asset registers.

Development of an Immovable Asset Management Policy and associated Immovable Asset Management System, to regulate and manage immovable assets (land and buildings) as part of the Accounting Officer's System required in terms of the Public Finance Management Act, 1999 (Act 1 of 1999) (PFMA).

Development of a provincial maintenance strategy.

Policies emanating from Government Immovable Asset Management Act, 2007 (Act 19 of 2007) (GIAMA):

Immovable Asset Management Policy (as above)

Drafting of Western Cape Immovable Asset Management Bill (WCIAMB), which will repeal the Western Cape Land Administration Act, 1998 (Act 6 of 1998) and its Regulations. The intention of the Bill is to align the land administration legislation to the strategic asset management legislation (GIAMA)

Policies emerging from the institutionalisation of the Infrastructure Delivery Management System.

Changes: policy, structure, service establishment, geographic distribution of services

The policy measures to curtail compensation of employee expenditure will cause staff establishments in accordance with the approved organisational structure, to not fully materialise.

Expenditure trends analysis

The provision for 2016/17 for the Programme has decreased by 4.8 per cent compared to the main appropriation for 2015/16 and has decreased by 1.8 per cent compared to the revised estimates for 2015/16. Based on the main appropriation for 2015/16, the Programme shows a decrease of 5.2 per cent over the MTEF. The provision for payments of capital assets has decreased by 10.6 per cent compared to the main appropriation for 2015/16, while current payments have decreased by 6.4 per cent and transfer payments has increased by 7.4 per cent. The net decrease for the Programme is mainly due to curtailing compensation of employee expenditure, a decrease in the allocation for acquisitions as well as a decrease on infrastructure provisions over the MTEF.

Strategic outcome-oriented goals as per Strategic Plan

Promote good governance, effectiveness and efficiency throughout the Department.

Manage provincial infrastructure and immovable assets in the Western Cape.

Strategic objectives as per Annual Performance Plan

Improve efficiency of office accommodation through the reduction of cost and improved space utilisation.

Delivery of sustainable infrastructure and accommodation to clients.

Effective usage of provincial immovable assets.

Promote and facilitate socio-economic development through infrastructure development and property management projects.

Programme 3: Transport Infrastructure

Purpose: To deliver and maintain transport infrastructure that is sustainable, integrated, and environmentally sensitive, that supports and facilitates social empowerment and economic growth and promotes accessibility and the safe, affordable movement of people, goods and services.

Analysis per sub-programme

Sub-programme 3.1: Programme Support Infrastructure

to manage and support the programme

Sub-programme 3.2: Infrastructure Planning

to provide policy and legislative framework for transport

to provide network planning for proclaimed roads

to integrate transport and spatial/development planning

to assist local authorities with planning and design of roads that qualify for subsidy

to undertake planning and promote implementation of public transport systems and services

to plan integrated modal transport facilities and systems for all modes of transport

to promote improvement of safety on transport infrastructure

Sub-programme 3.3: Infrastructure Design

to provide geometric, material, structural and traffic engineering designs of provincial proclaimed roads
to provide laboratory, survey, GIS, mapping, proclamation and expropriation services and manage property rates payments

to provide management and information systems for the provincial road network

Sub-programme 3.4: Construction

to construct and rehabilitate provincial proclaimed roads and related transport infrastructure
to assist local authorities and the City of Cape Town with subsidies for infrastructure projects
to construct roads and related transport infrastructure through community based projects

Sub-programme 3.5: Maintenance

to maintain provincial proclaimed roads and related transport infrastructure
to render technical support including radio network services and training
to maintain roads and related transport infrastructure through community based projects

Policy developments

The following policy development work will continue:

Review Technical Standards for road design and construction

Drafting of regulations to the Western Cape Road Traffic Administration Act

The review of the Road Access Guidelines

Changes: Policy, structure, service establishment, Geographic distribution of services

The organisational structure review of the Chief Directorate: Road Network Management is in progress. The review will also consider the current role of district municipalities within the transport infrastructure service delivery environment.

The policy measures to curtail compensation of employee expenditure will cause staff establishments in accordance with the approved organisational structure, to not fully materialise.

Expenditure trends analysis

The provision for 2016/17 for the Programme has increased by 0.9 per cent compared to the main appropriation for 2015/16 and has increased by 1.2 per cent compared to the revised estimates for 2015/16. Based on the main appropriation for 2015/16, the Programme shows an increase of 9.7 per cent over the MTEF. The provision for payments of capital assets has decreased by 1.3 per cent compared to the main appropriation for 2015/16, while current payments have increased by 7.1 per cent and transfer payments have increased by 18.5 per cent. The nominal growth on this Programme is as a result of the curtailing of compensation of employee expenditure, and the reduction in the Provincial Roads Maintenance Grant. However, an increased allocation from the Asset Finance Reserve from 2017/18 is an important reason for the increase in the allocation for infrastructure over the MTEF.

Strategic outcome-oriented goals as per Strategic Plan

Promote good governance, effectiveness and efficiency throughout the Department.

Maximise empowerment and job creation in the Western Cape.

Strategic objectives as per Annual Performance Plan

Enable an efficient road-based transport infrastructure network through maintenance and repair.

Support economic growth and empowerment through road-based transport Infrastructure investment.

Note: Sub-programmes 3.4 and 3.5: 2016/17: National conditional grant: Provincial Roads Maintenance: R830 729 000.

The motor vehicle licence provision is utilised as a minimum provision benchmark; R1 277 065 000 (2016/17), R1 329 156 000 (2017/18) and R1 406 247 000 (2018/19).

Earmarked allocation:

Included in Sub-programmes 3.2: Infrastructure Planning, 3.3: Infrastructure Design, 3.4: Construction and 3.5: Maintenance is an earmarked allocation amounting to R2.843 billion (2016/17), R3.071 billion (2017/18) and R3.131 billion (2018/19) for Transport Infrastructure. This includes the Provincial Roads Maintenance Grant.

Programme 4: Transport Operations

Purpose: To plan, regulate and facilitate the provision of integrated land transport services through co-ordination and co-operation with national planning authorities, municipalities, community based and non-governmental organisations and the private sector in order to enhance and facilitate the mobility of all communities.

Analysis per sub-programme

Sub-programme 4.1: Programme Support Operations

to manage and support the programme

Sub-programme 4.2: Public Transport Services

to manage public transport contracts

to manage the subsidies for public transport operators

Sub-programme 4.3: Transport Safety and Compliance

to manage, co-ordinate and facilitate land transport safety and compliance

Sub-programme 4.4: Transport Systems

to manage and operate public transport systems and related support services

Policy developments

Realignment of the Provincial Transport Bill and associated regulations to the NLTA Amendment Bill.

The assignment of the subsidised bus service contract to the City of Cape Town.

Changes: Policy, structure, service establishment, geographic distribution of services

The policy measures to curtail compensation of employee expenditure will cause staff establishments in accordance with the approved organisational structure, to not fully materialise.

Expenditure trends analysis

The provision for 2016/17 for the Programme has increased by 13.6 per cent compared to the main appropriation for 2015/16 and has increased by 4.3 per cent compared to the revised estimates for 2015/16. Based on the main appropriation for 2015/16, the Programme shows an increase of 25.2 per cent over the MTEF. The provision for payments of capital assets has decreased by 46.4 per cent compared to the main appropriation for 2015/16, while current payments have increased by 37.9 per cent and transfer payments have increased by 11.1 per cent. The net increase for the Programme is mainly due to increased provisions for the George Integrated Public Transport Network commitments, the Public Transport Operations Grant, the shifting of the allocation for the Provincial Public Transport Institutional Framework from Programme 1: Administration, as well as internal re-alignment of the budget allocation in the Programme.

Strategic outcome-oriented goals as per Strategic Plan

Promote good governance, effectiveness and efficiency throughout the Department.

Deliver safe, efficient and integrated transport systems in the Western Cape.

Strategic objectives as per Annual Performance Plan

Enhance mobility and access in municipalities through the development, implementation and management of incremental public and non-motorised transport networks.

Improve transport safety through the development and implementation of a public transport safety implementation programme.

Enhance strategic approach to rail and freight and strengthened coordination with key stakeholders through the development of an implementation programme for rail and freight.

Improve support to public and non-motorised transport stakeholders through institutional change initiatives.

Programme 5: Transport Regulation

Purpose: To regulate the transport environment through the registration and licensing of vehicles, associations, operators and drivers; to promote safety through traffic law enforcement services, facilitate road safety education, communication, awareness and the operation of weighbridges; and to provide training to traffic policing and other law enforcement officials.

Analysis per sub-programme

Sub-programme 5.1: Programme Support Regulation

to manage and support the programme

Sub-programme 5.2: Transport Administration and Licensing

to, in respect of licensing administration, monitor and control all aspects related to the registration and licensing of motor vehicles

to, in respect of law administration, monitor and control all aspects related to driver and vehicle fitness

Sub-programme 5.3: Operator Licence and Permits

to manage the regulating of public transport operations, including the registration of operators, associations and the processing of applications for operating licences

to monitor and control the issuing of permits for abnormal loads, sporting events and transport of hazardous goods

Sub-programme 5.4: Law Enforcement

to maintain law and order for all modes of vehicular transport by providing consolidated and integrated traffic policing operations

to conduct road safety education and awareness interventions and participate in institutionalised structures and processes over the budget period so as to contribute to reducing road fatalities

to provide training and development to traffic law enforcement officers, examiners of driving licences and examiners of vehicles to ensure uniform norms and standards to operate weighbridge stations within the Province

Policy developments

Development of models for cost-effective, uniform standards and procedures for Vehicle Testing Stations (VTS).

Development of a regulatory framework for integrated, consolidated traffic management systems and processes.

Development of a policy and regulations on metered taxi standards, marking and driver qualifications/requirements.

Development of a policy on the registration of public transport drivers. Development of a comprehensive framework to enhance service delivery in abnormal vehicle registration and abnormal load permit applications.

Changes: Policy, structure, service establishment, geographic distribution of services

The policy measures to curtail compensation of employee expenditure will cause staff establishments in accordance with the approved organisational structure, to not fully materialise.

Expenditure trends analysis

The provision for 2016/17 for the Programme has increased by 2.1 per cent compared to the main appropriation for 2015/16 and has decreased by 0.7 per cent compared to the revised estimates for 2015/16. Based on the main appropriation for 2015/16, the Programme shows an increase of 8.8 per cent over the MTEF. The provision for payments of capital assets has decreased by 1.5 per cent compared to the main appropriation for 2015/16, while current payments have increased by 2.2 per cent and transfer payments decreased by 47.8 per cent. The increase is marginal and provides for the curtailing of compensation of employee expenditure.

Strategic outcome-oriented goals as per Strategic Plan

Promote good governance, effectiveness and efficiency throughout the Department.

Deliver safe, efficient and integrated transport systems in the Western Cape.

Strategic objectives as per Annual Performance Plan

Improve governance in the transport regulatory environment.

Improve road transport safety.

Implement an efficient, effective, and professional traffic management service.

Details of Provincial Motor Transport Trading Entity

Purpose: To provide quality, integrated and cost effective motor transport to state clients.

Fleet Operations

to formulate policy and exercising control, rendering administrative and technical services and advice to management, government motor transport and state clients; dealing with allocation of vehicles and control of the use thereof and accidents, losses and fraud

to purchase vehicles as required for use by the state departments, making available, maintaining and rendering related and support services

Programme 6: Community Based Programmes

Purpose: To manage the implementation of programmes and strategies that lead to the development and empowerment of communities and contractors, including the provincial management and co-ordination of the Expanded Public Works Programme (EPWP).

Analysis per sub-programme

Sub-programme 6.1: Programme Support Community Based

to manage and support the programme

Sub-programme 6.2: Innovation and Empowerment

to implement construction related skills development programmes, including the National Youth Service and apprenticeships

to provide for contractor development in the construction industry, particularly focussing on emerging contractors

to provide for the optimisation of empowerment opportunities on departmental infrastructure projects

to provide implementing bodies with support and advice on labour based construction techniques

Sub-programme 6.3: Co-ordination and Compliance Monitoring

to monitor and evaluate performance of the EPWP in the Province including compliance and reporting on job creation development

to provide government implementing bodies in the four different sectors with technical support in order to increase their contribution to the nationally set EPWP work opportunities targets

Policy developments

To provide a process and framework to implementing branches on the appropriate design and implementation of contractor development programmes through direct or indirect targeting of contractors so as to increase the capacity, equity ownership, sustainability, quality and performance of Construction Industry Development Board (CIDB) registered contractors within the Western Cape.

Changes: Policy, structure, service establishment, geographic distribution of services

The policy measures to curtail compensation of employee expenditure will cause staff establishments in accordance with the approved organisational structure, to not fully materialise.

Expenditure trends analysis

The provision for 2016/17 for the Programme as a whole has increased by 1.9 per cent compared to the main appropriation for 2015/16 and has increased by 1.8 per cent compared to the revised estimates for 2015/16. Based on the main appropriation for 2015/16, the Programme shows a decrease of 1.7 per cent over the MTEF. The provision for payments of capital assets has decreased by 25.1 per cent compared to the main appropriation for 2015/16, while current payments have increased by 2.8 per cent. The net increase for the Programme is mainly due to provision for the filling of vacancies in a phased manner over the medium term. The increase is marginal and provides for the curtailing of compensation of employee expenditure.

Strategic outcome-oriented goals as per Strategic Plan

Promote good governance, effectiveness and efficiency throughout the Department.

Maximise empowerment and job creation in the Western Cape.

Strategic objectives as per Annual Performance Plan

To contribute to sustainable economic and employment growth in communities through construction related development and empowerment interventions.

Facilitate provincial co-ordination and monitoring of EPWP activities amongst all implementing bodies.
